## **GANDER GOLD CORPORATION**

Notes to the Condensed Interim Financial Statements  
For the three month period ended September 30, 2024  
(Expressed in Canadian dollars)

### **1. NATURE OF OPERATIONS AND GOING CONCERN**

Gander Gold Corporation (the “Company”) was incorporated on February 3, 2021 under the Business Corporations Act (British Columbia). The Company is a subsidiary of Sassy Gold Corp. (“Sassy”), a publicly traded corporation on the Canadian Securities Exchange (“CSE”) under the trading symbol CSE:SASY. The Company is an exploration stage mining company currently engaged in the identification, acquisition and exploration of precious metal resources in Canada. The Company’s registered and records office is located at suite 400 – 1681 Chestnut Street, Vancouver, British Columbia, V6J 4M6.

On August 23, 2024, the Company completed a share consolidation of its outstanding common shares on the basis of one post-consolidation share for every 10 pre-consolidation shares. All share, warrant, option, RSU and per-share figures have been retroactively adjusted to reflect this consolidation.

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has no sources of revenue and a deficit of \$13,167,562.

The Company’s continuation as a going concern is dependent upon its ability to raise equity capital or borrowings sufficient to meet current and future obligations. If for any reason, the Company is unable to continue as a going concern, then this could result in adjustments to the amounts and classifications of assets and liabilities in the Company’s financial statements and such adjustments could be material. The above conditions may cast significant doubt about the Company’s ability to continue as a going concern.

### **2. BASIS OF PREPARATION**

#### *Statement of compliance*

These condensed interim financial statements, including comparatives, have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and the interpretations of the IFRS Interpretations committee. They do not include all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements, and therefore should be read in conjunction with the Company’s audited financial statements for the period ended June 30, 2023, prepared in accordance with IFRS as issued by the IASB

These condensed interim financial statements were approved by the Board of Directors of the Company on November 22, 2024.

#### *Basis of measurement*

All references to dollar amounts in these financial statements and related notes are in Canadian dollars, unless otherwise indicated.

These financial statements have been prepared on a historical cost basis, using the accrual basis of accounting, except for cash flow information, and financial instruments classified as financial instruments at fair value through profit or loss, or fair value through other comprehensive loss which are stated at fair value.

Notes to the Condensed Interim Financial Statements

---

### **2. BASIS OF PREPARATION** (continued)

#### *Functional and Presentation Currency*

The functional currency of the Company is the Canadian dollar, which is also the presentation currency of the financial statements.

#### *Use of Estimates and Judgments*

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the period. Actual results could differ from these estimates.

These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

#### Income taxes

The calculation of income taxes requires judgment in applying tax laws and regulations, estimating the timing of the reversals of temporary differences, and estimating the reliability of deferred tax assets. These estimates impact current and deferred income tax assets and liabilities, and current and deferred income tax expense (recovery).

#### Non-monetary transactions

Assets exchanged or transferred in non-monetary transactions are measured at the fair value of the asset given up or the fair value of the asset received, whichever is more reliable.

#### Share-based payments

The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model, which incorporates market data and involves uncertainty in estimates used by management in the assumptions. The Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, and, as a result, changes in subjective input assumptions can materially affect the fair value estimate.

The fair value of restricted stock units (“RSUs”) is determined on the date of grant based on the market price of the Company’s common shares. This may not be indicative of the value on the settlement date.

---

### **2. BASIS OF PREPARATION (continued)**

Significant judgments that management has made at the end of the reporting period are as follows:

#### Carrying value and the recoverability of exploration and evaluation assets

Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, scoping and feasibility studies, accessible facilities and existing permits.

#### Going Concern

The assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

### **3. MATERIAL ACCOUNTING POLICY INFORMATION**

These condensed interim financial statements have been prepared using the same accounting policies as those used in the Company's annual financial statements at June 30, 2024.

### 4. EXPLORATION AND EVALUATION ASSETS (continued)

#### Vulcan Properties, Newfoundland

##### **Gander North/Gander South/Hermitage/Little River**

On February 28, 2021, the Company took assignment of an option agreement (the “Vulcan Agreement”) between Sassy and Vulcan Minerals Inc. (“Vulcan”) dated February 11, 2021, which provides an exclusive option to acquire a 100% ownership interest in certain mineral claims located in Newfoundland (known as the “Gander North Property”, “Gander South Property”, the “Little River Property” and the “Hermitage Property”) (collectively, the “Gander properties”).

Pursuant to the Vulcan Agreement, as amended on April 18, 2024, the Company must make the following cash and share payments as well as incur minimum exploration expenditures in order to complete the acquisition:

<b>Date</b>	<b>Shares</b>	<b>Cash</b>	<b>Exploration Expenditures</b>

<b>Total</b>	<b>310,000</b>	<b>300,000</b>	<b>2,000,000</b>

The Company also reimbursed Vulcan for refundable staking deposits totaling \$28,950 which is posted with government of Newfoundland and Labrador. Subsequent to June 30, 2024, the Company received a partial refund of these deposits.

Vulcan will retain a 3% net smelter return (“NSR”) royalty upon the Company completing its obligations under the Vulcan Agreement. The Company has the right to purchase back one half of the NSR (1.5%) for a cash payment of \$2,000,000 and the issuance of 50,000 common shares of the Company.

On December 22, 2023, the Company entered into an agreement with Puddle Pond Resources Inc., an arms-length vendor, to acquire certain mineral claims that are contiguous to its Gander South project in exchange for \$25,000 in cash (paid) and the issuance of 100,000 common shares (issued) of the Company valued at \$30,000. The vendor will retain a 2% NSR royalty on the claims, half of which may be repurchased by the Company at any time for a payment of \$500,000. The vendor will also be entitled to a one-time bonus payment of 50,000 common shares should the Company delineate a National Instrument 43-101 compliant resource of 200,000 ounces of gold on the newly acquired claims.

### **9. FINANCIAL RISK MANAGEMENT**

The Company is exposed in varying degrees to a variety of financial instrument related risks. The type of risk exposure and the way in which such exposure is managed is provided as follows:

#### ***Credit risk***

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to risk is on its cash. The Company holds its cash in substantial financial institutions to mitigate risk. The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk.

#### ***Liquidity risk***

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company prepares general operating budget to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company uses its best efforts to ensure that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

The Company's financial liabilities consist of accounts payable and accrued liabilities and loan payable, all of which are due within twelve months.

The Company's main source of funding has been through the issuance of equity securities for cash. The Company's access to financing in the public markets is always uncertain. The Company is exposed to liquidity risk.

#### ***Commodity risk***

Commodity price risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for gold and silver are impacted by world economic events that dictate the levels of supply and demand. The Company had no hedging contracts in place as at or during the three month period ended September 30, 2024.

#### ***Interest rate risk***

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

#### ***Foreign exchange risk***

Foreign currency exchange rate risk is the risk that the fair value of assets and future cash flows will fluctuate as a result of changes in foreign currency exchange rates. However, the Company's functional currency is the Canadian dollar and the Company doesn't have any material assets or operations that are denominated in a foreign currency. Accordingly, the Company is not exposed to any material foreign exchange risk and has not hedged its limited exposure to currency fluctuations.

### **9. FINANCIAL RISK MANAGEMENT (continued)**

#### *Classification of financial instruments*

The Company classifies its other financial assets and other financial liabilities measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

Financial assets included in the statement of financial position are cash. Financial liabilities included in the statement of financial position include accounts payable and accrued liabilities and loan payable. The fair value of cash, accounts payable and accrued liabilities and loan payable approximate the carrying amount due to their short term to maturity. The effect of changes in the Company's credit risk do not have a significant impact on the fair value due to the short term to maturity.

#### *Capital Management*

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of the components of shareholders' equity.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may attempt to issue new shares, issue debt and acquire or dispose of assets.

The Company is not subject to any externally imposed capital requirements.

There have been no changes to the Company's approach to capital management during the three month period ended September 30, 2024.

### **10. SEGMENTED INFORMATION**
