

UniDoc Signs Definitive Agreement with Sirach Health and Wellness

VANCOUVER, British Columbia, May 04, 2022 -- UniDoc Health Corp. (CSE: UDOC) (FRA: L7T) (OTCQB: UDOCF) ("UniDoc," or the "Company"), an innovator in the telehealth sector, is pleased to announce, further to its news release dated March 22, 2022, that it has entered into a definitive master equipment deployment and services agreement (the "Agreement") with Sirach Health and Wellness Inc. ("Sirach") of Tucson, Arizona.

Sirach has indicated they have a plan in place to provide access to a network of dedicated physicians and medical personnel partially through the support of the government of the state of Arizona, the Department of Veteran's Affairs, municipal agencies, and corporate donors.

Pursuant to the Agreement, the Company has agreed to a master deployment agreement and framework for the leasing of certain telehealth equipment and the licensing of related software including, the Virtual Care Solutions Model ("VCSM") kiosks to Sirach. In particular, Sirach has agreed to pay monthly telehealth service fees to UniDoc for the use of the VCSM kiosks. The VCSM is a proprietary customizable and comprehensive telehealth solution that is currently being developed by the Company and is being designed to integrate a range of physical products, web-based services, and analytical tools, along with access to the Company's developing network of healthcare providers, pharmacies, and hospitals.

The Company and Sirach agreed to an initial equipment rollout of VCSM kiosks and minimum subscription model pursuant to the Agreement. The Agreement has a possible value of up to approximately US\$6 million over the Agreement's five-year term based on a gradual roll-out of no less than 20 initial VCSM kiosk locations to ultimately provide services to up to 10,000 people in the City of Tucson. The delivery of these initial VCSM kiosks and any additional kiosk locations are all subject to the commercialization of the VCSM kiosk by the Company, completion of successful site studies by both parties and other customary conditions. As at the date of this news release, the VCSM remains under development by the Company and has not generated any revenues. There is no guarantee that any service fees will be paid to UniDoc under the Agreement or that the VCSM will generate any revenues at all.

The Company also agreed to provide certain data management and telecommunications services to be used by Sirach to provide in-suite telehealth and related services in its designated facilities. The software and telecommunications services will provide Sirach with access to an authentication service and on-line portal which permits secure, live-streaming videoconferencing and transmission of diagnostic data between on-site patients physically using individual kiosks units and remote healthcare professionals accessing the portal.

The Company has agreed to install the VCSM kiosks and perform initial functionality tests at locations to be specified by Sirach. The Company has also agreed to provide to Sirach on-site training, follow-up training, troubleshooting, and certain maintenance services and supplies including hardware support, software updates, data analysis, and annual on-site testing and maintenance. The rental periods, delivery locations, fee schedule, and specifics of additional the telehealth equipment will be agreed to by the parties in subsequent equipment orders. Sirach advises the Company that the initial VCSM kiosks will be located with the intent to serve the region's veterans, homeless individuals, and low-income populations.

The Agreement is for an initial period of five years and automatically renews for an additional five years unless terminated upon written notice by either of the parties. The payment of service fees to UniDoc by Sirach under the Agreement commences only upon the delivery of the initial VCSM kiosks by UniDoc to Sirach. A further news release will follow if initial delivery of VCSM kiosks has been successfully made by the Company to Sirach.

UniDoc CEO Antonio Baldassarre notes, "We are very pleased and excited to begin working with the team at Sirach. From the outset they have been highly enthusiastic and committed to a successful outcome. With this agreement in place, we can begin to penetrate a strategically important market with the delivery of meaningful telehealth results to a deserving but underserved segment of the population. We thank the folks at Sirach for this incredible opportunity and look forward to getting our kiosks into the target communities across Arizona as soon as possible"

About Sirach Health Wellness

Sirach aims to be Arizona's premier health and wellness center of choice for physicians, employees, and shareholders by providing essential, high-quality, patient-centered healthcare within the communities they serve. Sirach's goal is to eliminate the traditional barriers and challenges to providing healthcare for those who do not have access, who do not have the means, and who lack the knowledge of securing healthcare.

On Behalf of the Board of Directors,

Sincerely,

~Antonio Baldassarre~

About UniDoc Health Corp. (CSE: UDOC) (FRA: L7T) (OTCQB: UDOCF)

UniDoc is developing a telehealth solution which is being designed as a self-contained remote virtual clinic within a private kiosk for patients to undergo full consultations as if they were present in a physician's office. Telehealth opens the doors to a large segment of the population challenged by access, experience or understanding of online computer technology. It is the Company's belief that physical accessibility is the key to its business proposition. UniDoc is dedicated to unlocking shareholder value by delivering an excellent product and sophisticated commercial network within an expedited timeframe. The UniDoc team encourages engagement, questions, and interest, so please stay in touch and invite anyone who might be interested in our story to visit our website at www.unidoctor.com and sign up to receive the latest information with updates on our activities, events and progress. Forward-Looking Statements

This news release contains statements and information that, to the extent that they are not historical fact, may constitute "forward-looking information" within the meaning of applicable securities legislation. Forward-looking information may include financial and other projections, as well as statements regarding future plans, objectives, or economic performance, or the assumption underlying any of the foregoing. In some cases, forward-looking statements can be identified by terms such as "may", "would", "could", "will", "will be", "likely", "except", "anticipate", "believe", "intend", "plan", "forecast", "project", "estimate", "outlook", or the negative thereof or other similar expressions concerning matters that are not historical facts. Examples of such statements include, but are not limited to, statements with respect to the Company's primary product offering and features thereof, the terms of the Agreement with Sirach and the products and services to be offered thereunder, the placement and location of the Company's products across Tucson and the State of Arizona, Sirach's plan to provide access to a network of physicians and medical personnel through the support of the government of the state of Arizona, the Department of Veteran's Affairs, municipal agencies, and corporate donors; the estimated up to US\$6m value of the Agreement, the population demographics and location of Sirach's telehealth patients, the business, operations, services and objectives of Sirach, the anticipated benefits of a partnership with Sirach, the expected delivery of initial kiosks by the Company to Sirach, the payment of fees, additional equipment orders, additional news releases, the Company getting kiosks into the target communities across Arizona as soon as possible, the delivery of meaningful telehealth results to a deserving but underserved segment of the population and the Company's commercialization and development of the VCSM telehealth platform.

Forward-looking information is based on the assumptions, estimates, analysis, and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. The material factors and assumptions used to develop the forward-looking information contained in this news release include, but are not limited to, key personnel and qualified employees continuing their involvement with the Company; the Company successfully developing and commercializing the VCSM kiosks in a timely manner; sufficient manufacturing capacity being available to produce kiosks requested under the Agreement; current and future global supply chain issues not having a material adverse effect on the production and manufacturing of the VCSM kiosks; the Company and Sirach completing successful site studies for the VCSM kiosks in the State of Arizona; Sirach having sufficient and adequate infrastructure to implement the VCSM kiosks in the State of Arizona; the Company and/or Sirach's ability to secure additional financing on reasonable terms as required; the competitive conditions of the industries in which the Company operates not increasing significantly; a continued demand for telehealth services over the duration of the Agreement; a continued working relationship between the Company and Sirach for the duration of the Agreement; and no changes to the laws applicable to the Company which would have an adverse material effect on the Company.

Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information, including, without limitation, risks relating to the future business plans of the Company; risks that the Company will not be able to retain its key personnel; risks that the Company will not be able to successfully develop and commercialize VCSM kiosks for delivery to Sirach or develop and commercialize the VCSM at all; risks that the Company will not be able to produce or secure sufficient manufacturing capability to produce the quantity of VCSM kiosks requested by Sirach under the Agreement; risks that the site studies of the VCSM kiosk by Sirach will not be satisfactory to Sirach; risks that current and any future global supply chain issues will delay the development of the VCSM kiosks and ultimately the delivery of the VCSM kiosks to Sirach under the Agreement; risks that the Company and/or Sirach will not be able to secure required financing on reasonable terms or at all; risks with respect to the implementation of law and regulations that may impose restrictions on the Company's product offering in the State of Arizona and/or the United States; as well as all of the other risks as described in the Company's final prospectus dated December 2, 2021 under the heading "Risks Factors." Accordingly, readers should not place undue reliance on any such forward-looking information. Further, any

forward-looking information speaks only as of the date on which such statement is made. New factors emerge from time to time, and it is not possible for the Company's management to predict all such factors and to assess in advance the impact of each such factor on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking information. The Company does not undertake any obligation to update any forward-looking information to reflect information or events after the date on which it is made or to reflect the occurrence of unanticipated events, except as required by law, including securities laws.

The CSE does not accept responsibility for the adequacy or accuracy of this release.
