SILVERSTOCK METALS INC.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
DECEMBER 31, 2021
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Silverstock Metals Inc. (the “Company” or “Silverstock”) was incorporated on September 1, 2020 under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is 200 – 2710 Granville St, Vancouver, British Columbia, Canada.

The Company is in the process of acquiring and exploring exploration and evaluation assets and has not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

As at December 31, 2021, the Company has generated negative cash flows from operating activities and has an accumulated deficit of \$139,727. The Company expects to incur further losses in the development of its operations. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues enough to cover its operating costs. These factors indicate the existence of material uncertainties that may cast significant doubt on the Company’s ability to continue as a going concern.

These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and thus be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds to support exploration activities.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These condensed interim financial statements have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’ using accounting policies consistent with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The condensed interim financial statements do not include all note disclosures required by IFRS for annual financial statements and should be read in conjunction with the annual financial statements for the reporting period ended March 31, 2021, which have been prepared in accordance with IFRS as issued by the IASB. In the opinion of management, all adjustments considered necessary for fair presentation of the Company’s financial position, results of operations and cash flows have been included. Operating results for the nine-month period ended December 31, 2021 are not necessarily indicative of the results that may be expected for the year ended March 31, 2021.

These financial statements were authorized for issue by the Board of Directors on February 15, 2022.

Basis of presentation

These financial statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value, as explained in the accounting policies set out below. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data

The fair value of cash is measured at Level 1 of the fair value hierarchy. The carrying value of amounts due to related parties and accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments.

6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Cont'd...)

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash. Management believes that the credit risk concentration with respect to cash is remote as cash is deposited in high credit quality financial institutions.

Liquidity risk

Liquidity risk is the risk the Company will not have sufficient liquidity to meet its ongoing liabilities. As of December 31, 2021, the Company had a cash balance of \$307,981 to settle current liabilities of \$9,062 which are all due within 3 months.

Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade demand investments issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Foreign currency risk

The Company's expenditures are denominated in Canadian dollars and current exposure to currency risk is minimal.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's profit or loss due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.

7. CAPITAL MANAGEMENT

The Company defines capital that it manages as the aggregate of share capital, reserves and deficit.

The Company manages its capital structure and adjusts it, based on the funds available to the Company, in order to support the acquisition and exploration of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company relies on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is enough economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital restrictions. There were no changes to the Company's approach to capital management during the period.
