Defence Therapeutics Inc.
Notes to the Condensed Interim Financial Statements
For the Three Months Ended September 30, 2021 and 2020
(Unaudited – Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Defence Therapeutics Inc. (the “Company”) was incorporated as Accum Therapeutics Inc. on July 18, 2017, under the laws of the province of Québec. The Company changed its name to Defence Therapeutics Inc. on March 26, 2020 and was continued into British Columbia on July 10, 2020. Its principal business activity is the development of a biological drug enhancer platform that improves the efficacy and safety of a multitude of biological/biosimilar-based pharmaceuticals used in the treatment of cancer and infectious diseases. The Company’s head office address and registered and records office is 1680 – 200 Burrard Street, Vancouver, British Columbia, Canada, V6C 3L6.

On April 30, 2021, the Company became a reporting issuer, and on May 7, 2021, the Company’s common shares were listed on the Canadian Securities Exchange (“CSE”) and began trading under the symbol “DTC”.

2. GOING CONCERN

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company’s ability to continue its operations and to realize assets at their carrying value is dependent upon its ability to generate positive cash flows and/or obtain additional financing sufficient to fund its development and operating costs. The Company may be able to generate working capital to fund its operations by raising additional capital through equity markets. However, there is no assurance it will be able to raise funds in the future. Based on its current plans, budgeted expenditures and cash requirements, the Company has sufficient cash to finance its current plans for at least twelve months from the date the condensed interim financial statements are issued. These condensed interim financial statements do not give effect to any adjustments required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying condensed interim financial statements.

If the going concern assumption were not appropriate for these condensed interim financial statements, then adjustments may be necessary in the carrying values of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

In early March 2020, there was a global outbreak of coronavirus (COVID-19). The effects of COVID-19 could delay any future clinical trials, the magnitude of which will depend, in part, on the length and severity of the restrictions and other limitations on the Company’s ability to conduct business in the ordinary course. These and similar, and perhaps more severe, disruptions to operations could negatively impact the Company’s business, financial condition and results of operations, including the ability to obtain financing.

3. BASIS OF PREPARATION

a) Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*.

The condensed interim financial statements of the Company should be read in conjunction with the Company’s June 30, 2021 audited financial statements, which have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board.

These condensed interim financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on November 26, 2021.

3. BASIS OF PREPARATION (Continued)

b) Basis of measurement

These condensed interim financial statements have been prepared under the historical cost basis, except for certain financial instruments, which are measured at fair value, as explained in the significant accounting policies (note 4). These condensed interim financial statements have been prepared under the accrual basis of accounting, except for cash flow information.

4. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared, for all periods presented, following the same accounting policies and methods of computation as described in note 4 to the audited financial statements for the year ended June 30, 2021.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income/loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Critical judgments in applying accounting policies

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the condensed interim financial statements within the next fiscal year are discussed below.

a) Going concern risk assessment

The assessment of the Company's ability to continue as a going concern requires significant judgment. The condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, as disclosed in note 2.

b) Impairment of intangible assets

The application of the Company's accounting policy for intangible assets and impairment of the capitalized expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the year the new information becomes available.

6. FINANCIAL INSTRUMENTS

Financial instruments are agreements between two parties that result in promises to pay or receive cash or equity instruments. The Company classifies its financial instruments as follows: cash is classified as fair value through profit or loss; and accounts payable and accrued liabilities, as amortized cost. The carrying values of these instruments approximate their fair values due to their short term to maturity.

The following table sets forth the Company's financial asset measured at fair value by level within the fair value hierarchy:

September 30, 2021	Level 1	Level 2	Level 3	Total
Cash	\$ 4,509,638	\$ -	\$ -	\$ 4,509,638

June 30, 2021	Level 1	Level 2	Level 3	Total
Cash	\$ 5,452,906	\$ -	\$ -	\$ 5,452,906

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company manages credit risk, in respect of cash, by placing it at major Canadian financial institutions. The Company has minimal credit risk. The sales tax receivable balance of \$99,019 (June 30, 2021 - \$71,624) is owing from the Canada Revenue Agency.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The contractual financial liabilities of the Company as of September 30, 2021 equal \$317,060 (June 30, 2021 - \$122,256). All of the liabilities presented as accounts payable are due within 30 days of the reporting date.

c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on capital.

- i) *Currency risk* – The Company has no funds held in a foreign currency, and as a result, is not exposed to significant currency risk on its financial instruments at period-end.

Defence Therapeutics Inc.
Notes to the Condensed Interim Financial Statements
For the Three Months Ended September 30, 2021 and 2020
(Unaudited – Expressed in Canadian Dollars)

6. FINANCIAL INSTRUMENTS (Continued)

c) Market risk (continued)

ii) *Interest rate risk* – Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. Interest earned on cash is at nominal interest rates, and therefore, the Company does not consider interest rate risk to be significant. The Company has no interest-bearing financial liabilities.

iii) *Other price risk* – Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk. The Company is not exposed to significant other price risk.

d) Capital management

The Company considers its capital to be comprised of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares. Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will continue this method of financing due to the current difficult market conditions.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

Management reviews the capital structure on a regular basis to ensure that the above objectives are met. There have been no changes to the Company's approach to capital management during the three months ended September 30, 2021. The Company is not subject to externally imposed capital requirements.

7. INTELLECTUAL PROPERTY AND INTANGIBLE ASSETS

On May 12, 2017, prior to the incorporation of the Company, a precursor entity to the Company and a former principal of the Company, entered into an Intellectual Property Assignment and Royalty Agreement (the "Original IP Assignment and Royalty Agreement") with TransferTech Sherbrooke, a limited liability partnership ("TTS"), and Jeffrey Victor Leyton ("Leyton"), a professor at the Université de Sherbrooke. The Original IP Assignment and Royalty Agreement assigns Leyton's invention known as "Novel Immunoconjugates with cholic acid nuclear localization sequence peptide and uses thereof" (the "Accum Invention") and any related intellectual property to the Company.

On May 20, 2020, the Company and TTS entered into an amended and restated Intellectual Property Assignment and Royalty Agreement (the "Amended IP Assignment and Royalty Agreement"), which amends and restates the Original IP Assignment and Royalty Agreement, assigning the Accum Invention and any related intellectual property to the Company in exchange for consideration as follows:

- \$25,000 upon completion of the agreement (paid); and
- The issuance of 2,085,714 common shares of the Company (issued and valued at \$312,857).

(Unaudited – Expressed in Canadian Dollars)

7. INTELLECTUAL PROPERTY AND INTANGIBLE ASSETS (Continued)

The Company must also make milestone payments related to the Accum Invention and any related or derivative inventions as follows:

- \$10,000 within 30 days of the completion of the first non-rodent positive toxicology study;
- \$25,000 within 30 days of the recruitment of the first phase 1 patient;
- \$50,000 within 30 days of the recruitment of the first phase 2 patient;
- \$100,000 within 30 days of the recruitment of the first phase 3 patient; and
- \$250,000 within 30 days of the first regulatory approval from a relevant registration authority.

In addition, the Company must pay a royalty of 3% calculated on the net revenues and all commercial activities involving the Accum Invention, and 4% calculated on the net revenues and all commercial activities involving any related or derivative inventions.

The Company was also required to enter into a research contract for a minimum of \$45,000 (completed).

The Company has determined that the cash and share consideration paid for the Amended IP Assignment and Royalty Agreement, along with the costs of the research contract, do not qualify as development costs. Accordingly, the amounts have been expensed to research and lab fees.

The Company has capitalized the following amounts as intangible assets:

	Intellectual Property
Cost	
Balance at June 30, 2020, June 30, 2021 and September 30, 2021	\$ 46,018

On December 1, 2020, the Company entered into an option and right of first refusal agreement to acquire intellectual property. In order to acquire the intellectual property, the Company paid \$25,000 and must make additional payments as follows:

- Up to \$200,000 in development costs on or before March 31, 2023 to exercise the option;
- \$75,000 upon completion of the acquisition;
- A minimum of \$200,000 related to a service agreement for continuing development to be entered into between the Company and the vendor at a future date within 36 months of the option exercise date; and
- \$100,000 upon submission of a patent for the intellectual property.

The Company's Chief Technical Scientific Officer is an officer of the vendor. The Company has determined the costs do not qualify as development costs. Accordingly, the amounts have been expensed to research and lab fees.

c) Warrants (continued)

The fair value of each finder's warrant issued was calculated using the following weighted average assumptions:

	Three Months Ended September 30, 2021	Year Ended June 30, 2021
Expected life (years)	N/A	2.42
Risk-free interest rate	N/A	0.27%
Annualized volatility	N/A	154%
Dividend yield	N/A	N/A
Stock price at grant date	N/A	\$ 0.41
Exercise price	N/A	\$ 0.41
Weighted average grant date fair value	N/A	\$ 0.31

Option pricing models require the input of highly subjective assumptions regarding volatility. The Company has estimated the volatility of the share price based on comparable start-up companies' volatilities.

During the three months ended September 30, 2021, the Company transferred \$60,954 (year ended June 30, 2021 - \$150,801) from the share-based payments reserve to share capital as 367,400 (year ended June 30, 2021 - 1,492,100) finder's warrants were exercised.

d) Stock options

The Company has a stock option plan to grant incentive stock options to directors, officers, employees and consultants. Under the plan, the aggregate number of Common Shares that may be subject to option at any one time may not exceed 10% of the issued common shares of the Company as of that date, including options granted prior to the adoption of the plan. Options granted may not exceed a term of 10 years. All options vest when granted unless they are otherwise specified by the Board of Directors.

Stock option transactions and the number of stock options outstanding are summarized as follows:

	Three Months Ended September 30, 2021		Year Ended June 30, 2021	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
