

QUEBEC SILICA RESOURCES CORP.
INTERIM MD&A – QUARTERLY HIGHLIGHTS
FOR THE THREE AND SIX MONTHS ENDED MARCH 31, 2021

Background and Corporate Update

This Management Discussion and Analysis – Quarterly Highlights (“Quarterly Highlights”) for Quebec Silica Resources Corp. (the “Company”) is prepared as at May 21, 2021 and should be read in conjunction with the Company’s unaudited condensed interim financial statements for the three and six months ended March 31, 2021 and in conjunction with its audited financial statements as at and for the year ended September 30, 2020 included in its Prospectus dated March 31, 2021.

The unaudited condensed interim financial statements for the three and six months ended March 31, 2021, and comparative information presented therein, have been prepared in accordance with International Financial Reporting Standard (“IFRS”) and with International Accounting Standard 34, “Interim Financial Reporting”, as issued by the International Accounting Standards Board (“IASB”).

All dollar figures included therein and in the following Quarterly Highlights are quoted in Canadian dollars. Additional information relevant to the Company’s activities can be found on SEDAR at www.sedar.com.

The Company’s principal business activities include the acquisition and exploration of mineral resource properties. The Company has two exploration properties located in south-western Quebec: 1) the Charlevoix Properties, and 2) the recently acquired Roche Blanche Property.

During the period, the Company was pursuing a listing on the Canadian Securities Exchange (“CSE”). On April 1, 2021, a Prospectus filed by the Company was given final receipt by the British Columbia Securities Commission and on April 28, 2021, the Company’s common shares began trading on the CSE under the symbol ‘QTZ’.

Forward-Looking Statements

Certain statements contained in the MD&A may constitute forward-looking statements. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These risks include, but are not limited to, the Company’s business plans focussed on the exploration and development of its mineral properties; proposed work programs on its mineral properties; costs and timing of future exploration and development activities; timing and receipt of approvals, consents and permits under applicable legislation; use of available funds and ability for the Company to raise additional funds; business objectives and milestones; and adequacy of financial resources. A more detailed discussion of forward-looking statements is included in the Company’s Prospectus dated March 31, 2021. Readers are cautioned not to place undue reliance on forward-looking statements.

Risks and Uncertainties

Due to the nature of the Company’s business and the present stage of development of its business, the Company is subject to significant risks. Readers should carefully consider all such risks. Risk factors include, but are not limited to, limited operating history, speculative nature of mineral exploration, dilution, mineral titles, loss of interest in properties, permits and government regulations, environmental and safety regulations and risks, fluctuating mineral prices, financing risks and competition. A more detailed discussion of these risk factors is included in the Company’s Prospectus dated March 31, 2021.

During the first quarter of calendar 2020, there was a global outbreak of a novel coronavirus identified as “COVID-19”. On March 11, 2020, the World Health Organization declared a global pandemic. In order to combat the spread of COVID-19, governments worldwide have enacted emergency measures including travel bans, legally enforced or self-imposed quarantine periods, social distancing and business and organization closures. These measures have

caused material disruptions to businesses, governments and other organizations resulting in an economic slowdown and increased volatility in national and global equity and commodity markets.

Central banks and governments, including Canadian federal and provincial governments, have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of any interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods.

Exploration and Evaluation Properties

Charlevoix Properties

On August 10, 2020, the Company entered into an agreement with Macdonald Mines Exploration Ltd. for the purchase of six mineral claims, referred to as the Charlevoix Properties, covering an estimated 346.95 hectares located in south-western Quebec, Canada.

The agreement provided for the purchase of these claims in consideration of 1,000,000 common shares of the Company. On February 2, 2021, the Company issued the 1,000,000 common shares to complete the acquisition.

During the six months ended March 31, 2021, the Company has incurred \$55,695 on the Charlevoix Properties for the completion of the NI43-101 Technical Report and the payment of 1,000,000 common shares valued at \$50,000 for the purchase of the six mineral claims.

In the coming months, the Company intends to commence work on an exploration program on the Charlevoix Properties budgeted at \$105,500. The exploration program will consist of line cutting, mapping, ground geophysics, trenching and sampling. The exploration program is described in greater detail in the Company's March 31, 2021 Prospectus.

Roche Blanche Property

On April 26, 2021, the Company entered into an agreement with a group of arm's length parties to acquire a 100% interest in seven contiguous mining claims covering a total area of 404.81 hectares located near the Charlevoix Properties in the Lac-Pikauba Municipality of the Province of Quebec, Canada.

The Roche Blanche Property is approximately 1.3 km along a geological strike from the Charlevoix Properties. The high-grade silica formation, known as the Quartzite du Petit lac Malbaie, is actively mined by neighbouring operators and is mapped to extend through the Charlevoix Properties and through the new Roche Blanche Property.

The agreement provided for the purchase of these claims in consideration of 4,000,000 common shares of the Company. Certain sellers will retain a 2.0 % net smelter royalty ("NSR") from any future production. The Company has the right to reduce the 2.0% NSR to a 1.0% NSR by paying \$1,000,000.
