3. BASIS OF PRESENTATION

Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB have been condensed or omitted and these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended March 31, 2024.

Basis of Presentation

The Company's management makes judgments in its process of applying the Company's accounting policies in the preparation of its unaudited condensed interim consolidated financial statements. In addition, the preparation of the financial data requires that the Company's management make assumptions and estimates of the effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of the Company's unaudited condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's financial statements for the year ended March 31, 2024. The accounting policies applied in these unaudited condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended March 31, 2024.

The Company's interim results are not necessarily indicative of its results for a full year.

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiary. Subsidiaries are those entities over which the Company has control. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity and be exposed to variable returns from its activities. Details of the Company's subsidiary are follows:

	OWNERSHIP	JURISDICTION OF
SUBSIDIARIES	PERCENTAGE	INCORPORATION
Unicheck Holdings Corp.	100%	British Columbia, Canada

Inter-company balances and transactions are eliminated on consolidation.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Instruments

The Company's financial instruments are comprised of cash, receivables, accounts payable and accrued liabilities and its loans payable. Fair values of financial instruments are classified in a fair value hierarchy based on the inputs used to determine fair values. The levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3 – Inputs that are not based on observable market data (unobservable inputs).

As at June 30, 2024 the fair value of cash held by the Company was based on Level 1 of the fair value hierarchy. The fair values of receivables, accounts payable and accrued liabilities, and loan payable approximate their carrying values due to their short-term maturity.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash. The Company limits exposure to credit risk by maintaining its cash with large financial institutions. The Company's receivables consist of GST receivable and reimbursements.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company seeks to ensure there is sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash. As at June 30, 2024, the Company had a cash balance of \$99,645 to settle current liabilities of \$2,117,732. Historically, the Company's sources of funding has been through equity financings. (d) Options

On September 28, 2023, the Company finalized its new Omnibus Equity Incentive Plan (the "Plan"), which will replace the existing stock option plan. The Plan provides that the Board of Directors of the Company may from time to time, in its discretion, grant to directors, officers, employees and technical consultants and contractors to the Company, equity incentive awards in the form of stock options, restricted share units, share appreciation rights, deferred share units, and performance share units.

All equity incentives granted pursuant to the Plan shall be subject to the terms and conditions of the Plan. The number of shares which will be available for purchase pursuant to an option will be equal to the number of shares as determined by the Board of Directors from time to time, provided that the number of common shares reserved for issuance will not exceed 20% of the issued and outstanding common shares. If any option expires or otherwise terminates for any reason without having been exercised in full, the number of shares in respect of such expired or terminated option shall again be available for the purposes of granting options pursuant to the Plan.

The grant date and the expiry date of an option shall be the dates fixed by the Board of Directors at the time the option is granted and shall be set out in the option certificate issued in respect of such option. The exercise price shall also be determined by the Board of Directors and set out in the option certificate issued in respect of the option. If the Company's shares are listed on a stock exchange, the exercise price will not be lower than the greater of the last closing price for the shares as quoted on the trading day prior to the grant date and the grant date.

On June 26, 2023, the Company issued 2,146,000 stock options exercisable at \$0.30 for a period of 2 years to officers, directors and consultants. The stock options vested immediately.
