Silver Hammer Files NI 43-101 Technical Report for the Silver Strand Project in Coeur d'Alene Mining District of Idaho and Announces Voting Results from 2023 Annual General Meeting

Vancouver, British Columbia – April 5, 2023 – Silver Hammer Mining Corp. (CSE:HAMR; OTCQB: HAMRF; FWB:7BW0) (the "Company" or "Silver Hammer") is pleased to announce that it has filed a National Instrument 43-101 compliant technical report ("**Technical Report**") titled: Independent NI 43-101 Technical Report for the Silver Strand Gold-Silver-Project (the "**Project**"), Kootenai County, Idaho, USA, on SEDAR.

"As we continue to evaluate our Silver Strand Project in Idaho, updating the 43-101 Technical Report is a positive step to fully understanding the exploration opportunity at the property. The recent completion of the geophysics compilation will help us target further priority exploration zones along the 5.8-kilometre-long Project," commented President & CEO, Peter A. Ball. "We are currently completing our Plan of Operations, to be submitted to the United States Forest Service, which will highlight our exploration strategy for the coming seasons at the Project."

The Technical Report was prepared in accordance with the Canadian Securities Administrators NI 43-101- Standards of Disclosure for Mineral Projects; and is available for review under the Company's profile on SEDAR at www.sedar.com and the Company's website at www.silverhammermining.com.

Annual General Meeting

The Company is also pleased to report results from its annual general meeting of the shareholders ("the **AGM**") which took place on March 29, 2023, where all proposed resolutions were unanimously supported and all current board members of the Company re-elected, including Peter. A Ball (CEO), Alnesh Mohan (CFO), and independent directors, Lawrence Roulston, Ron Burk, and Jones Lang.

Qualified Person

Technical aspects of this press release have been reviewed and approved under the supervision of Philip Mulholland (CPG). Mr. Mulholland is a Qualified Person (QP) under National Instrument 43-101 Standards of Disclosure for Mineral Projects.

About Silver Hammer Mining Corp.

Silver Hammer Mining Corp. is a junior resource exploration company advancing its flagship past-producing Silver Strand Mine in the Coeur d'Alene Mining District in Idaho, as well both the Eliza Silver Project and the Silverton Silver Mine in one of the world's most prolific mining jurisdictions in Nevada. Silver Hammer's primary focus is defining and developing silver deposits near past-producing mines that have not been adequately explored. The Company's portfolio also provides exposure to copper and gold discoveries.

Forward-Looking Statements

This news release contains "forward-looking statements" within the meaning of Canadian securities legislation. Such forward-looking statements concern, without limitation, the Company's strategic plans, timing and expectations for the Company's exploration and drilling programs, estimates of mineralization from drilling, geological information projected from sampling results and the potential quantities and grades of the target zones. Such forward-looking statements or information are based on a number of assumptions, which may prove to be incorrect. Assumptions have been made regarding, among other things: conditions in general economic and financial markets; accuracy of assay results; geological interpretations from drilling results, timing and amount of capital expenditures; performance of available laboratory and other related services; future operating costs; and the historical basis for current estimates of potential quantities and grades of target zones. The actual results could differ materially from those anticipated in these forward-looking statements as a result of risk factors, including the timing and content of work programs; results of exploration activities and development of mineral properties; the interpretation and uncertainties of drilling results and other geological data; receipt, maintenance and security of permits and mineral property titles; environmental and other regulatory risks; project costs overruns or unanticipated costs and expenses; availability of funds; failure to delineate potential quantities and grades of the target zones based on historical data, and general market and industry conditions. Forward-looking statements are based on the expectations and opinions of the Company's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made. The Company undertakes no obligation to update or revise any forward-looking statements included in this news release if these beliefs, estimates and opinions or other circumstances should change, except as otherwise required by applicable law.

The CSE does not accept responsibility for the adequacy or accuracy of this release. The Canadian Securities Exchange has neither approved nor disapproved the contents of this press release.
