Stephan Séjourné Joins MAX Power's Natural Hydrogen Team

VANCOUVER, Canada (June 28, 2024) - MAX Power Mining Corp. (CSE: **MAXX**; OTC: **MAXXF**; Frankfurt: **89N**) ("MAX Power" or the "Company") is pleased to announce that Mr. Stephan Séjourné, P.Geo., has joined MAX Power as a **Natural Hydrogen Scientific Advisor**.

MAX Power is in the midst of a major land acquisition program, rapidly assembling a top-tier portfolio of Natural Hydrogen targets, and Mr. Séjourné's expertise in this sector and familiarity with Quebec further enhances MAX Power's first mover leadership among publicly traded companies targeting North America's first Natural Hydrogen discoveries.

Mr. Séjourné is CEO and founder of Enki GeoSolutions based in Montreal and is also one of several lead authors of six recently released groundbreaking research reports on Natural Hydrogen prepared for and funded by the Government of Quebec.

Mr. Séjourné commented: *"The Natural Hydrogen sector has incredibly exciting possibilities and may change how we think about energy. I'm delighted to join what has developed into a world class Natural Hydrogen team with MAX Power's strategic alliance with Chapman Hydrogen and Petroleum Engineering Ltd."*

MAX Power CEO Comment:

Mr. Rav Mlait, MAX Power CEO, stated: *"Mr. Sejourne is a tremendous addition to our Natural Hydrogen team and also gives us a deeper foothold in Quebec which is an important jurisdiction for us. Stephan and Peter Lauder, our Senior Geologist based in Quebec City, are working closely together and give us powerful leadership there. From a broader perspective, Mr. Sejourne's expertise in Natural Hydrogen will be highly synergistic with the MAX Power-Chapman alliance, giving us unmatched first mover leadership in North America among publicly traded companies."*

Séjourné Background

Mr. Séjourné is a well-known and highly respected Quebec exploration geologist who initially worked as an independent consultant in the petroleum industry before turning his attention to Natural Hydrogen. He served as an exploration geologist with Gastem Inc. for several years, focussing on carbonate reservoirs and shale gas plays in Quebec and New York State.

Mr. Séjourné has a long track record of coordinating or participating in multi-client industrial projects and multi-disciplinary academic or governmental projects in a variety of geological environments. Along with his CEO duties at Enki GeoSolutions, he is an Associate Professor at Quebec's Institut de la recherche scientifique (INRS-ETE, Quebec City).

Forward-Looking Statement Cautions

Neither the Canadian Securities Exchange nor its Regulation Services Provider, (as the term is defined in the Policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release. This press release includes certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical fact, included herein, without limitation, statements relating to the future operating or financial performance of the Company, are forward-looking statements. Forward-looking statements are frequently, but not always, identified by words such as "expects", "anticipates", "believes", "intends", "estimates", "potential", "possible", and similar expressions, or statements that events, conditions, or results "will", "may", "could", or "should" occur or be achieved. Forward-looking statements in this press release relate to, among other things: statements relating to the Marketing Agreements, and any particular outcomes thereof. Actual future results may differ materially. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable by the respective parties, are inherently subject to significant business, technical, economic, and competitive uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements and the parties have made assumptions and estimates based on or related to many of these factors. Readers should not place undue reliance on the forward-looking statements and information contained in this news release concerning these times. Except as required by law, the Company does not assume any obligation to update the forward-looking statements of beliefs, opinions, projections, or other factors, should they change, except as required by law. The reader is urged to refer to the Company's Management's Discussion and Analysis, publicly available through the Canadian Securities Administrators' System for Electronic Document Analysis and Retrieval (SEDAR+) at www.sedarplus.ca for a more complete discussion of such risk factors and their potential effects.
