Financial Statements

March 31, 2022

(Expressed in Canadian Dollars)

INDEPENDENT AUDITORS' REPORT

To the Shareholders of SureNano Science Ltd.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of SureNano Science Ltd. (the "Company"), which comprise the statements of financial position as at March 31, 2022 and 2021 and the statements of operations and comprehensive loss, statements of changes in equity and statements of cash flows for the period from incorporation on January 14, 2021 to March 31, 2021, and the year ended March 31, 2022, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2022 and 2021, and its financial performance and its cash flows for the period from incorporation on January 14, 2021 to March 31, 2021, and the year ended March 31, 2022 in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

Without qualifying our opinion, we draw attention to Note 1 to the financial statements which indicates the existence of a material uncertainty that may cast significant doubt about SureNano Science Ltd. ability to continue as a going concern.

Information other than the Consolidated Financial Statements and the Auditor's Report thereon

Management is responsible for the other information. The other information comprises the information, other than the consolidated financial statements and our auditor's report thereon, included in Management's discussion and analysis report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's discussion and analysis report prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Mickey Goldstein.

1. Nature of Operations and Continuance of Business

SureNano Science Ltd. (the "Company") was incorporated under the Business Corporations Act in British Columbia on January 14, 2021. The principal business of the Company is the sale and distribution of the SureNano[™] surfactant, which is a ready-to-mix food grade compound that provides the base for high performance nano-emulsions to create incredibly homogeneous and stable products while maximizing bioavailability, clarity, and taste. The Company has exclusive licenses to distribute the SureNano[™] surfactant within Canada and the State of Colorado, USA (Note 3). The Company's head office is located at 350 – 1650 West 2nd Avenue, Vancouver, British Columbia.

These financial statements have been prepared on a going concern basis which assumes that the Company will realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. As at March 31, 2022, the Company has negative cash flow from operations, and has an accumulated deficit of \$1,201,174. The Company expects to incur further losses in the development of its business. The Company's ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, in the meantime, to obtain the necessary financing to meet its obligations and repay its liabilities when they become due. These factors indicate the existence of a material uncertainty that may cast doubt on the Company's ability to continue as a going concern. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. These adjustments could be material.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

2. Significant Accounting Policies

(a) Statement of Compliance and Basis of Presentation

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These financial statements have been prepared on a historical cost basis and are presented in Canadian dollars, which is the Company's functional currency.

(b) Use of Estimates and Judgments

The preparation of these financial statements in conformity with IFRS requires the Company's management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, revenues, and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Significant areas requiring the use of estimates include share-based compensation, the recovery of accounts receivable, and unrecognized deferred income tax assets. Actual results could differ from those estimates.

(b) Use of Estimates and Judgments (continued)

Judgments made by management include the factors used to determine the assessment of whether the going concern assumption is appropriate. The assessment of the going concern assumption requires management to take into account all available information about the future, which is at least, but is not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

(c) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance, are readily convertible to known amounts of cash, and which are subject to insignificant risk of changes in value to be cash equivalents. As at March 31, 2022, and 2021, the Company has no cash equivalents.

(d) Financial Instruments

The Company's financial instruments consist of cash, amounts receivable, accounts payable, and due to related parties.

The Company follows the requirements of IFRS 9, *Financial Instruments* ("IFRS 9"). IFRS 9 utilizes a model for recognition and measurement of financial instruments in a single, forward-looking "expected loss" impairment model.

(i) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income ("FVOCI") – debt investment; FVOCI - equity investment; or at fair value through profit and loss ("FVTPL"). Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- (d) Financial Instruments (continued)
 - (i) Classification and subsequent measurement (continued)

Financial assets (continued)

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis. All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

- Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in the statement of operations and comprehensive loss.
- Financial assets at amortized cost: These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in the statement of operations and comprehensive loss. Any gain or loss on derecognition is recognized in the statement of operations and comprehensive loss.
- Debt investments at FVOCI: These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the statement of operations and comprehensive loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of operations and comprehensive loss.
- Equity investments at FVOCI: These assets are subsequently measured at fair value. Dividends are recognized as income in the statement of operations and comprehensive loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to the statement of operations and comprehensive loss.

Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the statement of operations and comprehensive loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of operations and comprehensive loss. Any gain or loss on derecognition is also recognized in the statement of operations and comprehensive loss.

- (d) Financial Instruments (continued)
 - (ii) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The Company enters into transactions whereby it transfers assets recognized in its consolidated statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in the statement of operations and comprehensive loss.

(iii) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(iv) Impairment

Financial assets and contract assets

The Company recognizes loss allowances for expected credit losses ("ECL") on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI; and
- contract assets (as defined in IFRS 15).

The Company measures loss allowances on amounts receivable at an amount equal to lifetime ECL. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

- (d) Financial Instruments (continued)
 - (iv) Impairment (continued)

Financial assets and contract assets (continued)

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the entity expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganization.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

- (d) Financial Instruments (continued)
 - (iv) Impairment (continued)

Financial assets at amortized cost

Financial assets at amortized cost are non-derivative financial assets which are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition. Subsequent to initial recognition, financial assets are measured at amortized cost using the effective interest method, less any impairment.

Subsequent to initial recognition, financial liabilities are measured at amortized cost, unless designated as fair value through profit or loss.

Impairment of Financial Assets

Financial assets, other than those classified as FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been decreased.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account.

When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are offset against the allowance account. Changes in the carrying amount of the allowance account are recognized in the consolidated statement of operations. Loss allowances are based on the lifetime ECL's that result from all possible default events over the expected life of the trade receivable, using the simplified approach.

For financial assets measured at amortized cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through the statement of operations and comprehensive loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

(e) Inventory

Inventory is stated at the lower of cost or net realizable value. Appropriate consideration is given to obsolescence, excessive levels, deterioration, and other factors in evaluating net realizable value. Inventory consists of extraction SureNano[™] surfactant for resale. At March 31, 2022 and 2021, the Company had no inventory.

(f) Share capital

Common shares and special warrants are classified as equity. Transaction costs directly attributable to the issue of common shares and special warrants are recognized as a deduction from equity as share issue costs, net of any tax effects. Common shares issued for consideration other than cash are valued based on their fair value at the date the shares are issued.

Share issue costs and other legal fees related to and incurred in advance of share subscriptions are recorded as deferred financing costs. Share issue costs related to uncompleted share subscriptions are charged to profit or loss.

(g) Revenue

The Company generates revenue from the sale of SureNanoTM surfactant. The time between invoicing and when payment is due is not significant and none of the Company's contracts contain a significant financing component. The Company follows IFRS 15, *Revenue from Contracts with Customers* ("IFRS 15"), to recognize its revenue. IFRS 15 establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15 the Company's accounting policy for revenue recognition is as follows: i) identify the contract with the customer; ii) identify the performance obligation(s) in the contract; iii) determine the transaction price; iv) allocate the transaction price to the performance obligation(s); and (v) recognize revenue when (or as) performance obligation(s) are satisfied.

For product sales, revenue is recognized immediately upon providing the customer with the product. Revenue is measured based on the price specified in the Company's invoice provided to the customer. The Company does not have any multiple-element revenue arrangements. Revenue is presented net of discounts and sales and other related taxes.

(h) Foreign Currency Translation

The Company's functional currency and reporting currency is the Canadian dollar. Transactions denominated in foreign currencies are translated using the exchange rate in effect on the transaction date or at an average rate. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange in effect at the statement of financial position date. Non-monetary items are translated using the historical rate on the date of the transaction. Foreign exchange gains and losses are included in the statement of operations.

(i) Share-based Payments

The grant date fair value of share-based payment awards granted to employees is recognized as share-based compensation expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

Where equity instruments are granted to parties other than employees, they are recorded by reference to the fair value of the services received. If the fair value of the services received cannot be reliably estimated, the Company measures the services received by reference to the fair value of the equity instruments granted, measured at the date the counterparty renders service.

All equity-settled share-based payments are reflected in share-based payment reserve, unless exercised. Upon exercise, shares are issued from treasury and the amount reflected in share-based payment reserve is credited to share capital, adjusted for any consideration paid.

(j) Income Taxes

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in the statement of operations. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax

Deferred income tax is provided using the statement of financial position method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable income will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Deferred income tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

(k) Loss Per Share

Basic loss per common share is computed by dividing their respective net loss by the weighted average number of common shares outstanding during the period. The computation of diluted loss per share assumes the conversion, exercise or contingent issuance of securities only when such conversion, exercise or issuance would have a dilutive effect on the income per share. The dilutive effect of convertible securities is reflected in the diluted loss per share by application of the "if converted" method. The dilutive effect of outstanding incentive stock options and their equivalents is reflected in the diluted loss per share by application of the treasury stock method.

(I) Comprehensive Loss

Comprehensive loss is the change in the Company's net assets that results from transactions, events and circumstances from sources other than the Company's shareholders and includes items that are not included in the statement of operations.

(m) Recent Accounting Pronouncements

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

3. Licensing Agreements

(a) On February 19, 2021, the Company entered into a licensing agreement (the "Licensing Agreement") with 1150641 B.C. Ltd. ("1150641"), a company controlled by an individual who was appointed as a Director of the Company subsequent to entering into the Licensing Agreement, whereby the Company was granted an exclusive license and right to produce, distribute, and enter into sub-licenses or agreements within Canada with respect to the SureNanoTM surfactant (the "Product"), which is owned by 1150641. The Company was also granted the first right of refusal over licenses and rights to the Product in Europe over the life of the Licensing Agreement. The Licensing Agreement is for an initial term of 10 years, with an option to renew for an additional 10 years upon the Company providing written notice to 1150641 prior to the expiration of the initial term.

In consideration for the exclusive license and rights, the Company agreed to pay the following:

- (a) \$50,000 within 3 business days of signing the Licensing Agreement (paid);
- (b) \$50,000 on March 31, 2021 (paid);
- (c) \$50,000 on June 30, 2021 (paid); and
- (d) \$50,000 on September 30, 2021 (paid).

The Company also agreed to pay an on-going royalty calculated as 25% of net sales, which are payable within 30 days of the end of each fiscal quarter. In the event any royalty is not paid when due, interest on such unpaid amount will be payable at a rate of 8% per annum.

(b) On June 10, 2021, the Company entered into a Licensing Agreement (the "Colorado Licensing Agreement") with 1150641, a company controlled by a Director of the Company, whereby the Company was granted an exclusive license and right to produce, distribute, and enter into sub-licenses or agreements within the state of Colorado, USA, with respect to the Product, which is owned by 1150641. The Colorado Licensing Agreement is for an initial term of 10 years, with an option to renew for an additional 10 years upon the Company providing written notice to 1150641 prior to the expiration of the initial term.

In consideration for the rights and licenses, the Company paid \$25,000 and agreed to pay an ongoing royalty calculated as 25% of net sales, which is payable within 30 days of the end of each fiscal quarter. In the event any royalty is not paid when due, interest on such unpaid amount will be payable at a rate of 8% per annum.

During the year ended March 31, 2022, the Company recognized royalty expense of \$4,500 (period from incorporation on January 14, 2021, to March 31, 2021 – \$9,000) pursuant to the above licensing agreements.

4. Related Party Transactions

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company. The Company has determined that its key management personnel are the members of the Company's current and former Board of Directors and its executive officers.

- (a) During the year ended March 31, 2022, the Company incurred management fees of \$67,500 (period from incorporation on January 14, 2021, to March 31, 2021 \$nil) to the Chief Executive Officer ("CEO") of the Company. As at March 31, 2022, the Company owed \$7,875 (2021 \$nil) to the CEO. The amount is non-interest bearing, unsecured and due on demand.
- (b) During the year ended March 31, 2022, the Company incurred management fees of \$47,250 (period from incorporation on January 14, 2021, to March 31, 2021 – \$nil) to the Chief Financial Officer ("CFO") of the Company.

4. Related Party Transactions (continued)

- (c) During the year ended March 31, 2022, the Company incurred royalties of \$4,500 (period from incorporation on January 14, 2021, to March 31, 2021 \$9,000) and license fees of \$125,000 (period from incorporation on January 14, 2021, to March 31, 2021 \$100,000) to a company controlled by a Director of the Company. As at March 31, 2022, the Company owed \$4,710 (2021 \$nil) to a company controlled by a Director of the Company. The amount is non-interest bearing, unsecured and due on demand.
- (d) During the year ended March 31, 2022, the Company incurred consulting fees of \$49,000 (period from incorporation on January 14, 2021, to March 31, 2021 \$nil) to a company controlled by the son of the CFO of the Company. As at March 31, 2022, the Company owed \$3,199 (2021 \$nil) to the son of the CFO of the Company. The amount is non-interest bearing, unsecured and due on demand.
- (e) During the year ended March 31, 2022, the Company incurred share-based compensation of \$302,863 (period from incorporation on January 14, 2021, to March 31, 2021 – \$nil) to officers and directors of the Company.

5. Share Capital

Authorized: Unlimited number of common shares without par value.

The Company had the following capital stock transactions during the year ended March 31, 2022:

(a) On December 9, 2021, the Company issued 1,757,700 common shares upon the conversion of special warrants (Note 6).

The Company had the following capital stock transactions during the period ended March 31, 2022:

- (a) On January 14, 2021, the Company issued 5,000,100 common shares at \$0.005 per share for gross proceeds of \$25,000.
- (b) On February 5, 2021, the Company issued 11,600,000 common shares at \$0.02 per share for gross proceeds of \$232,000.
- (c) On March 16, 2021, the Company issued 3,100,000 common shares at \$0.25 per share for gross proceeds of \$775,000.

6. Special Warrants

On May 19, 2021, the Company completed a private placement of 1,757,700 non-transferable special warrants at \$0.25 per special warrant for gross proceeds of \$439,425. Each special warrant entitled subscribers to acquire, without payment of any consideration in addition to that already paid, one common share of the Company. In connection with the private placement, the Company paid a finder's fee of \$27,350 and incurred other issuance costs of \$4,230. On December 9, 2021 the Company converted 1,757,700 special warrants into 1,757,700 common shares of the Company (Note 5).

7. Stock Options

On June 16, 2021, the Board of Directors of the Company adopted the Company's Stock Option Plan (the "Plan"). The Plan is administered by the Board of Directors. Stock options granted under the Plan have a maximum term of 10 years, and vest at the discretion of the Board of Directors. The aggregate number of shares of the Company's common stock available for issuance under the Plan is 10% of the Company's issued and outstanding shares on the date on which a stock option is granted.

7. Stock Options (continued)

The following table summarizes the continuity of the Company's stock options:

	Number of stock options	Weighted average exercise price \$
Balance, January 14, 2021 (date of incorporation) and March 31, 2021	-	-
Granted	2,200,000	0.25
Balance, March 31, 2022	2,200,000	0.25
Exercisable, March 31, 2022	2,000,000	0.25

Additional information regarding stock options outstanding and exercisable as at March 31, 2022, is as follows:

Number of stock	Number of stock		Weighted average	
options	options	Exercise price	remaining contractual	
outstanding	exercisable	\$	life (years)	Expiry date
2,000,000	2,000,000	0.25	2.21	June 16, 2024
200,000	_	0.30	0.88	February 15, 2023
2,200,000	2,000,000			

Share-based compensation expense is determined using the Black-Scholes option pricing model. During the year ended March 31, 2022, the Company recognized share-based compensation expense of \$411,277 (incorporation on January 14, 2021, to March 31, 2021 – \$nil) in share-based payment reserves, of which \$302,863 (incorporation on January 14, 2021, to March 31, 2021 – \$nil) pertains to directors and officers of the Company. The weighted average fair value of options granted during the year ended March 31, 2022, was \$0.19 (incorporation on January 14, 2021, to March 31, 2021 – \$nil) per share. Weighted average assumptions used in calculating the fair value of share-based compensation expense are as follows:

	March 31, 2022	March 31, 2021
Risk-free interest rate	0.60%	_
Expected life (in years)	2.83	_
Expected volatility	144%	_

8. Commitments

(a) On June 10, 2021, the Company entered into a Collaborative Research Agreement with 1150641, a company controlled by a Director of the Company, whereby the Company and 1150641 will participate in a collaborative research project regarding the use of surfactants in cannabis oil and the products resulting therefrom and does not include the development of new surfactant formulae. Pursuant to the agreement, the Company agreed to pay and contribute half of the amounts required to pay for invoices of consultants in carrying out the research project to a maximum of \$100,000 during every six months of the term of the agreement. In addition, the Company was also responsible for covering half of the \$34,464 already paid by 1150641 (paid). The initial term of the agreement was 1 year and was extended by mutual agreement. The agreement may be terminated with 90 days prior written notice by either party.

8. Commitments (continued)

(b) On January 4, 2022, the Company entered into an agreement with a marketing firm to provide media and marketing services for a term of 1 year, whereby the marketing firm will receive monthly compensation of \$6,500. In addition, the Company granted the marketing firm 200,000 stock options, which are subject to vesting terms and may be exercised at a price of \$0.30 per common share, expiring on February 15, 2023 (Note 7).

9. Capital Management

The Company's objectives when managing capital are to raise the necessary equity financing to fund its projects and to manage the equity funds raised which best optimizes its programs and the interests of its equity shareholders at an acceptable risk. In the management of capital, the Company includes the components of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may raise additional equity funds. The Company is not subject to externally imposed capital requirements. There have been no changes to the Company's capital management during the year.

10. Fair Value Measurements and Risk Management

(a) Fair Values

The Company classified the fair value of the financial instruments according to the following fair value hierarchy based on the amount of observable inputs used to value the instruments:

- Level 1 quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e.: as prices) or indirectly (i.e.: derived from prices).
- Level 3 inputs for the asset or liability that are not based on observable market data.

The Company has recorded its cash at fair value using level 1 inputs. The fair values of the Company's other financial instruments, which include amounts receivable, accounts payable, and due to related parties approximate their carrying values due to the relatively short-term maturity of these instruments.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

(b) Credit Risk

Credit risk is the risk of a loss if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including accounts receivable. Accounts receivable consists of government sales tax recoverable and trade receivables from customers. Of the Company's trade receivables outstanding at March 31, 2022, nil% (2021 - 100%) is held with nil (2021 - 1) customer of the Company. The carrying amount of these financial assets represents the maximum credit exposure.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs.

10. Fair Value Measurements and Risk Management (continued)

(c) Liquidity Risk (continued)

The Company manages liquidity risk by maintaining sufficient cash balances and adjusting its operating budget and expenditure. Liquidity requirements are managed based on expected cash flows to ensure that there is sufficient capital in order to meet short-term and other specific obligations.

(d) Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

(i) Interest Rate Risk

Interest rate risk is the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The exposure to interest rates for the Company is considered minimal. The Company has no interest bearing borrowings.

(ii) Foreign Exchange Rate Risk and Interest Rate Risk

The Company is not currently exposed to foreign exchange rate risk or interest rate risk.

(iii) Price Risk

The Company is not exposed to significant price risk.

(e) Economic Dependence Risk

Economic dependence risk is the risk of reliance upon a select number of customers which significantly impact the financial performance of the Company. During the year ended March 31, 2022, the Company recorded sales from 1 (period from incorporation on January 14, 2021, to March 31, 2021 - 1) customer of the Company representing 100% (period from incorporation on January 14, 2021, to March 31, 2021 - 100%) of total revenue.

11. Income Taxes

The following table reconciles the expected income tax recovery at the Canadian statutory income tax rates to the amounts recognized in the statement of operations and comprehensive loss for the periods ended March 31, 2022, and 2021:

	2022 \$	2021 \$
Canadian statutory income tax rate	27%	11%
Income tax recovery at statutory rate	(302,000)	(8,975)
Tax effect of:		
Change in income tax rates, and other items	(15,185)	-
Permanent difference	111,000	-
Share issuance costs	(9,000)	-
Change in unrecognized deferred income tax assets	216,100	9,900
Income tax provision	915	925

11. Income Taxes (continued)

The significant components of deferred income tax assets and liabilities are as follows:

	2022	2021
	\$	\$
Deferred income tax assets:		
Licence fees	60,000	9,900
Share issuance costs	7,000	
Non-capital losses available for future periods	159,000	
	226,000	9,900
Unrecognized deferred income tax assets	(226,000)	(9,900)
Net deferred income tax asset	-	_

The Company has the following income tax assets available for future use:

	March 31, 2022	Expiry date range	March 31, 2021	
Licences	\$ 223,000	No expiry	\$ 98,000	
Share issuance costs	\$ 25,000	2023 - 2026	-	
Non-capital losses available for future periods	\$ 587,000	2042	-	

Tax attributes are subject to review and potential adjustment by tax authorities.

12. Subsequent Event

In June, 2022, the Company entered into a Licensing Agreement (the "Oklahoma Licensing Agreement") with 1150641, a company controlled by a Director of the Company, whereby the Company was granted an exclusive license and right to produce, distribute, and enter into sub-licenses or agreements within the state of Oklahoma, USA, with respect to current and future products developed by 1150641. The Oklahoma Licensing Agreement is for an initial term of 10 years, with an option to renew for an additional 10 years upon the Company providing written notice to 1150641 prior to the expiration of the initial term.

In consideration for the rights and licenses, the Company paid \$10,000 and agreed to pay an on-going royalty calculated as 25% of net sales, which is payable within 30 days of the end of each fiscal quarter. In the event any royalty is not paid when due, interest on such unpaid amount will be payable at a rate of 8% per annum.
