Notes to the Condensed Interim Consolidated Financial Statements

For the Nine Months ended July 31, 2024 and 2023

(Unaudited - Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Live Energy Minerals Corp. (formerly Gold Tree Resources Ltd.) (the “Company”) was incorporated under the Business Corporations Act of British Columbia on June 21, 2019. The Company is in the business of exploring resource properties. The Company’s resource properties are located in British Columbia, Canada and Nevada, USA. On March 28, 2022, the Company was approved for its listing on the Canadian Securities Exchange (“CSE”) under the stock symbol “GTX”. On March 1, 2023, the Company changed its name to “Live Energy Minerals Corp.” from “Gold Tree Resources Ltd.” and began trading on the Canadian Securities Exchange (“CSE”) under the new stock symbol “LIVE”. The Company’s head office, principal address and records of office is 21 - 2986 Coast Meridian Road, Port Coquitlam, BC, V3B 3M8.

These condensed interim consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at July 31, 2024, the Company had not advanced its resource properties to commercial production and is not able to finance day to day activities through operations. The Company had excess of current assets over current liabilities of \$147,397 as at July 31, 2024 (October 31, 2023 – \$343,926), and an accumulated deficit of \$469,388 (October 31, 2023 - \$337,823). The Company’s continuation as a going concern is dependent upon its ability to achieve successful results from its exploration activities, to attain profitable operations and to generate funds raise equity capital or borrowings sufficient to meet current and future obligations. These factors may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with loans from directors and private placements of common shares. These consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern and such adjustments could be material.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34 – Interim Financial Reporting. These condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the Company’s audited financial statements for the year ended October 31, 2023, which were prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These condensed interim financial statements have been prepared following the same accounting policies applied to the Company’s audited October 31, 2023 financial statements. The financial statements were authorized for issue by the Board of Directors on September 25, 2024.

Basis of Measurement

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit or loss (“FVTPL”) or fair value through other comprehensive income (“FVTOCI”), which are stated at their fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The condensed interim consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the Company.

Basis of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, 1314836 BC Ltd. and Lithium Valley Holdings Corp (“LVH”). The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All inter-company balances, transactions, income and expenses have been eliminated upon consolidation.

3. FINANCIAL RISK AND CAPITAL MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit Risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. Credit risk is assessed as low.

Foreign Exchange Risk

Foreign currency risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate as they are denominated in currencies that differ from the respective functional currency. The Company's functional currency is the Canadian dollar, and all its assets and liabilities are in the Company's functional currency, therefore the Company is currently not exposed to foreign currency risk.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements. The Company assessed its liquidity risk as high.

The following is an analysis of the contractual maturities of the Company's non-derivative financial liabilities at July 31, 2024 and October 31, 2023:

	Within 60 days	Between 61-90 days	More than 90 days	Total
July 31, 2024	\$	\$	\$	\$
Accounts payable	1,323	665	30,349	32,337
	1,323	665	30,349	32,337

	Within 60 days	Between 61-90 days	More than 90 days	Total

Accounts payable	788	-	30,349	31,137
Related parties	-	-	313	313
	788	-	30,662	31,450

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is not exposed to interest rate risk.

There were no changes in the Company's approach to risk management during the reporting period.

3. FINANCIAL RISK AND CAPITAL MANAGEMENT (CONTINUED)

Capital Management

The Company defines its capital as shareholders' equity. It manages its capital structure and makes adjustments to it based on the funds available to the Company in order to support future business opportunities. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company is dependent upon external financing or the sale of assets to fund activities. In order to carry out future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The approach to capital management has not changed since the prior year, and the Company is not subject to externally imposed capital requirements.

Fair value

The fair value of the Company's financial assets and liabilities approximates the carrying amount.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's cash and short-term investment are measured at fair value level 1.

4. ACQUISITION OF 1314836 BC LTD.

On July 7, 2022, the Company acquired, through the purchase of 1314836 BC Ltd. ("1314836"), the McDermitt Lithium Property (the "McDermitt Property") located in Nevada, USA.

Under the terms of the agreement, the Company issued 3,000,000 common shares with a fair value of \$765,000 to the shareholders of 1314836.

This acquisition did not meet the definition of a business under IFRS 3; therefore, the acquisition of 1314836 was treated as an acquisition of assets. The fair value of the assets acquired as at the date of acquisition were as follows:

<hr/>		
Consideration		
Fair value of 3,000,000 common shares issued (Notes 5 and 8)	\$	765,000

Skygold Property (Continued)

Upon exercise of the option, Divitiae is entitled to receive a royalty equal to 1.5% of the net smelter returns ("NSR") from the property. The Company may repurchase 1% of the NSR from Divitiae for \$1,000,000.

McDermitt Lithium Property

On July 7, 2022, the Company acquired, through the purchase of 1314836 (Note 4), the McDermitt Property which is comprised of 315 lode claims located in Humboldt County, Nevada, USA.

On September 15, 2023, the Company, and its wholly-owned subsidiary, LVH, entered into an Exploration and Option to Enter a Joint Venture Agreement (the "Agreement") with respect to the Company's McDermitt Lithium East Project located in Nevada (the "Project") with US Critical Metals Corp. ("USCM"), a company listed on the Canadian Securities Exchange and its wholly-owned Nevada subsidiary, US Energy Metals Corp. ("USEM"), to provide USEM with an option to acquire up to a 50% interest in the Project and a further option to acquire an additional 25% interest for an aggregate total of 75% interest in the Project. The term of the Agreement shall continue to and including September 15, 2029, and, if USEM completes its initial Earn-In Obligation, thereafter until the parties execute and deliver the conditions unless this Agreement is otherwise terminated or extended.

Subject to USEM's right (a) to accelerate performance of its Earn-In Obligation under this Agreement; (b) to terminate this Agreement; and (c) to extend the time for performance of its obligations, USEM agrees to incur expenditures for exploration and development work and to deliver the cash and share consideration (collectively the "Earn-In Obligation") as follows:

- (a) Incur exploration and development work expenditures, as follows:
 - (i) An initial \$1,500,000 in expenditures on or before the second anniversary of the effective date ("Second Year Deadline"); and
 - (ii) An additional \$3,000,000 in expenditures on or before the sixth anniversary of the effective date ("Phase 1 Deadline");
- (b) make cash payments, as follows:
 - (i) Claim Fee Reimbursement: Within 10 business days of later of both: (1) execution of the Agreement by all parties; and (2) receipt by USCM, from LVH, of proof of payment of the claim maintenance fees for the claims for the period September 1, 2023 to August 30, 2024 (the "Fees"), pay to LVH the amount of Fees that they incurred (the "Claim Fee Reimbursement") (received);
 - (ii) \$50,000 within 5 business days after the CSE's approval of USCM's execution of this Agreement (received); and
 - (iii) \$100,000 within 10 business days after the Second Year Deadline if USEM elects to continue this Agreement in effect after the Second Year Deadline;
- (c) issue common shares to the Company, as follows:
 - (i) shares of USCM having a value of \$100,000 on the CSE's approval of USCM's execution of this Agreement (received, Note 6);
 - (ii) shares of USCM having a value of \$200,000 within 10 business days after the Second Year Deadline if USEM elects to continue this Agreement in effect after the Second Year Deadline;
 - (iii) shares of USCM having a value of \$1,000,000 within 10 business days after USEM elects to exercise its option and right to increase its participating interest in the Joint Venture to 75%.
