(Expressed in Canadian Dollars - Unaudited)

1. NATURE AND CONTINUANCE OF BUSINESS

Reporting entity

Zoglo's Incredible Food Corp. (Formerly 1258481 B.C. LTD.) (the "Company") was incorporated under the laws of the Province of British Columbia on July 23, 2020. On March 29, 2021, the Company changed its name to "Zoglo's Incredible Food Corp." in connection with the closing of a reverse take-over ("RTO") transaction.

On March 23, 2021, the Company completed the RTO transaction with Zoglo's Incredible Food Inc. ("Zoglo") whereby the Company acquired 100% of the issued and outstanding common shares of Zoglo, in exchange for 64,000,000 of common shares of the Company issued to the shareholders of Zoglo (the "Transaction") resulting in Zoglo becoming a wholly owned subsidiary of the Company. Upon completion of the Transaction, the securities holders of Zoglo became shareholders of the combined entity (the "Resulting Issuer") (Note 5).

On July 21, 2021, the Company filed a non-offering long form prospectus dated July 20, 2021 (the "Prospectus") in the Provinces of Ontario and British Columbia to enable the Resulting Issuer to become a "reporting issuer" pursuant to applicable securities legislation. The Company's common shares were approved for listing on the Canadian Securities Exchange ("CSE"), and commenced trading effective July 26, 2021 under the symbol "ZOG".

On November 4, 2021, the Company's shares have been accepted for listing and have commenced trading on the Frankfurt Stock Exchange under the symbol "7UT".

The Company is a plant-based food company that is in the business of designing, developing, producing, distributing, and selling plant-based meat alternative products.

On October 28, 2021, the Company entered into a binding memorandum of understanding ("MOU") with Monday Swiss UK Ltd ("Monday Swiss"), a leading European-based developer and manufacturer of innovative plant-based food alternatives, to acquire 51% interest of Monday Swiss. However, the MOU was terminated as the Company and Monday Swiss did not enter into a definitive agreement by November 26, 2021.

The Company's head office and principal address is 75 Addiscott Ct, Markham, ON L6G 1A6. The registered and records office is Suite 1500-1055 West Georgia Street, Vancouver, BC, V6E 4N7.

Going concern

These financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which assume the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the normal course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon its ability to raise equity capital, debt financing, and to attain profitable operations to generate funds and meet current and future obligations. During the six months ended June 30, 2022, the Company reported a net loss of \$1,503,888 (June 30, 2021 - \$4,391,679). As at June 30, 2022, the Company had working capital of

Notes to Condensed Consolidated Interim Financial Statements

For the six months ended June 30, 2022

(Expressed in Canadian Dollars - Unaudited)

1. NATURE AND CONTINUANCE OF BUSINESS (cont'd)

Going concern (cont'd)

\$696,413 (December 31, 2021 - \$2,091,281) and an accumulated deficit of \$9,487,725 (December 31, 2021 - \$7,983,837). There is material uncertainty related to these events and conditions which may cast significant doubt on the Company's ability to continue as a going concern.

Covid-19

In March 2020, the World Health Organization characterized the outbreak of a strain of the novel coronavirus ("COVID-19") as a pandemic which resulted in a series of public health and emergency measures being put in place to combat the spread of the virus. These measures have caused material disruption to businesses in Canada and globally resulting in an economic slowdown. The duration and impact of COVID-19 continues to be unknown and it is not possible to reliably estimate the impact that the length and severity of these developments will have on the financial results and condition of the Company in future periods. To date, the Company has not experienced material changes in operations, however, there is no certainty this will continue going forward.

2. BASIS OF PRESENTATION

These consolidated financial statements were authorized for issue on August 29, 2022 by the directors of the Company.

Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting" using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and International Financial Reporting Interpretations Committee ("IFRIC").

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company's December 31, 2021 audited financial statements. It is therefore recommended that these condensed consolidated interim financial statements be read in conjunction with the Company's December 31, 2021 audited financial statements.

Foreign currencies

These condensed consolidated interim financial statements are presented in Canadian dollars, which is also the functional currency of the Company and its subsidiary, Zoglo. Foreign currency transactions are translated into the functional currency using exchange rates prevailing at the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary assets and liabilities are translated using the historical rate on the date of the transaction. All gains and losses on translation of these foreign currency transactions are charged to profit or loss.

(FORMERLY 1258481 B.C. LTD.)

Notes to Condensed Consolidated Interim Financial Statements

For the six months ended June 30, 2022

(Expressed in Canadian Dollars - Unaudited)

2. BASIS OF PRESENTATION (cont'd)

Basis of presentation and consolidation

These consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value as explained in the accounting policies set out in Note 4.

These condensed consolidated interim financial statements include accounts of the Company and its wholly owned subsidiary, Zoglo. Amounts reflected prior to March 23, 2021, the RTO completion date, include only the accounts of Zoglo. Inter-company transactions and balances are eliminated upon consolidation.

Subsidiaries are corporations in which the Company is able to control the operating, investing and financing activities and policies, which is the authority usually connected with holding majority voting rights. The consolidated financial statements include the accounts of the Company and its controlled entity from the date on which control was acquired. The subsidiary uses the same reporting period and the same accounting policies as the Company.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amount of expenses during the reporting period.

Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Share-based payments

The Company uses the Black-Scholes Option Pricing Model to determine the fair value of options and warrants in order to calculate share-based payments expense and the fair value of agent warrants. The Black-Scholes Option Pricing Model involves six key inputs to determine fair value of an option: risk-free interest rate, exercise price, market price at date of issue, expected dividend yield, expected life, and expected volatility. Certain of the inputs are estimates that involve considerable judgment and are or could be affected by significant factors that are out of the Company's control.

The Company is also required to estimate the future forfeiture rate of options based on historical information in its calculation of share-based payments expense.

(FORMERLY 1258481 B.C. LTD.)

Notes to Condensed Consolidated Interim Financial Statements

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (cont'd)

Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control over a product to a customer. The transfer of control is considered to have occurred when the Company has transferred physical possession of the asset and the Company has a present right to payment for the asset.

Cash generating units and impairment of non-financial assets

Judgment is required to assess the Company's determination of cash generating units ("CGU") for the purpose of impairment testing. The process to calculate the recoverable amount of a cash generating unit requires use of valuation methods such as the discounted cash flow method which uses assumptions of key variables including future cash flows, discount rate and terminal growth rates.

Financial instruments

The fair values of financial instruments are estimated based upon market and third-party inputs. These estimates are subject to change with fluctuations in commodity prices, interest rates, foreign currency exchange rates and estimates of non-performance risk.

Deferred tax assets and liabilities

The measurement of deferred income tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities. The estimation of taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful operations of the Company.

To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred tax provisions or recoveries could be affected.

Useful life of equipment and intangible asset

The intangible asset and equipment are recorded at cost less accumulated depreciation and impairment charges. Such cost consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use.

Depreciation is calculated over the estimated useful lives as follows:

Computer equipment	30%	Declining balance method
Freezer equipment	20%	Declining balance method
Other equipment	20%	Declining balance method
Brands	10 years	Straight-line method

4. SIGNIFICANT ACCOUNTING POLICIES

Recent accounting pronouncements

The adoption of the following standards and interpretations are not expected to have a material effect on the Company's future results and financial position:

Onerous Contracts—Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments to IAS 37 specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). These amendments are effective for reporting periods beginning on or after January 1, 2022.

Accounting standard issued but not yet effective

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date. These amendments are effective for reporting periods beginning on or after January 1, 2023.

Certain other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

5. REVERSE TAKEOVER OF ZOGLO'S INCREDIBLE FOOD INC.

On March 23, 2021, the Company completed a reverse takeover transaction with Zoglo (Note 1), whereby the Company acquired 100% of the issued and outstanding common shares of Zoglo.

As part of the reverse takeover transaction, the Company entered into a share exchange transaction with Zoglo whereby each shareholder of Zoglo exchanged its common shares in Zoglo for common shares of the Company. Upon closing of the Transaction, the shareholders of Zoglo owned 89.5% of the common shares of the Company and, as a result, the Transaction is considered a reverse acquisition of the Company by Zoglo.

In addition, on completion of the Transaction:

- i) Zoglo's option holders exchanged their Zoglo's options for a total of 6,800,000 replacement securities of the Company with an exercise price of \$0.05 per share expiring on March 23, 2026 (the "Replacement Options"). Please see Note 12(e).
- ii) Zoglo's warrant holders exchanged their Zoglo's warrants for a total of 1,000,000 replacement securities of the Company with an exercise price of \$0.10 expiring on March 23, 2026 (the "Replacement Warrants"). The Replacement Warrants are subject to vesting provisions of 250,000 warrants exercisable immediately, 250,000 warrant exercisable upon the Company listing on a stock exchange, and 500,000 warrants exercisable six months following the date of the Company's listing. Please see Note 12(f).

5. REVERSE TAKEOVER OF ZOGLO'S INCREDIBLE FOOD INC. (cont'd)

- iii) As part of the share exchange agreement, upon the completion of the Transaction, the Company has issued 3,000,000 restricted stock units to the former chairman of the Company. Please see Note 12(g).

For accounting purposes, the acquisition was considered to be a reverse acquisition under *IFRS 3 Business Combinations* ("IFRS 3") as the shareholders of Zoglo obtained control of the Company. However, as the Company does not meet the definition of a business as defined by IFRS 3, it has been accounted for as a share-based payment transaction in accordance with IFRS 2. The accounting for this transaction resulted in the following:

- a. The consolidated financial statements of the combined entity are issued under the legal parent, the Company, but are considered a continuation of the financial statements of the legal subsidiary, Zoglo.
- b. As Zoglo is deemed to be the acquirer for accounting purposes, its assets and liabilities are included in the consolidated financial statements at their historical carrying values.

Each Subscription Receipt entitled the holder to receive, without additional consideration, one common share of the Company upon receiving conditional approval of the CSE for the CSE Listing and the release of the Escrow Funds. On July 11, 2021, the Company received conditional approval and Escrow Funds were released.

In connection with the concurrent financing, the Company issued an aggregate of 848,400 agents' warrants (Note 12(f)) to eligible finders at an exercise price of \$0.25 per common share expiring March 22, 2022.

On October 19, 2020, the Company entered into an option agreement to acquire the rights to sell Zoglo's brands in North America for a cash consideration of \$5,000,000 in connection with Naknik Mahariya Kasher Soglowek's ("Naknik") business of packaging, marketing, and selling meat substitute food products marketed under the brand "Zoglo's".

On February 9, 2021, the agreement was amended such that \$3,000,000 of the \$5,000,000 purchase price could be paid by way of a promissory note with remainder paid in cash. The note shall be non-interest bearing and be repaid by the Company in equal instalments of \$500,000 every six months until the note is repaid in full. On June 30, 2022, Naknik agreed to defer the instalment payment of \$500,000 due on July 15, 2022 by six months and will be added to the next instalment payment for a total of \$1,000,000 due on January 15, 2023.

Credit risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. The Company believes it has no significant credit risk. The Company is exposed to credit risk from its operating activities (primarily trade and other receivables) and from its financing activities, including cash and short term investments with banks and financial institutions and advances to suppliers.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash and seeking equity financing when needed.

The following table summarizes the amount of contractual undiscounted future cash flow requirements for financial liabilities as at June 30, 2022 is as follows:

The Company's cash is held in an account with a major Canadian financial institution. The funds may be withdrawn at any time without penalty.

(b) Foreign currency risk

The Company is dependent on the capital markets as its sole source of operating capital. The Company is not subject to any externally imposed capital requirements.

16. CONTINGENT LIABILITIES

From time to time, the Company and/or its subsidiary may become defendants in legal actions and the Company intends to defend itself vigorously against all legal claims.
