About Tryp Therapeutics:

Tryp Therapeutics is a pharmaceutical company focused on developing psilocybin-based compounds for the treatment of diseases with unmet medical needs through accelerated regulatory pathways. Tryp's Psilocybin-For-Neuropsychiatric Disorders (PFN™) program is focused on the development of synthetic psilocybin as a new class of drug for the treatment of chronic pain and eating disorder indications. The company has announced upcoming Phase 2a clinical trials to evaluate its drug products for fibromyalgia and eating disorders. Tryp is also developing a proprietary psilocybin-based product, TRP-8803, that uses a novel formulation and method of delivery to improve the patient experience.
