## **SUMMARY DESCRIPTION OF BUSINESS**

### **What is our business?**

The Company is an exploration-stage mining company with a focus on copper and gold, with an option to acquire 100% of the Colpayoc Property in Peru. Colpayoc has significant, untested potential for supergene and porphyry copper – gold mineralization at depth, beneath drill holes bottoming in oxide gold-copper mineralization. Colpayoc is largely untested with limited drilling and is similar to many of the world class porphyry copper-gold deposits within the prolific Yanacocha District. The Company continues to evaluate opportunities in the mineral sector on an ongoing basis.

To the extent that the Company completes the Offering in tranches and the closing of one or more tranches occurs after the Consolidation, then the subscriber will receive securities of the Company on a post-Consolidation basis. The Company anticipates that the name change, stock ticker symbol change and Consolidation will occur on or about December 22, 2023.

## Material facts

There are no material facts about the securities being distributed that have not been disclosed in this offering document or in any other document filed by the Company in the 12 months preceding the date of this offering document.

## What are the business objectives that we expect to accomplish using the available funds?

The Company intends to issue up to 33,333,333 Units for gross proceeds of \$5,000,000 pursuant to the listed issuer financing exemption under part 5A.2 of NI 45-106.

After completion of the Offering, the Company intends to use approximately \$3,600,000 of the available funds for furthering the exploration work on the Company's Colpayoc project in Peru. The Company also intends to use approximately \$1,230,000 of the available funds for working capital and general corporate purposes over a period of 12 months following closing of the Offering.

If the Company completes only the Minimum Offering for gross proceeds of \$3,500,000, then the Company intends to use approximately \$2,500,000 of the available funds for furthering the exploration work on the Company's Colpayoc project in Peru. The Company also intends to use approximately \$845,000 of the available funds assuming completion of the minimum Offering for working capital and general corporate purposes over a period of 12 months following closing of the Offering.

## USE OF AVAILABLE FUNDS

### What will our available funds be upon the closing of the Offering?

The expected total available funds to the Company following completion of the Offering is estimated to be approximately \$4,830,000 assuming completion of the maximum amount of the Offering, and \$3,335,000 assuming completion of only the Minimum Offering.

		Assuming Minimum Offering	Assuming Maximum Offering
A	Amount to be raised by this Offering	\$3,500,000	\$5,000,000
B	Selling commissions and fees	\$35,000	\$50,000
C	Estimated Offering costs (e.g., legal, accounting, audit) <sup>(1)</sup>	\$20,000	\$20,000
D	Net proceeds of Offering: D = A -	\$3,445,000	\$4,930,000
E	Working capital for the most recent	(\$100,000)	(\$100,000)
F	Additional sources of funding	\$nil	\$nil
G	<b>Total available funds: G = D+E+F</b>	<b>\$3,345,000</b>	<b>\$4,830,000</b>

**Note:**

(1) Approximately \$20,000 in legal costs.

**How will we use the available funds?**

Description of intended use of available funds listed in order of priority for the next 12 months	Assuming Minimum Offering	Assuming Maximum Offering
Advancing the Colpayoc property <sup>(1)</sup>	\$2,500,000	\$3,600,000
Working capital and general corporate purposes <sup>(2)</sup>	\$845,000	\$1,230,000
<b>Total</b>	<b>\$3,345,000</b>	<b>\$4,830,000</b>

**Notes:**

- (2) Working capital and general corporate purposes is expected to include salaries, professional fees and general and administration expenditures.

The above noted allocation of capital and anticipated timing represents the Company’s current intentions with respect to its use of proceeds based on the current knowledge, planning, and expectations of management of the Company, which could change in the future as its plans and business conditions evolve. Although the Company intends to spend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company’s ability to execute on its business plan. See the “*Cautionary Statement Regarding Forward-Looking Information*” section above.

The most recent audited annual financial statements and interim financial report of the Company included a going concern note. As the Company is in the exploration stage, it has no income from operations, and its principal source of funds is from the issuance of its common shares, which may cast doubt on the Company’s ability to continue as a going concern. The Offering is intended to facilitate the advancement of the Colpayoc property. While the Company’s management believes that the Offering is in the best interests of the Company, the Offering is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.
