### NOTE 1: NATURE OF BUSINESS, GOING CONCERN AND IMPACT OF COVID-19

### a. Nature of business

Cannibble Food-Tech Ltd. (the "Company", the "Group", or "Cannibble") was incorporated on August 14, 2018 in Israel and commenced operations in May 2018. Cannibble is a food tech company that develops and manufactures food and beverages powder-mix products that are enhanced variously with hemp seeds, hemp protein, hemp seed oil, active and non active cannabinoids where legal to do so. The product range includes powdered food mixes, beverages, nutritional supplements, spices and a special line of products for athletes, infused with cannabinoids and hemp protein, for the wellness, health and recreational markets.

The Company has developed its own knowledge and filed a provisional patent in the United States during January 2021.

The Company's registered address and principal place of business is 40th Carmel Street, Roash ha'ayin, Israel.

The accompanying consolidated financial statements include the accounts of Cannibble and its wholly-owned subsidiary, EAZY Tech Inc ("EAZY"). All intercompany transactions between the Company and its subsidiary have been eliminated upon consolidation.

EAZY was incorporated on May 23, 2019 under the laws of the State of Delaware and has been the marketing and distribution branch of the Company in the U.S. market since June 2020. EAZY TECH is currently selling and distributing only products that are enhanced with hemp seeds, hemp protein and hemp seed oil.

On March 3, 2022, the company listed as a reporting issuer on the CSE.

### b. Going concern

During the period ended March 31, 2022, the Company incurred a loss of \$497 and negative cash flows from operating activities of \$316 and as at March 31, 2022 has an accumulated deficit of \$4,043.

The Company's ability to consummate its plans in connection with increasing the volume of current activity and to continue the development of its products, is dependent upon its ability to continue to finance its activities by raising additional funds. As a result, there is material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

These consolidated financial statements were prepared on a going concern basis, which assumes that the Company will be able to obtain the necessary financing as needed to

realize its assets and discharge its liabilities in the normal course of business. If the going concern assumption was not appropriate for these consolidated financial statements, then adjustments would be necessary to the carrying value of the assets and liabilities.

# c. Impact of COVID-19

The ongoing impact of COVID-19 may have a negative effect on our business, financial condition, and results of operations. Since December 31, 2019, governments worldwide have been enacting emergency measures to combat the spread of COVID-19. These measures, which include the implementation of travel bans, self-imposed quarantine periods and physical distancing, have caused material disruption to business globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness and restrictions have closed down dispensaries in North America and other points-of-sales such as kiosks, convenience shops, and others.

The development and operation of our business plan is dependent on labor inputs and governmental approvals, which could be adversely disrupted by the ongoing impact of COVID-19 and it is difficult to predict how this virus may affect our business in the future, including the effect it may have on demand for our products. Currently, we have:

- Reduced expenses on flights and overseas stays which resulted in reduced monthly expenditures;
- Shifted our focus from retail sales to e -commerce;
- Invested in digital marketing and online campaigns to promote the Company's business; and
- Utilized the time to develop new products that will be launched when the markets reopen.

While the roll out of several vaccines has begun in the United States, Canada, the United Kingdom and Israel, and a number of other promising vaccines are in development, it remains possible the COVID-19 virus could have a material adverse effect on our business, financial condition and results of operations.
