**LEOPARD LAKE GOLD CORPORATION (LP) ANNOUNCES THE ARRIVAL OF  
A STRATEGIC MINING CONSULTANT.**

In the past, Terrence “Terry” Ortslan has held various positions in the mining sector, which will enable Leopard Lake Gold Corp to achieve significant progress.

Terrence Ortslan is a mining Engineer with over 40 years of experience in the mining sector and a highly ranked mining analyst in the sector. He is also a seasoned resource industry executive over multiple business cycles of participation and advisory capacity in the mining, metals and fertilizer sector.

Terrence provides guidance for investment and technical aspects of the industry, sector specific strategic and Policy advice to Financial institutions for their investment decisions, He sets aside efforts with international industry organizations for their industry objectives. He has joined decision makers at multiple governments and their departments for fiscal and stakeholder measures and industry rules and regulations He is involved in universities to enhance their educational standards. He advances his input of strategies to global and national corporations for their decision making of projects and business models and to their leadership in the boardrooms for shareholder values and ESG parameters. His volunteer efforts are focused on the advances of the industry organizations and their members and mentoring the next generation of leaders .

The entire Board warmly welcomes Mr. Terrence Ortslan.

**Forward-Looking Statements:**

This news release contains forward-looking statements and forward-looking information (collectively, "forward looking statements") within the meaning of applicable Canadian and U.S. securities legislation. Forward-looking statements include predictions, projections and forecasts and are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "forecast", "expect", "potential", "project", "target", "schedule", "budget" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding the exercise of the incentive stock options, are forward looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from the Company's expectations include actual exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ from those described in forward-looking statements, there may be other factors that cause such actions, events or results to differ materially from those anticipated, including, without limitation, risks relating to epidemics or pandemics such as COVID-19. There can be no assurance that forward-looking statements will prove to be accurate and accordingly readers are cautioned not to place undue reliance on forward-looking statements.
