Each FT Unit is comprised of one Common Share, issued on a flow-through basis (“FT Share”) and one Common Share purchase warrant, issued on a non-flow-through basis (each, a “FT Warrant”). The closing of the Offering is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory and other approvals, including the approval of the Canadian Securities Exchange.

About Advanced Gold Exploration Inc.

Advanced Gold Exploration (Formerly Advance United Holdings Inc.) brings an entirely different approach to the mining industry. We don’t mine. Rather, we’ve acquired a portfolio of undervalued gold properties and are increasing their value through the application of modern technology. We have a growing pipeline of similar properties that we are looking to acquire. We are involved exclusively in the acquisition and advancement of past projects – with no intent to bring them back into production or to mine them ourselves. Our expertise is in identifying and acquiring undervalued properties with significant historical work, which were uneconomic at the time, but we believe have economic value at today’s prices. We fund the re-working historic data and applying modern technology to underwrite new qualified reports, document quantifiable resources and reserves to current standards, thereby recognizing the current value. Our purpose is to bring immediate and long-term value to our partners and shareholders while seeking to eliminate exploration risk, so that we can all advance in the shortest possible time frame.
