GANDER GOLD CORPORATION

Notes to the Condensed Interim Financial Statements

For the six month period ended December 31, 2023

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Gander Gold Corporation (the “Company”) was incorporated on February 3, 2021 under the Business Corporations Act (British Columbia). The Company is a subsidiary of Sassy Gold Corp. (“Sassy”), a publicly traded corporation on the Canadian Securities Exchange (“CSE”) under the trading symbol CSE:SASY. The Company is an exploration stage mining company currently engaged in the identification, acquisition and exploration of precious metal resources in Canada. The Company’s registered and records office is located at suite 400 – 1681 Chestnut Street, Vancouver, British Columbia, V6J 4M6.

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has no sources of revenue and a deficit of \$3,306,419.

Recent global issues, including the ongoing COVID-19 pandemic and geo-political conflicts have adversely affected workplaces, economies, supply chains, and financial markets globally. It is not possible for the Company to predict the duration or magnitude of the adverse results of these issues and their effects on the Company's business or results of operations this time.

The Company’s continuation as a going concern is dependent upon its ability to raise equity capital or borrowings sufficient to meet current and future obligations. If for any reason, the Company is unable to continue as a going concern, then this could result in adjustments to the amounts and classifications of assets and liabilities in the Company’s financial statements and such adjustments could be material. The above conditions may cast significant doubt about the Company’s ability to continue as a going concern.

2. BASIS OF PREPARATION

Statement of compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and the interpretations of the IFRS Interpretations committee. They do not include all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements, and therefore should be read in conjunction with the Company’s audited financial statements for the period ended June 30, 2023, prepared in accordance with IFRS as issued by the IASB

These condensed interim financial statements were approved by the Board of Directors of the Company on February 22, 2024.

Basis of measurement

All references to dollar amounts in these financial statements and related notes are in Canadian dollars, unless otherwise indicated.

These financial statements have been prepared on a historical cost basis, using the accrual basis of accounting, except for cash flow information, and financial instruments classified as financial instruments at fair value through profit or loss, or fair value through other comprehensive loss which are stated at fair value.

GANDER GOLD CORPORATION

Notes to the Condensed Interim Financial Statements

For the six month period ended December 31, 2023

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

Functional and Presentation Currency

The functional currency of the Company is the Canadian dollar, which is also the presentation currency of the financial statements.

Use of Estimates and Judgments

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the period. Actual results could differ from these estimates.

These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Income taxes

The calculation of income taxes requires judgment in applying tax laws and regulations, estimating the timing of the reversals of temporary differences, and estimating the reliability of deferred tax assets. These estimates impact current and deferred income tax assets and liabilities, and current and deferred income tax expense (recovery).

Non-monetary transactions

Assets exchanged or transferred in non-monetary transactions are measured at the fair value of the asset given up or the fair value of the asset received, whichever is more reliable.

Share-based payments

The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model, which incorporates market data and involves uncertainty in estimates used by management in the assumptions. The Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, and, as a result, changes in subjective input assumptions can materially affect the fair value estimate.

The fair value of restricted stock units (“RSUs”) is determined on the date of grant based on the market price of the Company’s common shares. This may not be indicative of the value on the settlement date.

GANDER GOLD CORPORATION

Notes to the Condensed Interim Financial Statements

For the six month period ended December 31, 2023

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

Significant judgments that management has made at the end of the reporting period are as follows:

Carrying value and the recoverability of exploration and evaluation assets

Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, scoping and feasibility studies, accessible facilities and existing permits.

Going Concern

The assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared using the same accounting policies as those used in the Company's annual financial statements at June 30, 2023.

Wildwood will retain a 2.5% NSR royalty upon the Company completing its obligations under the Cape Ray Agreement. The Company has the right to purchase that portion of the NSR equal to 1% for a cash payment of \$2,500,000.

Upon completion of its public listing on the CSE, the Company issued an additional 500,000 common shares valued at \$175,000 to Wildwood.

On October 11, 2022, the Company entered into an option agreement with Supernova Metals Corp. (“SUPR”) wherein SUPR could acquire a 1% interest in the Cape Ray property by expending \$56,000 in exploration expenditures (incurred) by December 31, 2022. However, the Company retained a right of repurchase which allowed it to re-acquire the 1% interest in exchange for the payment of \$50,000 on or before February 28, 2023. The payment can be settled in cash or common shares at the Company’s election. On December 1, 2022, the Company exercised the right of repurchase by issuing 166,667 common shares at a fair value of \$25,833 to SUPR.

7. SHARE CAPITAL AND RESERVES (continued)***Stock Options***

The Company has rolling incentive stock option plan (the “Plan”), which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with CSE requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares of the Company. Such options will be exercisable for a variable period from the date of grant. In connection with the foregoing, the number of common shares reserved for issuance to any one optionee will not exceed 5% of the issued and outstanding common shares and the number of common shares reserved for issuance to all technical consultants will not exceed 2% of the issued and outstanding common shares.

Options may be exercised no later than 90 days following cessation of the optionee’s position with the Company unless otherwise approved by the Board of Directors.

A continuity schedule of the Company’s stock options is as follows:

	Number of Options	Weighted Average Exercise Price (\$)
Balance, June 30, 2022	3,450,000	0.25
Issued	225,000	0.20
Balance, June 30, 2023	3,675,000	0.25
Expired	(100,000)	0.25
Balance, December 31, 2023	3,575,000	0.24

The Company recorded share-based payments of \$13,468 (2022 - \$49,501) during the six month period ended December 31, 2023 in connection with vested stock options.

The fair value of each share option is estimated on the date of grant using the Black-Scholes Option Pricing Model that uses the assumptions noted in the table below. Expected volatilities are based on historical volatility of the Company’s shares, and other factors. The expected term of share options granted represents the period of time that share options granted are expected to be outstanding. The risk-free rate of periods within the contractual life of the share option is based on the Canadian government bond rate. Assumptions used for share options granted during the year ended June 30, 2023 were as follows:

Grant Date	Number of Share Options	Expected Price Volatility (%)	Risk Free Interest Rate (%)	Expected Life (yrs)	Expected Dividend Yield (%)	Fair Value Per Option (\$)	Total Fair Value (\$)

RSUs

The Company has a rolling RSU plan which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the CSE requirements, issue RSUs to eligible participants, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares of the Company. Vesting provisions as well as method of settlement (ie. cash or common shares) are determined by the Board of Directors of the Company. The maximum number common shares reserved for issuance to any one RSU holder will not exceed five percent (5%) of the issued and outstanding common shares. Any unvested RSUs are immediately forfeited following cessation of the RSU holder's position with the Company unless otherwise approved by the Board of Directors.

On May 5, 2023, the Company granted 2,975,000 RSUs that vested 50% immediately and the remaining 50% after six months. The Board elected for this RSU grant to be settled in common shares, and accordingly they are accounted for as equity instruments. The Company recorded share-based payments of \$189,574 during the six month period ended December 31, 2023 (2022 - \$Nil).

The continuity of the Company's RSUs is as follows:

8. FINANCIAL RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to risk is on its cash. The Company holds its cash in substantial financial institutions to mitigate risk. The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company prepares general operating budget to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company uses its best efforts to ensure that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

The Company's financial liabilities consist of accounts payable and accrued liabilities, all of which are due within twelve months.

The Company's main source of funding has been through the issuance of equity securities for cash. The Company's access to financing in the public markets is always uncertain. The Company is exposed to liquidity risk.

8. FINANCIAL RISK MANAGEMENT (continued)

Commodity risk

Commodity price risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for gold and silver are impacted by world economic events that dictate the levels of supply and demand. The Company had no hedging contracts in place as at or during the six month period ended December 31, 2023.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

Foreign exchange risk

Foreign currency exchange rate risk is the risk that the fair value of assets and future cash flows will fluctuate as a result of changes in foreign currency exchange rates. However, the Company's functional currency is the Canadian dollar and the Company doesn't have any material assets or operations that are denominated in a foreign currency. Accordingly, the Company is not exposed to any material foreign exchange risk and has not hedged its limited exposure to currency fluctuations.

Classification of financial instruments

The Company classifies its other financial assets and other financial liabilities measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

Financial assets included in the statement of financial position are cash. Financial liabilities included in the statement of financial position include accounts payable and accrued liabilities and loan payable. The fair value of cash, accounts payable and accrued liabilities and loan payable approximate the carrying amount due to their short term to maturity. The effect of changes in the Company's credit risk do not have a significant impact on the fair value due to the short term to maturity.

8. FINANCIAL RISK MANAGEMENT (continued)

Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of the components of shareholders' equity.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may attempt to issue new shares, issue debt and acquire or dispose of assets.

The Company is not subject to any externally imposed capital requirements.

There have been no changes to the Company's approach to capital management during the six month period ended December 31, 2023.

9. SEGMENTED INFORMATION
