ABOUT HYDROGRAPH CLEAN POWER INC.

HydroGraph Clean Power Inc is a leading producer of pristine graphene using an “explosion synthesis” process, which allows for exceptional purity, low energy use and identical batches. The quality,

performance and consistency of HydroGraph's graphene follows the Graphene Council's Verified Graphene Producer® standards, of which very few graphene producers are able to meet. We have leveraged our material performance, scalability and cost to build 10 metric tonnes of annual production capacity, with the ability to scale up production in just months using very low CAPEX, while engaged in numerous R&D projects and discussions with multiple potential partners and customers to supply our pristine graphene.
