EonX Technologies Inc

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE INTERIM THREE-MONTH PERIODS ENDED SEPTEMBER 30, 2023 AND 2022

(Expressed in Australian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

EonX Technologies Inc. (formerly 1263205 B.C. Ltd.) (“EonX Canada”) was incorporated under the Laws of the Province of British Columbia on August 27, 2020. On February 26, 2021, 1263205 B.C. Ltd. changed its name to EonX Technologies Inc. (the “Company” or “EonX”). On March 23, 2021, the Company completed a share swap agreement with EonX Technologies Services Pty Ltd. (“EonX Australia”). EonX Canada did not constitute a business as defined by IFRS 3 *Business Combinations* and EonX Australia was considered the resulting Issuer (Note 5). The address of the Company’s corporate office and its principal place of business is 1183 Toorak Rd, Camberwell VIC 3124, Australia. The Company’s shares were listed on the Canadian Securities Exchange on March 29, 2021.

The Company began operations in November 2016 and as of September 30, 2022, its principal business activity is developing and marketing a suite of financial technology products including payment processor, e-wallets, identity and security for Know Your Customer (KYC) and Anti Money Laundering (AML), loyalty points solutions, and an e-commerce store.

For the three months ended September 30, 2023, the Company reported a net loss of \$1,447,589 (2022 – \$1,465,212), cash flow from operating activities of (\$650,092) (2022 (\$1,600,179)) and an accumulated deficit of \$21,900,015 (30 June 2023– \$20,452,426). As such, there is an uncertainty related to these events and conditions that may cast significant doubt on the Company’s ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business. The continuation of the Company as a going concern is dependent on the ability of the Company to achieve positive cash flow from operations and/or obtain necessary equity or other financing.

These consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these consolidated financial statements.

2. BASIS OF PRESENTATION

a) Statement of compliance

These condensed interim consolidated financial statements are prepared in compliance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”). Accordingly, certain information and footnote disclosure normally included in annual consolidated financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”), have been omitted or condensed. These condensed interim consolidated financial statements should be read in conjunction with the Company’s consolidated financial statements for the year ended June 30, 2023.

These condensed interim consolidated financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on November 28, 2023.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of September 30, 2023, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the twelve months ended 30 June, 2023. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the three months ending September 30, 2023 could result in restatement of these unaudited condensed interim consolidated financial statements.

Financial assets

Classification of financial assets

- Amortized cost - Financial assets that meet the following conditions are measured subsequently at amortized cost: The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. Interest income is recognized using the effective interest method.

The Company's financial assets which are measured at amortized cost are comprised of cash and cash equivalents, research and development credits receivable and accounts receivable.

- Fair value through other comprehensive income ("FVTOCI") - Financial assets that meet the following conditions are measured at FVTOCI:
 - The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and,
 - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company does not hold any financial assets measured at FVTOCI.

Financial assets measured subsequently at fair value through profit or loss ("FVTPL") - By default, all other financial assets are measured subsequently at FVTPL. The Company, at initial recognition, may also irrevocably designate a financial asset as measured at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

Financial assets measured at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognized in loss and comprehensive loss to the extent they are not part of a designated hedging relationship.

The Company's does not hold any financial assets measured at FVTPL.

Financial liabilities

The Company's financial liabilities include trade and other payables, borrowings and provision for employee entitlements which are all measured at amortized cost. After initial recognition, an entity cannot reclassify any financial liability.

Impairment

The Company recognizes a loss allowance for expected credit losses on its financial assets that are measured at amortized cost. At each reporting date, the loss allowance for the financial asset is measured at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the loss allowance is measured for the financial asset at an amount equal to the twelve month expected credit losses. For trade receivables the Company applies the simplified approach to providing for expected credit losses, which allows the use of a lifetime expected loss provision. Impairment losses on financial assets carried at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be objectively related to an event occurring after the impairment was recognized. Given the nature and balances of the Company's accounts receivables the Company has no material loss allowance as at September 30, 2023 and 2022.

4. Cash and cash equivalents

Cash and cash equivalents in the statements of financial position comprise cash at banks and on hand,

EonX Technologies Inc**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****FOR THE INTERIM THREE-MONTH PERIODS ENDED SEPTEMBER 30, 2023 AND 2022**(Expressed in Australian Dollars)

and short-term deposits with an original maturity of three months or less, which are readily convertible into a known amount of cash. The Company's cash and cash equivalents are invested with major financial institutions in business accounts and is available on demand by the Company for its programs.

5. Research and development credits receivable

Investment tax credits are accrued when qualifying expenditures are incurred and there is reasonable assurance that the credits will be realized. Investment tax credits earned with respect to current expenditures for qualified research and development activities are included in the consolidated statements of loss and comprehensive loss as a reduction of expenses. Investment tax credits associated with capital expenditures are reflected as reductions in the carrying amounts of capital assets.

6. RELATED PARTY TRANSACTIONS AND BALANCES

During the three-month periods ended September 30, 2023 and 2022, the Company incurred the following related party transactions:

- (a) The Company has identified its directors and senior officers as its key management personnel. No post-employment benefits, other long-term benefits and termination benefits were made during the three-month periods ended September 30 2023 and 2022. A management fee of \$164,339 (including a rental allowance of \$25,000) was paid to a director.
- (b) During the three months ending September 30, 2023, the EonX Services UK Ltd paid Andrew Kallen a management fee of USD 386,000 (including a rental allowance of USD 90,000.). This equated to an AUD payment of 599,938.

The Company has a loan facility with the CEO currently drawn to \$6,972,492. The loan has an interest rate of 12% per annum. The interest rate can increase in line with the Reserve Bank of Australia ("RBA") movements. The loan maximum is currently \$7,300,000 and can be converted into shares in EonX Technologies Inc at a value of CAD \$0.10 per share. The loan agreement has a restraint on conversion in that the number of shares to be converted is limited to that number which when added to the number of shares held by all directors, officers and insiders does not exceed 90% of the issued shares of the parent.

The loan has a requirement of monthly line fee of USD 2,000 per month and an establishment fee of USD 100,000 was applicable on signing.

The convertible debt contains a financial liability (non-derivative host contract and one embedded FX derivative).

Transactions from loans with related parties are as follows:

Stock options

The Company grants incentive stock options as permitted pursuant to the Company's Stock Option Plan (the "Plan") which complies with the rules and policies of the Exchange.

The Company has a stock option plan under which it is authorized to grant options to its directors, officers, employees, management companies and consultants enabling them to acquire up to 10% of the issued and outstanding shares of the Company. Under the Plan, the exercise price of options granted is determined by the Board of Directors, provided that the exercise price is not less than the price permitted by an exchange or a quotation system on which the Company's shares may be listed or quoted for trading. The term of any options granted under the Plan is fixed by the Board of Directors and may not exceed five years from the date of grant. Vesting, if any, and other terms and conditions relating to such options shall be determined by the Board of Directors of the Company. Any options granted pursuant to the Plan will terminate generally within ninety days of the option holder ceasing to act as a director, officer, employee, or consultant.

Balance at September 30, 2023	7,897,834	\$0.18	-

As at September 30, 2023, the options have a weighted average remaining contractual life of 3.47 years (2022 – 3.11 years) and a weighted average exercise price of \$0.18 (2022 – \$1.32).

On March 22, 2023, the Company cancelled the options that were on issue. The value of these options was being amortized over the vesting period remaining. At the date of cancellation, the event was treated as an acceleration of vesting and the remaining book value was expensed through profit and loss for the year ended June 30, 2023 for \$2,532,268 (June 30, 2022 - \$3,364,577).

The Company issued 7,987,834 stock options on March 23, 2023. The fair value was calculated as \$531,122 using the Black Scholes pricing model using the assumptions listed below. The expense to the current financial year for this is \$44,260.

The vesting terms of these options are that one third of these options will vest every twelve months from the date of the agreement (i.e. March 23, 2024, 2025 and 2026). The options may be cancelled if an employee holding options leaves the employment of the Company. Fair value is impacted by stock price volatility, determined using historical share prices for a term equivalent to the expected life of the options.

8. INCOME TAXES

Future tax benefits which may arise as a result of these non-capital losses and other income tax pools have not been recognized in these financial statements and have been offset by a valuation allowance.

No deferred income tax asset has been recognized because the amount of future taxable profit that will be available to realize such assets is unpredictable. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The amount of deferred income tax asset considered realizable could change materially in the near term based on future taxable income during the carry forward period.

9. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern (see Note 1). The Company does not have any externally imposed capital requirements to which it is subject.

As at September 30, 2023, the Company had capital resources consisting of all components of shareholders' equity. The Company manages the capital structure and makes adjustments to it in light

of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue common shares.

10. FINANCIAL INSTRUMENTS**Fair values**

The Company's financial instruments include cash, accounts receivable and accounts payable. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature. The fair value of these financial instruments approximates their carrying value because of the current nature.

The Company classifies its fair value measurements in accordance with the three-level fair value hierarchy as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices), and

Level 3 – Inputs that are not based on observable market data.

Private investments that do not have a quoted market price in an active market are evaluated using various techniques including comparative recent financing and other market-based information.

The following table sets forth the Company's financial assets measured at fair value on a recurring basis by level within the fair value hierarchy as follows:

	Level 1	Level 2	Level 3
	\$	\$	\$
As at September 30, 2023:

Financial risk management objectives and policies

The risks associated with financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) Currency risk

The Company's expenses are denominated in Australian dollars. Fluctuations in the exchange rates between the Canadian dollar and the Australian dollar could have a marginal effect on the Company's business, financial condition and results of operations. The Company does not engage in any hedging activity to mitigate this risk. At this stage of the company's growth, the foreign exchange risk is not a material item.

(ii) Interest rate risk

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

The company has a debt facility with the CEO currently drawn to \$6,972,492. This loan currently has an interest rate applicable of 12% and the interest rate is variable and can change in accordance with rate movements set by the Reserve Bank of Australia. A movement of 1% in the interest rate will change the interest expense of \$69,725.0

10. FINANCIAL INSTRUMENTS (continued)**(iii) Credit risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash, government receivables, private company shares, and convertible notes receivable. To minimize the credit risk on cash, the Company places the instrument with a financial institution.

Credit risk from convertible notes receivable arises from the possibility that the principal and interest due may become uncollectable. The Company mitigates the risk by managing and monitoring the underlying business relationship.

(iv) Liquidity risk

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and operating activity. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.
