NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars) (Unaudited)
FOR THE THREE MONTHS ENDED MARCH 31, 2023

#### 1. NATURE AND GOING CONCERN

Quimbaya Gold Inc. (the "Company") was incorporated in Canada under the Canada Business Corporations Act on May 27, 2020. The Company is principally engaged in the acquisition and exploration and development of mineral properties in Colombia. The Company maintains its registered office at 3400 - 350 7<sup>th</sup> Avenue SW, Calgary, Alberta, T2P 3N9. The Company is listed on the Canadian Securities Exchange under the symbol "QIM".

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has a working capital balance of \$143,277 (December 31, 2022 - \$264,706) and accumulated deficit of \$1,918,825 (December 31, 2022 - \$1,798,898) as at March 31, 2023. The Company reported a net loss of \$119,927 and negative cashflows from operations of \$151,401 for the period ended March 31, 2023. The Company's ability to continue as a going concern is dependent upon its ability to raise funds primarily through the issuance of shares or achieve profitable operations. The outcome of these matters cannot be predicted at this time. If the Company is unable to obtain additional financing, management may be required to curtail certain expenses. An inability to raise additional financing may impact the future assessment of the Company as a going concern. These events and conditions indicate a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

# 2. BASIS OF PREPARATION

#### Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statement, including IAS 34, Interim Financial Reporting. Accordingly, these financial statements do not include all of the information and footnotes required by IFRS for complete financial statements for year-end reporting purposes.

These condensed consolidated interim financial statements should be read in conjunction with the Company's audited annual consolidated financial statements as at and for the year ended December 31, 2022 and the notes thereto.

#### Basis of consolidation and presentation

The condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed consolidated interim financial statements include the accounts of the Company and its 100% controlled entity, Golden Pacifico Exploration S.A.S. (a Colombian corporation) ("Golden Pacifico").

Subsidiaries are entities over which the Company has exposure to variable returns from its involvement and has the ability to use power over the investee to affect its returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company until the date on which control ceases.

The accounts of the subsidiary are prepared for the same reporting period as the parent company, using consistent accounting policies. Inter-company transactions, balances and unrealized gains or losses on transactions are eliminated upon consolidation.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars) (Unaudited)
FOR THE THREE MONTHS ENDED MARCH 31, 2023

# 2. BASIS OF PREPARATION (cont'd...)

# Use of judgments and estimates

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated interim financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances, as the basis for its estimates and assumptions. Revisions to accounting estimates are recognized prospectively from the period in which the estimates are revised. Actual outcomes may differ from those estimates under different assumptions and conditions.

# Deferred taxes

The calculations for current and deferred taxes require management's interpretation of tax regulations and legislation in the various tax jurisdictions in which the Company operates, which are subject to change. The measurement of deferred tax assets and liabilities requires estimates of the timing of the reversal of temporary differences identified and management's assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income before they expire, which involves estimating future taxable income.

The Company is subject to assessments by various taxation authorities in the tax jurisdictions in which it operates and theses taxation authorities may interpret the tax legislation and regulations differently. In addition, the calculation of income taxes involves many complex factors. As such, income taxes are subject to measurement uncertainty and actual amounts of taxes may vary from the estimates made by management.

# Share-based payments

The Company has applied estimates with respect to the valuation of shares issued for non-cash consideration. Shares are valued at the fair value of the equity instruments granted at the date the Company receives the goods or services for share-based payments made to those other than employees or others providing similar services.

The Company measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted for share-based payments made to employees or others providing similar services. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the fair value of the underlying common shares, the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are discussed in Note 5.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars) (Unaudited)

FOR THE THREE MONTHS ENDED MARCH 31, 2023

#### 2. BASIS OF PREPARATION (cont'd...)

# Use of judgments and estimates (cont'd...)

The key areas of judgment applied in the preparation of the condensed consolidated interim financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

#### Provisions

Management's determination of no material restoration, rehabilitation and environmental exposure is based on the facts and circumstances that existed during the year.

# Functional currency

The functional currency of the Company and its subsidiary is the currency of their respective primary economic environment. Judgement is necessary in evaluating each entity's functional currency.

#### Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operation expenditures and to meet its liabilities for the ensuing year, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances (Note 1).

# • Mineral Properties

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits are likely to arise from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions made may change if new information becomes available. If, after the expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

Exploration and evaluation assets are reviewed for changes in facts and circumstances suggesting the carrying amount exceeds the recoverable amount at each condensed consolidated interim statement of financial position date. This determination requires significant judgment. Factors which could trigger an impairment review include, but are not limited to, significant negative industry or economic trends and interruptions in exploration activities. The Company's review considers the following:

- The period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- Substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- Exploration for and evaluation of mineral resources in the specific area have not led to the discovery
  of commercially viable quantities of mineral resources, and the entity has decided to discontinue such
  activities in the specific area; and
- Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars)

(Unaudited)

FOR THE THREE MONTHS ENDED MARCH 31, 2023

# 2. BASIS OF PREPARATION (cont'd...)

# Use of judgments and estimates (cont'd...)

# Deferred tax

The value of deferred tax assets is evaluated based on the probability of realization; the Company has assessed that it is improbable that such assets will be realized and has accordingly not recognized a value for deferred taxes.

#### Exploration and evaluation assets

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain mineral titles as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties.

# 3. EXPLORATION AND EVALUATION ASSETS

#### Berrio Project, Colombia

On November 10, 2020, the Company entered into an asset purchase agreement ("APA") with Pacifico Holdings S.A.S. ("Pacifico Holdings") and shares purchase agreement ("SPA") with West Rock Resources Panama Corp. ("West Rock"). Pursuant to the agreements, on December 10, 2020, the Company acquired all of the issued and outstanding common shares of GPE SAS which holds the Concession Mining Contact No. 6822 in the Antioquia region of Colombia (the "Berrio Project"). The Company paid total cash consideration of \$185,579 to Pacifico Holdings and West Rock for GPE SAS and certain related historic drill core with respect to the Berrio Project. Both agreements are with unrelated parties.

In the year ended December 31, 2022, the Company acquired by application three additional claims in the Antioquia region of Colombia.

# **Exploration Expenditures**

The Company expended the following exploration and evaluation expenditures:

	 three months ed March 31, 2023	Fo	or the three months ended March 31, 2022
	 2023		2022
Community relations	\$ 1,372	\$	1,809

Geological	-		1,857
Professional fees	-		13,183
Travel	 <u> </u>		1,153
Total expenditures for the period	\$ 3,381	\$	22,002

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

(Unaudited)

FOR THE THREE MONTHS ENDED MARCH 31, 2023

#### 4. SHARE CAPITAL

a) Authorized share capital

Unlimited number of common shares without par value.

b) Issued share capital

Three months ended March 31, 2023

In the three months ended March 31, 2023, the Company:

a) Issued 5,864 common shares at a price of \$0.55 per common share valued at \$3,225 in settlement of services rendered.

Year ended December 31, 2022

In the year ended December 31, 2022, the Company:

- a) Issued 2,500 common shares at a price of \$0.35 per common share for gross proceeds of \$875.
- b) Issued 39,833 common shares at a price of \$0.55 per common share valued at \$21,910 in settlement of services rendered.

# 5. RESERVES

Securities Based Compensation Arrangements

The Company has a stock option plan ("Option Plan") and a restricted share unit plan ("RSU Plan") in place that allows for aggregate issuances which do not exceed 10% of the issued and outstanding common shares at each date of grant.

Stock Options

Stock option transactions are summarized as follows:

	Number of Options	V	Weighted Average Exercise Price
Balance, December 31, 2021	1,300,000	\$	0.35
Granted	100,000		0.35
Balance outstanding, December 31, 2022 and March 31, 2023	1,400,000	\$	0.35
Balance exercisable, March 31, 2023	1,400,000	\$	0.35

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

(Unaudited)

FOR THE THREE MONTHS ENDED MARCH 31, 2023

#### 5. **RESERVES** (cont'd...)

Stock Options (cont'd...)

Stock options outstanding as at March 31, 2023:

	Number outstanding	Number exercisable	Exercise price		Expiry date
Options	1,300,000	1,300,000	\$	0.35	September 30, 2023
	100,000	100,000	\$	0.35	February 28, 2024

As at March 31, 2023, the outstanding stock options had a weighted average remaining life of 0.53 (December 31, 2022 -0.78) years.

#### Restricted Share Units

The Company has a balance outstanding and vested RSUs of 214,285 with a weighted average fair value of per share at grant date of \$0.35 for the periods ended December 31, 2021, December 31, 2022 and March 31, 2023.

The RSUs have time-based vesting conditions whereby one quarter (1/4) of the RSUs will vest every three months from the date of grant.

# Share-based payments

During the period ended March 31, 2023, the Company granted nil (December 31, 2022 – 100,000) stock options with a weighted average fair value of \$nil (December 31, 2022 - \$0.23) per option. The Company recognized share-based payments expense of \$nil (2022 - \$80,972) for options granted and vesting during the period ended March 31, 2023.

Share-based payments expense with respect to stock options is estimated using the following assumptions: The expected volatility assumption was determined through the comparison of historical share price volatilities used by similar publicly listed companies. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The Company has not paid and does not anticipate paying dividends on its common shares.

The following weighted average assumptions were used for the Black-Scholes option-pricing model valuation of stock options vesting during the period:

	For the three months	For the year ended
	ended March 31, 2023	December 31, 2022
Share price	n/a	\$ 0.35
Risk-free interest rate	n/a	1.45%
Expected life of options	n/a	2 years
Expected annualized volatility	n/a	124-130%
Dividend rate	n/a	-
Forfeiture rate	n/a	-

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

(Unaudited)

FOR THE THREE MONTHS ENDED MARCH 31, 2023

#### 5. **RESERVES** (cont'd...)

Share-based payments (cont'd...)

As the performance conditions of the RSU granted were not market-related, the fair value per RSU used to calculate compensation expense for the RSU granted is determined to be \$0.35, equal to the market price on the date of grant as determined by recent subscription prices for the Company's common shares paid by third parties. The Company recognized share-based payments expense with respect to RSUs granted and vesting of \$nil (2022 - \$20,313) in the period ended March 31, 2023.

# Warrants

The Company has a balance outstanding and exercisable warrants of 42,440 with a weighted average exercise price of \$0.35 for the periods ended December 31, 2021, December 31, 2022 and March 31, 2023.

Warrants outstanding as at March 31, 2023:

	Number outstanding	Number exercisable	Exercise price		Expiry date		
Warrants	42,440	42,440	\$	0.35	August 11, 2024		

As at March 31, 2023, the outstanding warrants had a weighted average remaining life of 1.37 (December 31, 2022 – 1.61) years.

The warrants issued in the year ended December 31, 2022 were granted for marketing services as recorded in the condensed consolidated interim statement of loss and comprehensive loss. The warrants were valued at \$10,817 using the Black-Scholes option-pricing model with the following assumptions: risk-free interest rate of 1.02%, volatility of 135%, expected life of 2.6 years and dividend rate of 0%.

# 6. RELATED PARTY TRANSACTIONS

Key management personnel includes the President, Chief Financial Officer and Directors of the Company. The remuneration of the key management personnel is as follows:

	 three months ed March 31,	ne three months
Payments to key management personnel	2023	2022
Consulting fees	\$ 30,000	\$ 20,000
Director's fees	5,000	5,000
Accounting fees	9,000	5,500
Share-based payments	 =	 91,941

As at March 31, 2023 and December 31, 2022, \$nil was included in accounts payable owing to Officers and Directors of the Company in relation to fees for consulting services.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars) (Unaudited)
FOR THE THREE MONTHS ENDED MARCH 31, 2023

# **6. RELATED PARTY TRANSACTIONS** (cont'd...)

In the period ended March 31, 2023, the Company extended loans totaling \$nil (December 31, 2022 - \$65,262) to Combia Gold Inc. ("Combia"), a company with a director in common. All loans to Combia bear interest at a rate of 15% per annum. The loans are unsecured and repayable on or before September 15, 2023, along with accrued interest. If the Company does not receive repayment in cash, the Company will automatically receive a number of common shares of Combia equal to a 33% discount on the price per share of the last issuance of more than \$25,000. As at March 31, 2023, the total loan principal outstanding was \$87,262 (December 31, 2022 - \$87,262) and total interest accrued on these loans was \$11,411 (December 31, 2022 - \$8,139).

# 7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

#### Financial instruments

Cash, accounts receivables, loan receivable and accounts payable are carried at amortized cost. The Company considers that the carrying amount of these financial assets and liabilities, excluding loan receivable, measured at amortized cost to approximate their fair value due to the short-term nature of the financial instruments. The Company considers that the carrying value of the loan receivable approximates its fair value as the market rate of interest approximates market rate of interest and the relatively low principal balance.

#### Financial risk factors

Credit risk

The Company's primary exposure to credit risk is the risk of illiquidity of cash, amounting to \$178,321 at March 31, 2023 (December 31, 2022 – \$330,680). As the Company's policy is to limit cash holdings to instruments issued by major Canadian banks, the credit risk is considered by management to be negligible. As at March 31, 2023, the Company had an immaterial amount of cash balances in Colombia.

The Company is exposed to credit risk with respect to the loan receivable. The Company believes the loan is recoverable and will monitor changes to the credit quality of the debtor.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to pay financial instrument liabilities as they come due. As at March 31, 2023, the Company had working capital of \$143,277 (December 31, 2022 – \$264,706). The Company's financial obligations are limited to accounts payable, which have contractual maturities of less than a year.

Interest rate risk

The Company's financial asset exposed to interest rate risk consists of cash. Management believes the interest rate risk is low given the current low global interest rate environment. At March 31, 2023, the Company maintained all of its cash balance on deposit with a major Canadian bank.

Foreign currency risk

The Company operates in Colombia and is therefore exposed to foreign exchange risk arising from transactions denominated in the Colombian peso ("COP\$"). The Company's financial assets and liabilities are held in COP\$ and are therefore subject to fluctuation against the Canadian dollar, its reporting currency. The Company has no program in place for hedging foreign currency risk.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars) (Unaudited)
FOR THE THREE MONTHS ENDED MARCH 31, 2023

# 8. CAPITAL MANAGEMENT

The Company's capital management objective is to maintain financial capacity that is strong to sustain the future development of the business.

The Company's capital structure includes shareholders' equity of \$427,529 (December 31, 2022 – \$545,686). The Company manages its capital structure to maximize its financial flexibility to adjust to changes in economic conditions. The Company is not subject to externally imposed capital requirements.

There were no changes to the Company's approach to capital management during the period ended March 31, 2023.

# 9. SUBSEQUENT EVENTS

Subsequent to March 31, 2023, the Company announced that it has entered in a letter of intent to acquire all the issued and outstanding shares of three Colombian companies owning two gold mining projects.

The Company also announces that it has entered into a convertible loan agreement in the aggregate amount of 280,000\$ for 24 months with an annual rate equal to 10%.
