The Stock Option Plan was last approved by the Shareholders on June 30, 2022.

The Stock Option Plan provides that the Board may from time to time, in its discretion, grant to directors, officers, employees and consultants of the Corporation, or any subsidiary of the Corporation, the option to purchase Common Shares. The purpose of this Stock Option Plan is to provide an incentive to the directors, officers, employees, consultants and other personnel of the Corporation or any of its subsidiaries to achieve the longer-term objectives of the Corporation; to give suitable recognition to the ability and industry of such persons who contribute materially to the success of the Corporation; and to attract to and retain in the employ of the Corporation or any of its subsidiaries, persons of experience and ability, by providing them with the opportunity to acquire an increased proprietary interest in the Corporation.

The period during which an option granted under the Stock Option Plan is exercisable may not exceed ten years from the date such option is granted. All options are non-assignable and non-transferrable. The price which the Common Shares may be acquired upon exercise of an option may not be less than the price permitted under the rules of any stock exchange on which the Common Shares are listed and the vesting provisions are determined by the Board at the time of grant.

If prior to the exercise of an option, the holder ceases to be a director, officer, employee or consultant of the Corporation for any reason other than death, the option may be exercised within the earlier of up to 90 days after such cessation or the expiry of the option, but only to the extent that the holder was entitled to exercise the option at the date of cessation. In the case of death of an optionee, the option may be exercised within the earlier of up to 12 months after such death or the expiry of the option, but only to the extent that the holder was entitled to exercise the option at the date of death. The full text of the Stock Option Plan is attached hereto as Schedule "B".

The text of the resolution which management intends to place before the Meeting to approve the renewal of the Stock Option Plan is as follows:

2. the form of the Stock Option Plan may be amended as may be required by the Canadian Securities Exchange ("**CSE**"), or any other stock exchange on which the Common Shares are listed, or at the discretion of the Corporation's Board acting in the best interests of the Corporation without requiring further approval of the shareholders of the Corporation;
3. all issued and outstanding stock options previously granted be and are continued and are hereby ratified, confirmed and approved; and

In order to be effective, the resolution must be approved by a simple majority of the votes cast thereon by Shareholders who are present in person or by proxy at the Meeting.

6. Other Business

STATEMENT OF EXECUTIVE COMPENSATION

The executive compensation discussion below discloses compensation paid to the following individuals:

- (a) each individual who, in respect of the Corporation, during any part of the most recently completed financial year, served as chief executive officer, including an individual performing functions similar to a chief executive officer;
- (b) each individual who, in respect of the Corporation, during any part of the most recently completed financial year, served as chief financial officer, including an individual performing functions similar to a chief financial officer;
- (c) in respect of the Corporation and its subsidiaries, the most highly compensated executive officer other than the individuals identified in paragraphs (a) and (b) at the end of the most recently completed financial year whose total compensation was more than \$150,000, as determined in accordance with Section 1.3(5) of Form 51-102F6V under National Instrument 51-102 – Continuous Disclosure Obligations, for that financial year; and
- (d) each individual who would be a named executive officer under paragraph (c) but for the fact that the individual was neither an executive officer of the Corporation, nor acting in a similar capacity, as at the end of the most recently completed financial year,

(each, a "Named Executive Officer").

During the financial year ended July 31, 2022, the Corporation had three Named Executive Officers ("NEOs"), Trevor Harding, Chief Executive Officer (the "CEO"), Lori Walton, the former Chief Executive Officer, and Stephen Brohman, Chief Financial Officer (the "CFO").

Compensation Discussion and Analysis

In assessing the compensation of its executive officers, the Corporation does not have in place any formal objectives, criteria or analysis; compensation payable is currently determined by the Board. The Corporation's executive compensation program is based on comparisons of similar type and size companies. Both individual and corporate performances are also taken into account.

The Corporation's directors have not established any peer group benchmark or performance goals to be achieved or met by the NEOs (as defined in National Instrument 51-102), however, such NEOs are expected to carry out their duties in an effective and efficient manner so as to advance the business objectives of the Corporation. The satisfactory discharge of such duties is subject to ongoing monitoring by the Corporation's directors.

Payments may be made from time to time to individuals or companies they control for the provision of consulting services. Such consulting services are paid for by the Corporation at competitive industry rates for work of a similar nature by reputable arm's length services providers.

Compensation Objectives and Principles

As the Corporation is in an exploration and development phase with no significant revenue from operations, the Corporation operates with limited financial resources and controls costs to ensure that funds are available to complete scheduled programs. As a result, the Board has to consider not only the financial situation of the Corporation at the time of the determination of executive compensation, but also the estimated financial situation of the Corporation in the mid- and long-term. An important element of executive compensation is that of stock options which does not require cash disbursement by the Corporation.

Compensation Process

The Corporation will rely solely on its Board, without any formal objectives, criteria or analysis, in determining the compensation of its executive officers. The Board is responsible for determining all forms of compensation, including long-term incentives in the form of stock options to be granted to the Corporation's NEOs and directors, and for reviewing the recommendations respecting compensation for any other officers of the Corporation from time to time, to ensure such arrangements reflect the responsibilities and risks associated with each position. When determining the compensation of its officers, the Board considers: (i) recruiting and retaining executives critical to the success of the Corporation and the enhancement of shareholder value; (ii) providing fair and competitive compensation; (iii) balancing the interests of management and the Corporation's shareholders; (iv) rewarding performance, both on an individual basis and with respect to operations in general; and (v) available financial resources.

Stock Option Plan and Other Incentive Plans

That Corporation has adopted a 10% rolling Stock Option Plan which provides that the Board may from time to time, in its discretion, grant to directors, officers, employees and consultants of the Corporation, or any subsidiary of the Corporation, the option to purchase Common Shares. The purpose of this Stock Option Plan is to provide an incentive to the directors, officers, employees, consultants and other personnel of the Corporation or any of its subsidiaries to achieve the longer-term objectives of the Corporation; to give suitable recognition to the ability and industry of such persons who contribute materially to the success of the Corporation; and to attract to and retain in the employ of the Corporation or any of its subsidiaries, persons of experience and ability, by providing them with the opportunity to acquire an increased proprietary interest in the Corporation.

The number of Common Shares issuable upon the exercise of options granted under the Stock Option Plan at any time may not exceed 10% of the total number of issued and outstanding Common Shares (on a non-diluted basis) and the

aggregate number of Common Shares issuable to any one individual may not exceed 5% of the total number of issued and outstanding Common Shares. The period during which an option granted under the Stock Option Plan is exercisable may not exceed ten years from the date such option is granted. All options are non-assignable and non-transferrable. The price which the Common Shares may be acquired upon exercise of an option may not be less than the price permitted under the rules of any stock exchange on which the Common Shares are listed and the vesting provisions are determined by the Board at the time of grant.

If prior to the exercise of an option, the holder ceases to be a director, officer, employee or consultant of the Corporation for any reason other than death, the option may be exercised within the earlier of up to 90 days after such cessation or the expiry of the option, but only to the extent that the holder was entitled to exercise the option at the date of cessation. In the case of death of an optionee, the option may be exercised within the earlier of up to 12 months after such death or the expiry of the option, but only to the extent that the holder was entitled to exercise the option at the date of death.

Employment, Consulting and Management Agreements

Other than the executive consulting agreements described below, the Corporation does not have any other compensation agreements or arrangements in place with respect to services provided by a NEO or director.

The Corporation has entered into a written consulting agreement with Donaldson Brohman Martin, CPA, Inc. ("DBM"), with respect to the provision of certain financial, administrative, and audit relative services, to be provided by Stephen Brohman in his role as the CFO of the Corporation. This agreement is for indefinite duration and provides that Mr. Brohman is to receive monthly compensation of \$3,000 per month, plus additional fees payable at agreed upon hourly rates for transactions and other matters outside of the scope of the agreement. Mr. Brohman is expected to devote 15% of his time to the affairs of the Corporation, or such other amount of time as is necessary to carry out his duties as CFO. Mr. Brohman has agreed to a confidentiality restriction during the term of his consulting agreement.

The Corporation entered into a written consulting agreement with Lori Walton dated February 1, 2020, for a term of six months, renewable automatically. Under this agreement, Ms. Walton provided management duties and services and the type generally assumed by the CEO. Under the terms of this agreement, Ms. Walton received compensation of \$4,500 per month. As a result of her termination, Ms. Walton's contract terminated on December 23, 2021.

Mr. Harding was appointed to the office of CEO on December 23, 2021. Mr. Harding currently receives compensation of \$5,000 per month. The Corporation and Mr. Harding have not entered into a written consulting agreement, but are expected to do so following completion of the Offering. Mr. Harding is expected to devote 25% of his time to the affairs of the Corporation, or such other amount of time as may be necessary to carry out his duties as CEO. Mr. Harding has not entered into an agreement pursuant to which he owes confidentiality obligations to the Corporation, however, it is expected that his consulting agreement will include such obligations.

Oversight and Description of Director and Named Executive Officer Compensation

Executive compensation is based upon the need to provide a compensation package that will allow the Corporation to attract and retain qualified and experienced executives, balanced with a pay-for-performance philosophy. Compensation for this fiscal year and prior fiscal years has historically been based upon a negotiated fee, with stock options and bonuses potentially being issued and paid as an incentive for performance. The Corporation's compensation policies and programs are designed to be competitive with similar mining companies and to recognize and reward executive performance consistent with the success of the Corporation's business. These policies and programs are intended to attract and retain capable and experienced people while complying with regulatory requirements. The Board's role and philosophy, among other things, are to ensure that the Corporation's compensation goals and objectives, as applied to the actual compensation paid to the Corporation's CEO and other executive officers, are aligned with the Corporation's overall business objectives and with shareholder interests.

The Board considers a variety of factors when determining both compensation policies and programs and individual compensation levels. These factors include the long-range interests of the Corporation and its shareholders, the implications of the risks associated with the Corporation's compensation policies and practices in light of the financial performance of the Corporation, the overall financial and operating performance of the Corporation and the Board's assessment of each executive's individual performance and contribution toward meeting corporate objectives. Since last year's Meeting, the Board has not proceeded to a formal evaluation of the implications of the risks associated with

the Corporation's compensation policies and practices. Risk management is a consideration of the Board when implementing its compensation program, and the Board does not believe that the Corporation's compensation programme results in unnecessary or inappropriate risk-taking including risks that are likely to have a material adverse effect on the Corporation.

The Board reviews the compensation levels of the executive officers of the Corporation and the strategic objectives of the stock option and other stock-based compensation plans of the Corporation and considers any other matters which should be taken into account concerning the compensation levels of the Corporation's executive officers.

The duties and responsibilities of the CEO are typical of those of a business entity of the Corporation's size and in a similar business and include direct reporting responsibility to the Board, overseeing the activities of all other executive and management consultants, representing the Corporation, providing leadership and responsibility for achieving corporate goals and implementing corporate policies and initiatives.

The compensation of the Corporation's officers and directors is based on an incentive philosophy with the intent that all efforts will be directed toward a common objective of creating shareholder value. The compensation strategy is to attract and retain talent and experience with focused leadership in the operations, financing, and exploration asset management of the Corporation with the objective of maximizing the value of the Corporation. The officers and the Board each have defined skills and experience that are essential to the Corporation.

The incentive component of the Corporation's compensation program is the potential longer-term reward provided through the grant of stock options. The Stock Option Plan is intended to attract, retain and motivate officers and directors of the Corporation in key positions, and to align the interests of those individuals with those of the Corporation's shareholders. The Stock Option Plan provides such individuals with an opportunity to acquire a proprietary interest in the Corporation's value growth through the exercise of stock options. Options are granted at the discretion of the Board, which considers factors such as how other companies grant options and the potential value that each optionee is contributing to the Corporation. The number of options granted to an individual is based on such considerations. Stock options are granted at an exercise price of not less than the prevailing market price of the Corporation's Common Shares at the time of the grant.

The only arrangements the Corporation currently has pursuant to which directors are compensated by the Corporation for their services in their capacity as directors, or for committee participation, involvement in special assignments or for services as consultant or expert during the most recently completed financial period or subsequently, are by the issuance of incentive stock options pursuant to the Stock Option Plan. The directors will not receive any cash remuneration for serving in their capacity as directors.

During the year ended July 31, 2022, the Company granted Nil stock options to its directors and NEOs.

Use of Financial Instruments

The Corporation does not have a policy that would prohibit an NEO or director from purchasing financial instruments, including prepaid variable forward contracts, equity swaps, collars or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director. However, management is not aware of any NEO or director purchasing such an instrument.

Termination of Employment, Change of Control Benefits and Employment Contracts

There are no management or consulting agreements with any directors or officers of the Corporation that provide for payments to an officer or director, following or in connection with any termination (whether voluntary, involuntary or constructive), resignation, retirement, a change in control of the Corporation or a change in a director's or officer's responsibilities. With respect to the consulting agreements entered into with Stephen Brohman, the Corporation and Mr. Brohman are each entitled to terminate the agreement on three (3) months written notice.

Each member of the Audit Committee is also considered to be "financially literate" which includes the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues of the Corporation.

Relevant Education and Experience

The education and experience of each Audit Committee member that is relevant to the performance of his responsibilities as an Audit Committee member, and in particular the education or experience that provides each member with: (i) an understanding of the accounting principles used by the Corporation to prepare its financial statements; (ii) the ability to assess the general application of such accounting principles in connection with the accounting for estimates, accruals and provisions; (iii) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the Corporation's financial statements; and (iv) an understanding of internal controls and procedures for financial reporting, is as follows:

Lori Walton Ms. Walton is an independent consultant focused on providing executive management. She has been a director and executive officer of a number of public resource companies, and as a result, she is familiar with the financial reporting requirements applicable to public companies in Canada.

Paul Milelli Mr. Milelli has significant experience in corporate finance and has been a director of a number of public companies, and as a result, he is familiar with the financial reporting requirements applicable to public companies in Canada.

Exemption

The Corporation is relying on the exemption provided by section 6.1 of NI 52-110 which provides that the Corporation, as a "venture issuer", is not required to comply with the restrictions on composition of its audit committee and the disclosure requirements of its Audit Committee in an annual information form as prescribed by NI 52-110.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

National Policy 58-201 of the Canadian Securities Administrators has set out a series of guidelines for effective corporate governance (the "**Guidelines**"). The Guidelines address matters such as the constitution and independence of corporate boards, the functions to be performed by boards and their committees and the effectiveness and education of board members. NI 58-101 requires the disclosure by each listed corporation of its approach to corporate governance with reference to the Guidelines.

Set out below is a description of the Corporation's approach to corporate governance in relation to the Guidelines.

Board of Directors

NI 58-101 defines an "independent director" as a director who has no direct or indirect material relationship with the Corporation. A "material relationship" is in turn defined as a relationship which could, in the view of the Board, be reasonably expected to interfere with such member's independent judgement. The Board is currently comprised of three members, only one of which, Paul Milelli, has been determined by the Corporation's Board to be an "independent director" within the meaning of NI 58-101.

Trevor Harding is not considered to be an independent director within the meaning of NI 58-101 by virtue of his service as CEO of the Corporation. Similarly, Ms. Walton is not considered to be an independent director of the Corporation by virtue of the fact that that she was an executive officer of the Corporation (CEO), within the last three years.

Mr. Milelli is considered an independent director since he is independent of management and free from any material relationship with the Corporation. The basis for this determination is that, since the incorporation of the Corporation on March 26, 2019, Mr. Milelli has not worked for the Corporation, received remuneration from the Corporation or had material contracts with or material interests in the Corporation which could interfere with his ability to act with a view to the best interests of the Corporation.

Other Directorships

None of the directors are also directors of other reporting issuers (or equivalent) in a jurisdiction or a foreign jurisdiction, other than as follows:

<u>Director</u>	<u>Reporting Issuer</u>
Lori Walton	C2C Gold Corp. (formerly Taku Gold Corp.) (CSE)

Orientation and Continuing Education

While the Corporation currently has no formal orientation and education program for new Board members, sufficient information (such as recent financial statements, prospectuses, proxy solicitation materials, technical reports and various other operating, property and budget reports) will be provided to any new Board member to ensure that new directors are familiarized with the Corporation's business and the procedures of the Board. In addition, new directors will be encouraged to visit and meet with management on a regular basis and are given the opportunity to meet with counsel to the Corporation to discuss their legal obligations. The Corporation will also encourage continuing education of its directors and officers where appropriate in order to ensure that they have the necessary skills and knowledge to meet their respective obligations to the Corporation.

Ethical Business Conduct

Given the small size of the board and stage of development of the Corporation, the Board has determined that the fiduciary obligations placed on directors pursuant to applicable corporate laws are effective in ensuring ethical business conduct on the part of its directors.

Nomination of Directors

The Board performs the functions of a nominating committee with responsibility for the appointment and assessment of directors. The Board believes that this is a practical approach at this stage of the Corporation's development and given the relatively small size of the Board.

While there are no specific criteria for Board membership, the Corporation will attempt to attract and maintain directors with business knowledge and a particular knowledge of mineral exploration and development or other areas (such as finance) which provide knowledge which would assist in guiding the officers of the Corporation. As such, nominations will tend to be the result of recruitment efforts by management of the Corporation and discussions among the directors prior to the consideration of the Board as a whole.

Compensation of Directors and Executive Officers

The Board is responsible for determining compensation payable to executive officers and directors. The Board has determined at this time not to establish a compensation committee. See "*Statement of Executive Compensation*".

Other Board Committees

The Board does not currently have any committees other than the Audit Committee.

Assessments

No formal policy has been established to monitor the effectiveness of directors. However, the Board will assess, on a periodic basis, the contributions of the Board as a whole and each of the individual directors, in order to determine whether each is functioning effectively.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

No current or former director, executive officer or employee of the Corporation, or any proposed Nominee, or any of their respective associates or affiliates, is or has been at any time since the beginning of the last completed fiscal year, indebted to the Corporation or any of its subsidiaries nor has any such person been indebted to any other entity where such indebtedness is the subject of a guarantee, support agreement, letter of credit or similar arrangement or understanding, provided by the Corporation or any of its subsidiaries.

INTERESTS OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Other than as set forth herein, the Corporation is not aware of any material interest, direct or indirect, of any "informed person" of the Corporation, any Nominee or any associate or affiliate of any of the foregoing in any transaction since the commencement of the Corporation's most recently completed financial year or in any proposed transaction which has materially affected or would materially affect the Corporation.

For the purposes of the above, "informed person" means: (a) a director or executive officer of the Corporation; (b) a director or executive officer of a company that is itself an informed person or subsidiary of the Corporation; (c) any person or company who beneficially owns, directly or indirectly, voting securities of the Corporation or who exercises control or direction over voting securities of the Corporation or a combination of both carrying more than 10% of the voting rights attached to all outstanding voting securities of the Corporation other than voting securities held by the person or company as underwriter in the course of a distribution; and (d) the Corporation after having purchased, redeemed or otherwise acquired any of its securities, for so long as it holds any of its securities.

MANAGEMENT CONTRACTS

The Corporation has no management contracts or other arrangement in place where management functions are performed by a person or company other than the directors or executive officers of the Corporation.

APPROVAL

The contents of this Information Circular and the sending thereof to the Shareholders have been approved by the directors of the Corporation.

DATED at Calgary, Alberta as of this 5th day of June, 2023.

7. Option Agreement

A written agreement will be entered into between the Corporation and each Optionee to whom an Option is granted hereunder, which agreement will set out the number of Common Shares subject to option, the exercise price and any other terms and conditions approved by the Board of Directors, all in accordance with the provisions of this Plan (herein referred to as the "Stock Option Agreement"). The Stock Option Agreement will be in such form as the Board of Directors may from time to time approve, and may contain such terms as may be considered necessary in order that the Option will comply with any provisions respecting options in the income tax or other laws in force in any country or jurisdiction of which the Optionee may from time to time be a resident or citizen or the rules of any regulatory body having jurisdiction over the Corporation.

8. Option Period and Exercise Price

Each Option and all rights thereunder shall be expressed to expire on the date set out in the respective Stock Option Agreement, which shall be the date of the expiry of the Option Period (the "Expiry Date"), subject to earlier termination as provided in Sections 10 and 11 hereof.

Subject to Exchange Policies and any limitations imposed by any relevant regulatory authority, the exercise price of an Option granted under this Plan shall be as determined by the Board of Directors when such Option is granted and shall not be lower than the greater of the closing market prices of the underlying securities on (a) the trading day prior to the date of grant of the Options; and (b) the date of grant of the Options.

9. Exercise of Options

An Optionee shall be entitled to exercise an Option granted to him at any time prior to the expiry of the Option Period, subject to Sections 10 and 11 hereof and to vesting limitations which may be imposed by the Board of Directors at the time such Option is granted. Subject to the Exchange Policies, the Board of Directors may, in its sole discretion, determine the time during which an Option shall vest and the method of vesting, or that no vesting restriction shall exist.

The exercise of any Option will be conditional upon receipt by the Corporation at its head office of a written notice of exercise, specifying the number of Common Shares in respect of which the Option is being exercised, accompanied by cash payment, certified cheque or bank draft for the full purchase price of such Common Shares with respect to which the Option is being exercised.

Common Shares shall not be issued pursuant to the exercise of an Option unless the exercise of such Option and the issuance and delivery of such Common Shares pursuant thereto shall comply with all relevant provisions of applicable securities law, including, without limitation, the 1933 Act, the *United States Securities and Exchange Act of 1934, as amended*, applicable U.S. state laws, the rules and regulations promulgated thereunder, and the requirements of any stock exchange or consolidated stock price reporting system on which prices for the Common Shares are quoted at any given time. As a condition to the exercise of an Option, the Corporation may require the person exercising such Option to represent and warrant at the time of any such exercise that the Common Shares are being purchased only for investment and without any present intention to sell or distribute such Common Shares if, in the opinion of counsel for the Corporation, such a representation is required by law.

10. Ceasing to be a Director, Officer, Employee or Consultant

If an Optionee ceases to be a director, officer, employee, consultant or service provider of the Corporation or its subsidiaries for any reason other than death, the Optionee may, ninety (90) days after the Optionee's ceasing to be a director, officer, employee, consultant or service provider (or 30 days in the case of an Optionee engaged in Investor Relations Activities) or prior to the expiry of the Option Period, whichever is earlier, exercise any Option held by the Optionee, but only to the extent that the Optionee was entitled to exercise the Option at the date of such cessation. For greater certainty, any Optionee who is deemed to be an employee of the Corporation pursuant to any medical or disability plan of the Corporation shall be deemed to be an employee for the purposes of this Plan.

11. Death of Optionee

In the event of the death of an Optionee, the Option previously granted to him shall be exercisable within one (1) year following the date of the death of the Optionee or prior to the expiry of the Option Period, whichever is earlier, and then only:

- (a) by the person or persons to whom the Optionee's rights under the Option shall pass by the Optionee's will or the laws of descent and distribution, or by the Optionee's legal personal representative; and
- (b) to the extent that the Optionee was entitled to exercise the Option at the date of the Optionee's death.

12. Optionee's Rights Not Transferable

No right or interest of any Optionee in or under this Plan is assignable or transferable, in whole or in part, either directly or by operation of law or otherwise in any manner except by bequeath or the laws of descent and distribution, subject to the requirements of the Exchange, or as otherwise allowed by the Exchange.

Subject to the foregoing, the terms of this Plan shall bind the Corporation and its successors and assigns, and each Optionee and his heirs, executors, administrators and personal representatives.

13. Takeover or Change of Control

The Corporation shall have the power, in the event of:

- (a) any disposition of all or substantially all of the assets of the Corporation, or the dissolution, merger, amalgamation or consolidation of the Corporation with or into any other corporation or of such corporation into the Corporation; or
- (b) any change in control of the Corporation,

to make such arrangements as it shall deem appropriate for the exercise of outstanding Options or continuance of outstanding Options, including without limitation, to amend any Stock Option Agreement to permit the exercise of any or all of the remaining Options prior to the completion of any such transaction. If the Corporation shall exercise such power, the Option shall be deemed to have been amended to permit the exercise thereof in whole or in part by the Optionee at any time or from time to time as determined by the Corporation prior to the completion of such transaction.

14. Anti-Dilution of the Option

In the event of:

- (a) any subdivision, redivision or change of the Common Shares at any time during the term of the Option into a greater number of Common Shares, the Corporation shall deliver, at the time of any exercise thereafter of the Option, such number of Common Shares as would have resulted from such subdivision, redivision or change if the exercise of the Option had been made prior to the date of such subdivision, redivision or change;
- (b) any consolidation or change of the Common Shares at any time during the term of the Option into a lesser number of Common Shares, the number of Common Shares deliverable by the Corporation on any exercise thereafter of the Option shall be reduced to such number of Common Shares as would have resulted from such consolidation or change if the exercise of the Option had been made prior to the date of such consolidation or change; or

- (c) any reclassification of the Common Shares at any time outstanding or change of the Common Shares into other shares, or in case of the consolidation, amalgamation or merger of the Corporation with or into any other corporation (other than a consolidation, amalgamation or merger which does not result in a reclassification of the outstanding Common Shares or a change of the Common Shares into other shares), or in case of any transfer of the undertaking or assets of the Corporation as an entirety or substantially as an entirety to another corporation, at any time during the term of the Option, the Optionee shall be entitled to receive, and shall accept, in lieu of the number of Common Shares to which he was theretofore entitled upon exercise of the Option, the kind and amount of shares and other securities or property which such holder would have been entitled to receive as a result of such reclassification, change, consolidation, amalgamation, merger or transfer if, on the effective date thereof, he had been the holder of the number of Common Shares to which he was entitled upon exercise of the Option.

Adjustments shall be made successively whenever any event referred to in this Section shall occur. For greater certainty, the Optionee shall pay for the number of shares, other securities or property as aforesaid, the amount the Optionee would have paid if the Optionee had exercised the Option prior to the effective date of such subdivision, redivision, consolidation or change of the Common Shares or such reclassification, consolidation, amalgamation, merger or transfer, as the case may be.

15. Costs

The Corporation shall pay all costs of administering this Plan.

16. Termination and Amendment

- (a) The Board of Directors may amend or terminate this Plan or any outstanding Option granted hereunder at any time without the approval of the shareholders of the Corporation or any Optionee whose Option is amended or terminated, in order to conform this Plan or such Option, as the case may be, to applicable law or regulation or the requirements of the Exchange or any relevant regulatory authority, whether or not such amendment or termination would affect any accrued rights, subject to the approval of the Exchange or such regulatory authority.
- (b) The Board of Directors may amend or terminate this Plan or any outstanding Option granted hereunder for any reason other than the reasons set forth in Section 16(a) hereof, subject to the approval of the Exchange or any relevant regulatory authority and the approval of the shareholders of the Corporation if required by the Exchange or such regulatory authority.
- (c) This Plan, and any amendments hereto, shall be subject to acceptance and approval by the Exchange. Any Options granted prior to such approval and acceptance shall be conditional upon such approval and acceptance being given and no such Options may be exercised unless and until such approval and acceptance are given.

17. Withholding Tax

Upon exercise of an Option, the Optionee will, upon notification of the amount due and prior to or concurrently with the delivery of the certificates representing the Common Shares, pay to the Corporation amounts necessary to satisfy applicable withholding tax requirements or will otherwise

make arrangements satisfactory to the Corporation for such requirements. In order to implement this provision, the Corporation or any related corporation will have the right to retain and withhold from any payment of cash or Common Shares under the Plan the amount of taxes required to be withheld or otherwise deducted and paid in respect of such exercise. At its discretion, the Corporation may require an Optionee receiving Common Shares upon the exercise of an Option to reimburse the Corporation for any such taxes required to be withheld by the Corporation and withhold any distribution to the Optionee in whole or in part until the Corporation is so reimbursed. In lieu thereof, the Corporation will have the right to withhold from any cash amount due or to become due from the Corporation to the Optionee an amount equal to such taxes. The Corporation may also retain and withhold or the Optionee may elect, subject to approval by the Corporation at its sole discretion, to have the Corporation retain and withhold a number of Common Shares having a market value not less than the amount of such taxes required to be withheld by the Corporation to reimburse the Corporation for any such taxes and cancel (in whole or in part) any such Common Shares issuable upon exercise of an Option so withheld.

18. Applicable Law

This Plan shall be governed by, administered and construed in accordance with the laws of the Province of Alberta and the laws of Canada applicable therein.

19. Prior Plans

On the effective date (as set out in Section 19 hereof), subject to Exchange approval and, if required, shareholder approval:

- (a) this Plan shall entirely replace and supersede prior stock option plans, if any, enacted by the Corporation; and
- (b) all outstanding options shall be deemed to be granted pursuant to this Plan.

20. Effective Date

This Plan shall become effective as of and from the adoption by the Board and upon receipt of all necessary shareholder and regulatory approvals.

21. Legends on Hold Periods

If required by the Exchange policies or applicable securities laws, the Common Shares issued on exercise of the Options will be legended.
