A CHAN AND COMPANY LLP
CHARTERED PROFESSIONAL ACCOUNTANT

INDEPENDENT AUDITOR'S REPORT

**To the Shareholders of:
Alma Gold Inc.**

Opinion

We have audited the consolidated financial statements of Alma Gold Inc. (the "Company"), which comprise the consolidated statements of financial position as at November 30, 2022 and 2021, and the consolidated statements of loss and comprehensive loss, consolidated statements of cash flows and consolidated statements of changes in shareholders' equity for the years ended November 30, 2022 and 2021, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as at November 30, 2022, and its financial performance and its cash flow for the year ended November 30, 2022 in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which indicates that the Company incurred a net comprehensive loss of \$235,734 during the year ended November 30, 2022 and, as of that date, the Company had not yet achieved profitable operations, had accumulated losses of \$389,685 since its inception, and expects to incur further losses in the development of its business. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises the Management Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement practitioner on the audit resulting in this independent auditor's report is Anthony Chan, CPA, CA.

ALMA GOLD INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2022 AND 2021
(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Alma Gold Inc. (the “Company” or “Alma”) was incorporated on May 21, 2020 under the laws of British Columbia (Canada) as a wholly-owned subsidiary of Red Lake Gold Inc. (“RGLD”), and was later subject to a plan of arrangement between the Company and RGLD. The address of the Company’s principal place of business and registered office is Suite 810 – 789 West Pender Street, Vancouver, British Columbia, Canada. On June 30, 2022, the Company completed a 10 to 1 share consolidation of its outstanding shares (the “Share Consolidation”). These financial statements have been retroactively restated for the effects of the Share Consolidation.

On November 6, 2020, with the necessary approvals from the Supreme Court of British Columbia, the Company completed its plan of arrangement. Under the terms of the plan of arrangement, RGLD distributed new common shares to RGLD shareholders on the basis of 1 new common share of RGLD and 0.95 common shares of Alma Gold Inc. for every one common share of RGLD then owned (see Note 4).

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at November 30, 2022, the Company had not yet determined whether the Company’s mineral property asset contains mineral reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time.

For the year ended November 30, 2022, the Company incurred a net loss of \$285,734 (2021 - \$140,348) and had a deficit of \$439,685 (November 30, 2021 - \$197,206). The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. These factors may cast significant doubt upon the ability of the Company to continue as a going concern. These consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these consolidated financial statements. Such adjustments could be material.

In March 2020, the World Health Organization declared COVID-19 a global pandemic. The impact of the COVID-19 pandemic has had major implications for all economic activity, including that of the Company and the mining exploration sector overall. At present, it is not possible to predict the duration or ongoing extent, if any, of the adverse effects of the pandemic nor the continuing effect of pandemic variants. Management believes that the impact of the pandemic on the Company will predominantly involve continuing limitations regarding access to the Company’s exploration projects due to potential travel constraints, community access matters and government-imposed activity restrictions leading to a reduced ability to carry-out and/or plan exploration programs, reduced availability of government personnel necessary to advance matters related to the Company’s projects, and higher costs to perform exploration on the Company’s projects, including longer-than usual delays in general corporate activities. Financial market conditions associated with COVID-19 and/or its future variants may also negatively impact the funding environment for the Company and its operations. While it cannot be assured, the Company expects reduced forward-impact of COVID-19 as relates to the mining sector to generally be in-line with normalization of its effects within the broader business sector during 2023 and beyond.

2. BASIS OF PRESENTATION

a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of International Financial Reporting Interpretations Committee.

The policies applied in these consolidated financial statements are based on IFRS issued as at March 28, 2023, the date the Board of Directors of the Company approved these consolidated financial statements.

b) Basis of presentation

These consolidated financial statements have been prepared on the historical cost basis, with the exception of financial instruments which are measured at fair value, as explained in the accounting policies set out below. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

c) Basis of consolidation

These consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary Karita Gold Corp. (“Karita Gold”) effective on February 19, 2021 and Guimor SARL, a wholly-owned subsidiary of Karita Gold. Inter-company balances and transactions have been eliminated on consolidation.

d) Exploration and evaluation assets

Expenses incurred prior the Company obtaining legal title are expensed as incurred. All costs related to the acquisition, exploration and development of mineral properties are capitalized. Upon commencement of commercial production, the related accumulated costs are amortized against projected income using the units-of-production method over estimated recoverable reserves.

Management annually assesses carrying values of non-producing properties and properties for which events and circumstances may indicate possible impairment. Impairment of a property is generally considered to have occurred if the property has been abandoned, there are unfavourable changes in the property economics, there are restrictions on development, or when there has been an undue delay in development, which exceeds three years. In the event that estimated discounted cash flows expected from its use or eventual disposition is determined by management to be insufficient to recover the carrying value of the property, the carrying value is written down to the estimated recoverable amount.

The recoverability of mineral properties and exploration and development costs is dependent on the existence of economically recoverable reserves, the ability to obtain the necessary financing to complete the development of the reserves, and the profitability of future operations. The Company has not yet determined whether or not any of its future mineral properties contain economically recoverable reserves. Amounts capitalized to mineral properties as exploration and development costs do not necessarily reflect present or future values.

When options are granted on mineral properties or properties are sold, proceeds are credited to the cost of the property. If no future capital expenditure is required and proceeds exceed costs, the excess proceeds are reported as a gain.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Decommissioning and restoration liabilities

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration or development of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized at the start of each project to the carrying amount of the asset, along with a corresponding liability as soon as the obligation to incur such costs arises. The timing of the actual rehabilitation expenditure is dependent on a number of factors such as the life and nature of the asset, the operating license conditions and, when applicable, the environment in which the mine operates.

Discount rates using a pre-tax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the units-of-production or the straight-line method.

The corresponding liability is progressively increased as the effect of discounting unwinds creating an expense recognized in profit or loss.

Decommissioning costs are also adjusted for changes in estimates. Those adjustments are accounted for as a change in the corresponding capitalized cost, except where a reduction in costs is greater than the unamortized capitalized cost of the related assets, in which case the capitalized cost is reduced to nil and the remaining adjustment is recognized in profit or loss.

The operations of the Company have been, and may in the future be, affected from time to time in varying degree by changes in environmental regulations, including those for site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company are not predictable.

The Company has no significant restoration, rehabilitation and environmental obligations as at November 30, 2022.

f) Loss per share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

g) Financial instruments

The following is the Company's accounting policy for financial instruments under IFRS 9 Financial Instruments ("IFRS 9"):

Financial assets

(a) Recognition and measurement of financial assets

The Company recognizes a financial asset when it becomes a party to the contractual provisions of the instrument.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Financial instruments (continued)

(b) Classification of financial assets

The Company classifies financial assets at initial recognition as financial assets: measured at amortized cost, measured at fair value through other comprehensive income ("FVTOCI") or measured at fair value through profit or loss ("FVTPL").

(i) Financial assets measured at amortized cost

A financial asset that meets both of the following conditions is classified as a financial asset measured at amortized cost.

- The Company's business model for such financial assets, is to hold the assets in order to collect contractual cash flows.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the amount outstanding.

A financial asset measured at amortized cost is initially recognized at fair value plus transaction costs directly attributable to the asset. After initial recognition, the carrying amount of the financial asset measured at amortized cost is determined using the effective interest method, net of impairment loss, if necessary.

(ii) Financial assets measured at FVTPL

A financial asset measured at fair value through profit or loss is recognized initially at fair value with any associated transaction costs being recognized in profit or loss when incurred. Subsequently, the financial asset is re-measured at fair value, and a gain or loss is recognized in profit or loss in the reporting period in which it arises.

The Company has designated its cash as FTVPL.

(iii) Financial assets measured at FVTOCI

A financial asset measured at fair value through other comprehensive income is recognized initially at fair value plus transaction costs directly attributable to the asset. After initial recognition, the asset is measured at fair value with changes in fair value included as "financial asset at fair value through other comprehensive income" in other comprehensive income.

(c) Derecognition of financial assets

The Company derecognizes a financial asset if the contractual rights to the cash flows from the asset expire, or the Company transfers substantially all the risks and rewards of ownership of the financial asset. Any interests in transferred financial assets that are created or retained by the Company are recognized as a separate asset or liability. Gains and losses on derecognition are generally recognized in the consolidated statements of loss and comprehensive loss.

However, gains and losses on derecognition of financial assets classified as FVTOCI remain within accumulated other comprehensive loss.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Financial instruments (continued)

Financial liabilities

(a) Recognition and measurement of financial liabilities

The Company recognizes financial liabilities when it becomes a party to the contractual provisions of the instruments.

(b) Classification of financial liabilities

(i) Financial liabilities measured at amortized cost

A financial liability at amortized cost is initially measured at fair value less transaction cost directly attributable to the issuance of the financial liability. Subsequently, the financial liability is measured at amortized cost based on the effective interest rate method.

The Company's accounts payable and accrued liabilities are classified as financial liabilities measured at amortized cost.

(ii) Financial liabilities measured at fair value through profit or loss

A financial liability measured at fair value through profit or loss is initially measured at fair value with any associated transaction costs being recognized in profit or loss when incurred. Subsequently, the financial liability is re-measured at fair value, and a gain or loss is recognized in profit or loss in the reporting period in which it arises.

The Company does not have any liabilities classified as financial liabilities measured at fair value through profit or loss.

(c) Derecognition of financial liabilities

The Company derecognizes a financial liability when the financial liability is discharged, cancelled or expired. Generally, the difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the consolidated statements of loss and comprehensive loss.

Offsetting financial assets and liabilities

Financial assets and liabilities are offset and the net amount is presented in the consolidated statements of financial position only when the Company has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Financial instruments (continued)

Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If, at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the consolidated statements of loss and comprehensive loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

h) Share capital

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Company's common shares are classified as equity instruments. Common shares issued for consideration other than cash are valued at the fair value of the assets received or the services rendered. If the fair value of the assets received or services rendered cannot be reliably measured, common shares issued for consideration will be valued at their fair value on the date of issuance.

i) Income taxes

Current income tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date, in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax:

Deferred income tax is recognized, using the asset and liability method, on temporary differences at the reporting date arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

j) Impairment of Non-Financial Assets

Impairment tests on non-financial assets, including exploration and evaluation assets, are performed whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period.

Where it is possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets. Each of the Company's exploration and evaluation properties is considered to be a cash-generating unit for which impairment testing is performed.

An impairment loss is recognized in the consolidated statements of loss and comprehensive loss, except to the extent they reverse gains previously recognized in other comprehensive income or loss.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of consolidated financial statements in accordance with IFRS requires management to make estimates and judgements concerning the future. The Company's management reviews these estimates and judgements on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Significant estimates and judgements about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from estimates and judgements made, relate to, but are not limited to the following:

Ability to continue as a going-concern

Management assesses the Company's ability to continue as a going concern at each reporting date, using all quantitative and qualitative information available. This assessment, by its nature, relies on estimates of future cash flows and other future events (as discussed in Note 1), and subsequent variations could materially impact the validity of such an assessment.

Recoverability of the carrying value of exploration and evaluation assets

Assets or cash-generating units ("CGUs") are evaluated at each reporting date to determine whether there are any indications of impairment. The Company considers both internal and external sources of information when making the assessment of whether there are indications of impairment for the Company's exploration and evaluation assets.

ALMA GOLD INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2022 AND 2021
(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS (continued)

Significant judgement is required when determining whether facts and circumstances suggest that the carrying amount of exploration and evaluation assets may exceed its recoverable amount. The retention of regulatory permits and licenses, the Company's ability to obtain financing for exploration and development activities and its future plans on the exploration and evaluation assets, current and future metal prices, and market sentiment are all factors considered by the Company.

In respect of the carrying value of exploration and evaluation assets recorded on the consolidated statements of financial position, management has determined that it continues to be appropriately recorded, as there has been no obsolescence or physical damage to the assets and there are no indications that the value of the assets have declined more than what is expected from the passage of time or normal use.

Share-based compensation

The fair value of share-based payments and warrants is subject to the limitations of the Black-Scholes option pricing model that incorporates market data and involves uncertainty in estimates used by management in the assumptions. The Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, and therefore changes in subjective input assumptions can materially affect the fair value estimate.

4. ACQUISITION OF KARITA GOLD CORP.

On February 9, 2021, the Company entered into an arm's-length share purchase agreement with the shareholders of Karita Gold, whereby the Company agreed to purchase all the issued and outstanding shares of Karita Gold. The Company issued to Karita Gold's shareholders 3,000,000 common shares of the Company in exchange for 100% the issued and outstanding shares of Karita Gold at a deemed value of \$0.50 per share. Karita Gold is a gold exploration company with offices in Bedford, Nova Scotia and it holds various mineral exploration licenses in Guinea (the "Karita Licenses"), which are subject to certain royalty obligations. The Karita Licenses commence at an adjacent license boundary to a gold exploration project containing the Karita gold deposit being advanced and owned by IAMGOLD Corporation. Effective February 19, 2021, the Company closed its transaction with Karita Gold.

This acquisition was accounted for as an acquisition of assets and liabilities as Karita Gold did not meet the definition of a business under IFRS 3, Business Combinations.

Purchase consideration:	\$
Common shares issued	1,500,000
	1,500,000
Net assets acquired:	
Cash	2,490
Amounts receivable	6,179
Prepaid expenses	577
Exploration and evaluation assets	1,729,435
Accounts payable and accrued liabilities	(238,681)
	1,500,000

5. EXPLORATION AND EVALUATION ASSETS,

Exploration and evaluation assets comprise the following accumulated expenditures:

	Guinea Property	Clarence Stream North	Total
	\$	\$	\$
Balance at November 30, 2020	-	105,010	105,010
Acquisition of Karita Gold (Note 4)	1,729,435	-	1,729,435
Exploration costs			
Geological	29,297	2,840	32,137
Balance at November 30, 2021	1,758,732	107,850	1,866,582
Acquisition costs			
Permit	26,324	-	26,324
Exploration costs			
Administration	217,071	-	217,071
Geological	224,491	-	224,491
Transportation	97,618	-	97,618
Balance at November 30, 2022	2,324,236	107,850	2,432,086

Clarence Stream North Gold Project

The Company owns a 100% interest in certain mineral licenses located in New Brunswick, Canada which together comprise the Clarence Stream North Gold Project. Crown license fees of \$9,120 were paid by RGLD, then the corporate parent, to the Government of New Brunswick and the project is held free and clear of any royalty obligations.

The Clarence Stream North Gold Project is considered by the Company to be a primary exploration project.

To-date, various exploration efforts have conducted at the Clarence Stream North Gold Project by the Company and its consultants. Those exploration efforts have delineated gold-in-soil anomalies that may be significant when viewed from a regional context and which require follow-up exploration work on by the Company, currently being considered in 2023 as weather and ground conditions permit.

Guinea Gold Property

Pursuant to the acquisition of Karita Gold (see above Note 5), the Company indirectly holds four mineral property permits from the Ministry of Mines and Energy of Guinea ("MME"), which were first acquired by a subsidiary of Karita Gold through a series of license payments to the MME. The Company is obligated to pay certain nominal renewal fees annually to the MME to keep the licenses in good standing. The licenses plus an area of mutual interest are subject to a 1% GSR with no right to repurchase and a 1% NSR with a right to repurchase.

6. SHARE CAPITAL

a) Authorized:

The Company is authorized to issue an unlimited number of common shares without par value.

b) Share Capital Activities

For the year ended November 30, 2022, the Company had the following share capital transactions:

- During the year ended November 30, 2022, the Company received an aggregate of \$236,000 in advance pursuant to the private placement closed subsequent to the year end.
- On June 30, 2022, the Company consolidated all of its issued and outstanding share capital on the basis of every ten (10) old common shares into one (1) new common share, effective July 4, 2022. As a result of the share consolidation, the issued and outstanding common shares were reduced to 6,774,563.

For the year ended November 30, 2021, the Company had the following share capital transactions:

- On February 19, 2021, the Company issued 3,000,000 common shares valued at \$1,500,000 to acquire all the issued and outstanding shares of Karita Gold (Note 4).
- On April 28, 2021, the Company completed a non-brokered private placement issuing 750,000 common shares at a price of \$1.00 per share for total proceeds of \$750,000.

b) Escrow shares

Under the terms of the escrow policies of the Canadian Securities Exchange, a total of 2,839,518 shares issued to directors and officers of the Company before it was listed on the Canadian Securities Exchange were escrowed upon issuance. On October 7, 2021, 10% of the escrowed shares were released. The remaining 90% will be released over three years. As at November 30, 2022, a total of 1,703,711 common shares were held in escrow.

c) Stock options

The Company has a stock option whereby the Board of Directors may grant stock options to consultants, employees, officers, and directors to acquire common shares, exercisable for a period of up to five years from the date of the grant. The stock option plan provides that the maximum number of common shares in the capital of the Company that may be reserved for issuance for all purposes under the stock option plan shall not exceed 10% of the total issued and outstanding common shares. The maximum number of common shares that may be reserved for issuance to any individual pursuant to stock options may not exceed 5% of the common shares issued and outstanding at the time of grant.

	Number of Options	Weighted Average Exercise Price
		\$
Options outstanding and exercisable, November 30, 2020	143,450	2.91
Options cancelled/expired	(28,500)	(3.26)
Options outstanding and exercisable, November 30, 2021	114,950	2.91
Options cancelled/expired	(71,250)	(3.26)
Options outstanding and exercisable, November 30, 2022	43,700	2.33

In estimating the fair value of options issued using the Black-Scholes option pricing model, the Company is required to make assumptions. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data from comparable companies to estimate option exercise, forfeiture and employee termination within the valuation model. The Company has historically not paid dividends on its common stock.

6. SHARE CAPITAL (continued)

c) As at November 30, 2022, the Company had stock options outstanding as follows:

Expiry Date	Exercise Price	Outstanding
	\$	#
May 31, 2024	1.05	28,500
September 3, 2024	4.74	15,200
		43,700

d) Warrants

	Number of Warrants	Weighted Average Exercise Price
		\$
Warrants outstanding and exercisable, November 30, 2021	125,875	4.74
Warrants cancelled/expired	(125,875)	(4.74)
Warrants outstanding, November 30, 2022	-	-

7. RELATED PARTY TRANSACTIONS

The Company's related parties consist of its key management personnel, including its directors and officers.

During the normal course of business, the Company enters into transactions with its related parties at normal market prices and on normal commercial terms.

	November 30, 2022	November 30, 2021
	\$	\$
Consulting fees paid to a Company controlled by the Chief Financial Officer	5,750	-
Consulting fees paid to directors	23,975	-
Professional fees paid to the former Chief Financial Officers	2,500	43,625
	32,225	43,625

As at November 30, 2022, the Company has a balance outstanding of \$96,073 (2021 - \$255,137) to the Chief Executive Officer of the Company, of which \$26,890 was included as accounts payable and accrued liabilities and the remaining balance of \$69,183 as due to related party.

As at November 30, 2022, the Company has a balance outstanding of \$3,650 (2021 - \$5,000) to the Chief Financial Officer of the Company, all of which was included as accounts payable and accrued liabilities.

As at November 30, 2022, the Company has a balance outstanding of \$Nil (2021 - \$Nil) to the former Chief Financial Officers of the Company.

As at November 30, 2022, the Company has a balance outstanding of \$11,500 (2021 - \$Nil) to the director of the Company, all of which was included as accounts payable and accrued liabilities.

(Expressed in Canadian dollars)

8. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, in order to pursue the sourcing and exploration of resource properties. The Company does not have any externally-imposed capital requirements to which it is subject.

The Company considers the aggregate of its share capital, and deficit as capital. The Company manages the capital structure and adjusts its capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets and liabilities. To maintain or adjust the capital structure, the Company may attempt to issue new shares or dispose of assets or adjust the amount of cash. The Company did not change its management of capital during the year ended November 30, 2022.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

	November 30, 2022	November 30, 2021
	\$	\$
Cash	229,566	575,996
Accounts payable and accrued liabilities	497,424	279,123

The Company has determined the estimated fair values of its financial instruments based on appropriate valuation methodologies; however, considerable judgment is required to develop these estimates. The fair values of the Company's financial instruments are not materially different from their carrying values.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is not exposed to any significant credit risk.

ALMA GOLD INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2022 AND 2021
(Expressed in Canadian dollars)

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (continued)

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to meet liabilities when due. Accounts payable and accrued liabilities are due within the current operating period, carrying net 30 terms. The Company will need to receive additional funding to continue to fund operations and to settle its obligations.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. As, among other matters, the Company holds foreign mineral licenses through a subsidiary, it is exposed to market risk, including foreign exchange rates in relation to activities that may be performed in Guinea.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to any interest rate risk.

Currency risk

With the exception of certain operating items that may involve Karita Gold, the Company's functional and reporting currency is the Canadian dollar and major purchases are transacted in Canadian dollars. Management believes the foreign exchange risk derived from currency conversions is negligible. The foreign exchange risk is therefore manageable and not significant. The Company does not currently use any derivative instruments to reduce its exposure to fluctuations in foreign exchange rates.

10. SEGMENTED INFORMATION

Operating Segments

The Company has one operating segment, which is the exploration and evaluation of mineral properties.

Geographic Segments

The Company's exploration operations are carried out principally in Canada and secondarily, Guinea. The Company's non-current assets by geographic areas as at November 30, 2022 and 2021 are as follows:

	Total
	\$
November 30, 2022	
Canada	107,850
Guinea	2,324,236
	2,432,086
November 30, 2021	
Canada	107,850
Guinea	1,758,732
	1,866,582

ALMA GOLD INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2022 AND 2021
(Expressed in Canadian dollars)

10. SEGMENTED INFORMATION (continued)

Segmented expenses and net loss by geographical location are as follows:

For the year ended November 30, 2022	Canada	Guinea	Total
	\$	\$	\$
Total expenses and net loss	215,148	70,586	285,734

For the year ended November 30, 2021	Canada	Guinea	Total
	\$	\$	\$
Total expenses and net loss	140,348	-	140,348

11. DEFERRED INCOME TAX

A reconciliation of the expected income tax recovery to the actual income tax recovery is as follows:

	For the year ended November 30, 2022	For the year ended November 30, 2021
Net loss for the year	\$(285,734)	\$(140,348)
Statutory tax rate	27%	27%
Expected income tax recovery at the statutory tax rate	(79,000)	(39,000)
Permanent difference	-	(3,000)
Change in tax assets not recognized	79,000	42,000
Income tax expense (recovery)	-	-

The Company has the following tax effected deductible temporary differences for which no deferred tax asset has been recognized:

Loss carry-forwards	\$134,000
Shares issuance costs	\$3,000

The Company has non-capital losses of approximately \$489,000 available to offset future income for income tax purposes which commence expiring in 2040. Due to the uncertainty of realization of these loss carry-forwards, the benefit is not reflected in the financial statements.

12. SUBSEQUENT EVENTS

On December 20, 2022, the Company closed a private placement of 6,265,000 units ("Units") of the Corporation at an issue price of \$0.10 per Unit and raised gross proceeds of \$626,500 (the "Offering"). Each Unit consists of one common share (each, a "Share") and one transferable Share purchase warrant (each a "Warrant"). Each Warrant entitles the holder thereof to purchase one additional Share of the Corporation at a price of \$0.15 for a period of 24 months from closing. In connection with the Offering, the Corporation has paid cash finder's fees of CAD\$18,454 to qualified parties.

On December 21, 2022, the Company announced that it has granted an aggregate of 600,000 stock options to its directors, officers and consultants at a price of \$0.12 per common share for a period of five years from grant, pursuant to its Stock Option Plan.
