Notes to the Financial Statements

For the Six Months Ended June 30, 2023

(Expressed in Canadian Dollars)

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Fabled Copper Corp. (the "Company" or "Fabled Copper") was incorporated by Certificate of Incorporation issued pursuant to the provisions of the British Columbia Business Corporations Act on April 27, 2016. The Company is an exploration stage company that is engaged directly in the acquisition and exploration of exploration and evaluation of mining properties in Canada. The address of the Company's registered and records office is 1600 – 1111 West Georgia Street, Vancouver, BC V6E 4G2, Canada.

The Company was listed on the Canadian Securities Exchange (the "Exchange") under the symbol "FABL" on December 21, 2021 and has been listed on the Frankfurt Stock Exchange under the symbol "XZ7" since February 2, 2022.

Share Consolidation

On April 13, 2023, the Company completed a consolidation of its issued and outstanding common shares on the basis of one post-consolidation common share for ten pre-consolidation common shares (the "Consolidation"). The exercise price and number of common shares issuable pursuant to the exercise of any outstanding convertible securities, including incentive stock options and warrants, were also adjusted in accordance with the Consolidation. The numbers of outstanding securities and other relevant information including but not limited to price per share, and exercise prices of convertible securities presented in these financial statements have been retroactively adjusted accordingly, unless otherwise specified.

Financings

On April 12, 2023, the Company announced two concurrent non-brokered private placements (collectively, the "Offerings") to raise aggregate gross proceeds of up to \$1,500,000.

The first of the two Offerings will consist of the sale of up to 10,000,000 units (the "Flow-Through Units") of the Company at a price of \$0.10 per Flow-Through Unit for gross proceeds of up to \$1,000,000. Each Flow-Through Unit shall be comprised of: (i) 1 common share of the Company designated as a "flow-through share under the Income Tax Act (Canada) (the "Act")); and (ii) 1 common share purchase warrant (each, a "Flow-Through Warrant"). Each Flow-Through Warrant will entitle the holder thereof to acquire 1 additional common share of the Company at a price of \$0.15 per common share for a period of 24 months from the date of issuance, subject to certain acceleration provisions in favor of the Company.

The second of the two Offerings will consist of the sale of up to 6,250,000 units (the "Conventional Units") of the Company at a price of \$0.08 per Conventional Unit for gross proceeds of up to \$500,000. Each Conventional Unit shall be comprised of 1 common share of the Company and 1 common share purchase warrant (each, a "Conventional Warrant"). Each Conventional Warrant will entitle the holder thereof to acquire 1 additional common share of the Company at a price of \$0.12 per common share for a period of 24 months from the date of issuance, subject to certain acceleration provisions in favor of the Company.

The Company closed an initial tranche of each of the Offerings on May 25, 2023 consisting of (i) 3,255,000 Conventional Units for aggregate gross proceeds of \$260,400 and (ii) 350,000 Flow-Through Units for aggregate gross proceeds of \$35,000 (Note 4).

Fabled Copper Corp.

Notes to the Financial Statements

For the Six Months Ended June 30, 2023

(Expressed in Canadian Dollars)

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS (CONTINUED)

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As of June 30, 2023, the Company had working capital deficiency of \$490,816 (December 31, 2022 – working capital of \$509,415), had not advanced its mineral properties to commercial production and is not able to finance day-to-day activities through operations. The Company's continuation as a going concern is dependent upon the successful exercise of its mineral property option agreements, results from its mineral property exploration activities and its ability to attain profitable operations and generate funds from and/or raise equity capital or borrowings sufficient to meet current and future obligations and ongoing operating losses. The current cash resources are not adequate to pay the Company's accounts payable and to meet its minimum commitments as at the date the Board of Directors approved these financial statements, including planned corporate and administrative expenses, and other project implementation costs; accordingly, these material uncertainties may cast a significant doubt on the ability of the Company to continue operations as a going concern. These financial statements do not include any adjustments that might result from this uncertainty.

Financial Reporting and Disclosure during Economic Uncertainty

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic; the Company has not been significantly impacted by the spread of COVID-19. However, the ongoing COVID-19 pandemic, inflationary pressures, rising interest rates, the global financial climate and the conflict in Ukraine are affecting current economic conditions and increasing economic uncertainty, which may impact the Company's operating performance, financial position and the Company's ability to raise funds at this time.

2. SIGNIFICANT ACCOUNTING STANDARDS AND BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These unaudited condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These financial statements comply with International Accounting Standard 34, Interim Financial Reporting.

Basis of presentation

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2021. Certain amounts in prior periods have been reclassified to conform to the current period presentation.

New accounting standards

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for accounting periods beginning on or after January 1, 2022. The Company does not expect that any new or amended standards or interpretations that are effective for annual periods beginning on or after January 1, 2022 will have a significant impact on the Company's results of operations or financial position.

The financial statements of the Company for the six months ended June 30, 2023 were approved by the Board of Directors on August 24, 2023.

Muskwa Project

On April 8, 2021, the Company and Fabled Silver Gold Corp. entered into an amended and restated option agreement (the "Amended MP Option Agreement") with High Range Exploration Ltd. (the "MP Optionor").

The Amended Option Agreement superseded and replaced the following agreements:

- An option agreement, as amended, related to the Neil/Ram Creek Property assigned to the Company on January 23, 2017 (the "Neil/Ram Creek Agreement");
- An option agreement, as amended, related to the Ribbon Property, assigned to the Company on March 4, 2017 (the "Ribbon Agreement"); and
- An option agreement, as amended, related to the Toro Property assigned to the Company on March 4, 2017 (the "Toro Assignment Agreement") (collectively the "Pre-Amended Option Agreements").

Pursuant to the MP Option Agreement, the Company has the right and option (the "MP Option") to acquire an undivided 100% interest of the following properties:

- Neil/Ram Creek Property in which the Company owns a 50% interest;
- Toro Property in which the Company owns a 50% interest; and
- An additional 3,842 hectares, including 2 claims which are contiguous with the Neil/Ram Creek Property, and 4 mineral claims located in the same geographical area and with the same geophysical profile as the Muskwa Project, and referred to as the Bronson Property (the "MP Properties").

To exercise the MP Option, the Company is required to make the following payments:

- (i) \$200,000 on April 8, 2021 (paid);
- (ii) \$500,000 on April 8, 2022; (paid)
- (iii) \$750,000 on April 8, 2023 (*);
- (iv) \$1,000,000 on April 8, 2024; and
- (v) \$2,000,000 on April 8, 2025.

(*) The Company is currently in the process of negotiating an extension of the payment date or a payment alternative.

The Company owns a 100% interest in the Ribbon Property which forms part of the Muskwa Project and was previously acquired from the MP Optionor.

The Company has granted (on those properties and portions thereof owned by the Company) and upon exercise of the MP Option, will grant, a 2% net smelter return royalty interest (the "NSR") on the MP Properties and the Ribbon Property to the MP Optionor.

Muskwa Project (continued)

ChurchKey Property

On August 6, 2019, the Company entered into an option agreement (the “CP Option Agreement”) with ChurchKey Mines Inc. (“ChurchKey”) and the legal owners (collectively with ChurchKey the “CP Vendors”) to acquire 100% interest of the ChurchKey Property (the “CP Option”).

The CP Option Agreement was amended on October 15, 2019, June 5, 2021, and April 14, 2022 to add additional claims staked by the CP Vendors to the ChurchKey Property. No additional consideration is due pursuant to these amendments.

In order to exercise the CP Option, the Company is required to make the following payments:

- \$50,000 (paid) in cash on August 6, 2019;
- \$50,000 in cash on or before November 4, 2019 (paid);
- \$100,000 in cash on or before August 6, 2020 (paid);
- \$250,000 in cash on or before August 6, 2021 (paid);
- \$300,000 in cash on or before November 6, 2022^(*);
- \$500,000 in cash on or before August 6, 2023; and
- \$750,000 in cash on or before August 6, 2024.

^(*) During the year ended December 31, 2022, the Company agreed an amendment with the CP Vendors such that the \$300,000 cash payment previously due on August 6, 2022 would now be due on November 6, 2022. The Company is currently in the process of negotiating an extension of the payment date or a payment alternative.

The Company has granted the CP Vendors a 2% NSR with respect to the ChurchKey Property upon commencement of commercial production. In addition, the Company had the exclusive right to purchase 1% of the NSR at any time in the first four years following closing for \$425,000 if it makes an annual payment of \$25,000 on each of the 4 anniversaries of closing. The Company has not made such payments to date. If such option is not exercised, the Company will have the non-exclusive right to purchase that 1% of the NSR for the equivalent of 275,000 pounds of copper multiplied by the quoted London Metal Exchange price at the date of the purchase at any time up to the date of commencement of commercial production. The Company will also have the non-exclusive right to purchase the remaining 1% of the NSR for the equivalent of 400,000 pounds of copper multiplied by the quoted London Metal Exchange price at the date of the purchase at any time up to the date of commencement of commercial production. No shares issuable in connection with this agreement.

TJ Property

On December 15, 2022, the Company entered into a letter of intent ("TJ LOI") to acquire the TJ Property located in the Skeena mining division of British Columbia ("TJ Option"), from an arm's length vendor, ARR Mineral Exploration Ltd. (the "ARR").

Under the terms of the TJ LOI, Fabled will have the option (the "TJ Option") to acquire the TJ Property. In order to exercise the TJ Option and acquire the TJ Property, the Company will, pursuant to the definitive agreement (the "TJ Agreement") if entered into, require pay to ARR:

- \$20,000 in cash to ARR on the date of execution of the TJ Definitive Agreement (the "TJ Effective Date");
- \$50,000 in cash to ARR in 12 months after the TJ Effective Date; and
- A final payment in 24 months after the date of execution of the TJ Definitive Agreement, in common shares of the Company, having a cash value equal to the value of the TJ Property at such date, as determined by a third party valuator to be chosen by mutual agreement of the parties, at a price per common share equal to the 20 day weighted average volume price ("VWAP") of the Company's common shares as traded on the CSE or any other stock exchange that the Optionee may be listed on at such time.

In addition, the Company must incur not less than \$100,000 in exploration expenses on the TJ Property prior to the date within 24 months from the TJ Effective Date and ensure that the TJ Property remains in good standing.

The Company will also grant ARR, or their nominee, a 2% NSR over the TJ Property that may be purchased by the Company at any time for an additional \$2,000,000.

On August 18, 2023, the Company announced that it will not be further pursuing the acquisition of the TJ Property.

4. SHARE CAPITAL

Authorized share capital

Unlimited number of common shares without par value.

Issued share capital

On April 13, 2023, the Company completed the Consolidation.

At June 30, 2023 and December 31, 2022, the Company had 21,370,173 common shares issued and outstanding.

During the six months ended June 30, 2023

- As discussed in Note 1, the Company closed an initial tranche of each of the Offerings on May 25, 2023 consisting of:
 - 3,255,000 Conventional Units for aggregate gross proceeds of \$260,400; and
 - 350,000 Flow-Through Units for aggregate gross proceeds of \$35,000.

In respect of the proceeds of \$350,000 raised from issuing the Flow-Through Units, the Company reclassified \$7,000 from share capital to flow-through share premium liability.

In addition, by using the residual method, the Company assigned \$54,075 to the warrants attached to Conventional Units and Flow-Through Units as the Company.

In connection with the closing, the Company paid finders' fees of \$17,724 and issued 120,000 brokers' warrants. Each brokers' warrant will entitle the holder thereof to acquire 1 additional common share of the Company at a price of \$0.12 per common share for a period of 24 months from the date of issuance, subject to certain acceleration provisions in favor of the Company.

The Company estimated the fair value of brokers' warrants using the Black-Scholes options pricing model, assuming a risk-free interest rate of 4.24%, an expected life of 2 years, an expected volatility of 77% and an expected dividend yield of 0%, which totaled \$2,089, and recorded these values as share issuance costs.

In addition, the Company incurred \$10,240 share issuance costs.

- As discussed in Note 3, the Company issued 400,000 shares with a fair value of \$24,000 for the OHM Property VOLT 1 Property according to the option agreements.

During the six months ended June 30, 2022, no share capital transactions occurred.

Subsequent to June 30, 2023

- On August 2, 2023, the Company entered into a debt settlement agreement with a vendor to settle \$30,000 in payables in exchange for the issuance of 375,000 Conventional Units and issued such Conventional Units on August 10, 2023.

131,945,033 warrants with an exercise price of \$0.10 remain outstanding following the Consolidation. However, in accordance with an amendment made to governing warrant indenture pursuant to the Consolidation, the exercise of ten warrants will be required to purchase one post consolidated common share, and the effective exercise price will be \$1.00 per post consolidated common share.

Stock options

The Company maintains a Stock Option Plan (the "Plan") under which it is authorized to grant stock options to officers, directors, employees, and consultants. Under the Plan, the number of options that may be issued is limited to no more than 10% of the Company's issued and outstanding shares immediately prior to the grant. The exercise price of each stock option shall equal the market price of the Company's shares, less any applicable discount, as calculated on the date of grant. Options can be granted for a maximum term of 10 years and vest at the discretion of the Board of Directors.

Options to purchase common shares have been granted to directors, employees, consultants and advisors at exercise prices determined by reference to the market value of the common shares on the date of the grant.

(2) During the six months ended June 30, 2023, the Company incurred \$22,606 (June 30, 2022 – \$28,072) in professional legal fees from a private company owned by a former director of the Company.

The balances due to the Company's directors and officers were \$250,308 as at June 30, 2023 (December 31, 2022 – \$147,746).

Unless otherwise noted, all related party balances are unsecured, non-interest bearing with no fixed terms of repayment.

6. COMMITMENTS

Flow through shares premium liability

The Company periodically issues flow-through shares with any resulting flow-through premium recorded as a flow-through share premium liability. The liability is subsequently reduced when the required exploration expenditures are made, and accordingly, a recovery of the flow-through premium is recorded as other income.

During the six months ended June 30, 2023, the Company issued 350,000 flow-through shares. Based on Canadian tax law, the Company is required to spend the proceeds from the issuance of the flow-through shares on eligible exploration expenditures within two calendar years from the date of issuance. If the Company is unable to meet this deadline, it will be subject to Part XII.6 taxes in accordance with the Canadian Income Tax Act.

A continuity of the flow-through share premium liability during the six months ended June 30, 2023 is follows:

	\$
Balance as of December 31, 2022	-

7. SEGMENTED INFORMATION

The Company operates in one reportable segment, being the exploration and evaluation of exploration and evaluation assets. All of the Company's equipment and exploration and evaluation assets are located in Canada.

8. CAPITAL MANAGEMENT

The Company's objectives when managing capital, being its share capital, are to safeguard the Company's ability to continue as a going concern in order to pursue the acquisition and exploration of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

There were no changes to the Company policy for capital management during the six months ended June 30, 2023.

The Company is dependent on external financing to fund its activities. The capital structure of the Company currently consists of common shares, stock options and share purchase warrants. Changes in the equity accounts of the Company are disclosed in the statements of changes in shareholders' equity. The Company manages the capital structure and makes adjustments in light of changes in economic conditions and risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or acquire or dispose of assets. Any issuance of common shares requires approval of the Board of Directors.

The Company anticipates continuing to access equity markets to fund the acquisition and exploration of exploration and evaluation assets and to ensure the future growth of the business.

The Company is not subject to any externally imposed capital restrictions

9. FINANCIAL INSTRUMENTS

Fair value

The carrying values of cash, amounts receivable, accounts payable and accrued liabilities, and due to related party approximate their fair values due to the relatively short period to maturity of those financial instruments.

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs that are not based on observable market data.

As at June 30, 2023 and December 31, 2022, there were no financial assets or liabilities measured and recognized in the statement of financial position at fair value that would be categorized as Level 1, 2 and 3 in the fair value hierarchy above.

Financial risk management

Credit risk

Credit risk is such that a counterparty to a financial instrument will not discharge its obligations resulting in a financial loss to the Company. The Company has procedures in place to minimize its exposure to credit risk.

Company management evaluates credit risk on an ongoing basis including counterparty credit rating and activities related to other receivables and other counterparty concentrations as measured by amount and percentage.

The primary sources of credit risk for the Company arise from cash and amounts receivable. The Company's maximum exposure to credit risk is minimal as cash is deposited with reputable financial institutions. Amounts receivable are due from government agencies.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

The Company's expected source of cash flow in the upcoming year will be through equity financings.

At June 30, 2023, the Company had accounts payable and accrued liabilities and due to related party of \$527,847 and \$250,308, respectively. All of these amounts are current.

9. FINANCIAL INSTRUMENTS (CONTINUED)

Financial risk management (continued)

Market risk

The significant market risks to which the Company is exposed are interest rate risk, currency risk, other price risk, and commodity price risk.

- Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk relating to its loan payable and due to related party balances.

- Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash, GST receivable, loan receivable accounts payable and accrued liabilities, due to related party, and note payable are held in Canadian Dollars ("CA\$" or "\$"), US Dollars ("US\$") and European Dollar ("€"); therefore, US\$ and € accounts are subject to fluctuation against the Canadian dollar.

- Currency risk

The Company had the following balances in foreign currency as at June 30, 2023:

	CA\$	US\$	€
Cash	240,530	6,013	-
Amounts receivable	3,267	-	-
Accounts payable and accrued liabilities	(509,204)	(4,511)	(8,800)
Due to related parties	(250,308)	-	-
	(515,715)	1,502	(8,800)
Rate to convert to \$1.00 CA\$	1.00	1.32	1.44
Equivalent to CA\$	(515,715)	1,983	(12,689)

Based on the above net exposures as at June 30, 2023, and assuming that all other variables remain constant, a 10% change of the CA\$ against US\$ and € would change profit or loss by approximately \$1,000.

- Other price risk

The Company is exposed to price risk with respect to equity prices. Price risk as it relates to the Company is defined as the potential adverse impact on the Company's ability to raise financing due to movements in the individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company.
