

PR Technology Launches New Product on Kickstarter January 2023

Bandibul: Wireless LEDs for LEGOs

VANCOUVER, BC, January 17, 2023 – PR Technology Inc. (CSE: PRTI) (the “Company”) announces that the Company launched Bandibul on Kickstarter on January 16, 2023. Bandibul is the world’s first LEDs for LEGOs powered by wireless power transmission.

Bandibul is powered wirelessly in range of its magnetic resonance base plate whereas most LEDs for LEGOs require electrical wiring or have other technical limitations. The transmitter in the base plate creates a magnetic field that vibrates, and the receiver coils in the LED lights convert the magnetic field into electrical energy. Other key features of Bandibul include that it can power limitless LEDs and, due to the small 1x1 size of the LED bricks, they easily fit onto LEGO projects without taking up space.

Bandibul has a wide variety of modes available. ‘Blink’ and ‘Glow’ modes set an interval for the LEDs to turn on and off, and there is also a sound response mode which causes the LEDs to flash on and off based on a nearby sound or music.

Bandibul launched on January 16, 2023 on Kickstarter, where Bandibul can be purchased for up to 40% off.

About PR Technology Inc.

The Company is a technology company with a portfolio of intellectual properties in the wireless power transmission (“WPT”) technology industry. The Company has developed a low frequency resonant WPT technology and offers WPT products. The Company, through its wholly-owned subsidiary, PRT Korea Co., Ltd., is primarily focused on the development of its WPT systems for factory automation and rail guided vehicles on the factory floor. The Company is also engaged in developing wireless chargers for mobile devices, wireless charging stations for drones, wireless charging products for home appliances, and wireless LED lights for toys and fish tanks.

Forward Looking Statements

Cautionary Note Regarding Forward-Looking Statements: This news release contains forward-looking statements relating to the launch of Bandibul. Forward-looking statements are often identified by terms such as "will", "may", "should", "anticipate", "expects" and similar expressions. All statements other than statements of historical fact, included in this release are forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's expectations include those relating to the ability to complete the launch of Bandibul.

The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company. The reader is cautioned not to place undue reliance on any forward-looking information. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The forward-looking statements contained in this news release are made as of the date of this news release and the Company will update or revise publicly any of the included forward- looking statements as expressly required by applicable law.
