Swmbrd Sports Inc.
Notes to the Condensed Interim Financial Statements
For the six months ended August 31, 2022
Expressed in Canadian dollars
(Unaudited – prepared by management)

1. NATURE OF OPERATIONS AND CONTINUANCE OF OPERATIONS

Swmbrd Sports Inc. (“Swmbrd” or the “Company”) was incorporated on September 15, 2015, under the Company Act of British Columbia and is in the business of developing, manufacturing, marketing, and selling aquatic sports products in the sporting goods and outdoor recreation industries. The head office, principal address and registered and records office of the Company are located at 1450 – 789 West Pender, Vancouver, BC, Canada, V6C 1H2. The Company was listed on the Canadian Securities Exchange (“CSE”) on February 16, 2022 under the symbol “SWIM”.

These condensed interim financial statements were authorized for issue by the Audit Committee and Board of Directors on October 19, 2022.

The Company has no source of operating cash flows, has not yet achieved profitable operations, has working capital of \$360,948 at August 31, 2022 (February 28, 2022: \$364,550), has accumulated losses since its inception, expects to incur further losses in the development of its business, and has no assurance that sufficient funding will be available to conduct further development of its products. These material uncertainties cast significant doubt about the Company’s ability to continue as a going concern and, accordingly, the appropriateness of the use of generally accepted accounting principles applicable to a going concern. In recognition of these circumstances, management is pursuing various financial alternatives to fund the Company’s development stages. There is no assurance that these initiatives will be successful.

In the future, the Company may raise additional financing through the issuance of share capital or shareholder loans; however, there can be no assurance that it will be successful in its efforts to do so and that the terms will be favourable to the Company. These financial statements do not include any adjustments to the carrying values of assets and liabilities, the reported expenses and statement of financial position classifications that might be necessary should the Company be unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Management is actively seeking to raise the necessary capital to meet its funding requirements. There can be no assurance that management’s plan will be successful. If the going concern assumption were not appropriate for these financial statements, then adjustments would be necessary in the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

2. BASIS OF PRESENTATION

Statement of Compliance

These condensed interim statements are prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”), applicable to the presentation of interim financial statements, including IAS 34, Interim Financial Reporting.

These financial statements have been prepared on a historical costs basis except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, this financial statement has been prepared using the accrual basis of accounting.

The preparation of these financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout these financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the revision affects both current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the statement of financial position date that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- (i) The assessment of the ultimate collectability of due from related parties.

Critical judgments

- i. Going concern - Evaluation of the ability of the Company to realize its strategy for funding its future needs for working capital involves making judgments.
- ii. Provision for credit losses - Judgment is required as to the timing of establishing a provision for credit losses and the amount of the required provision, taking into consideration factors such as counterparty creditworthiness, the fair value of the underlying collateral, current economic trends and past experience.
- iii. Fair value and useful life of intangible assets - The value of the intangible assets was determined based on the fair value of the consideration exchanged. Management judgmentally used five years as the useful life of the intangible assets for purposes of amortization.
- iv. Impairment of intangible assets – The determination that there are no indicators of impairment indicating that the carrying amount exceeds the recoverable amount.

Judgment is required in assessing whether certain factors would be considered an indicator of impairment or impairment reversal. Management considers both internal and external information to determine whether there is an indicator of impairment or impairment reversal present and, accordingly, whether impairment testing is required.

4. SIGNIFICANT ACCOUNTING POLICIES

The policies applied in these condensed interim financial statements are consistent with policies disclosed in Note 4 of the financial statements for the year ended February 28, 2022. These condensed interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended February 28, 2022.

Certain new standards, interpretations and amendments to existing standards issued by the IASB or IFRIC may have become mandatory or have been issued subsequent to the year ended February 28, 2022. However, none have been identified as applicable or are consequential to the Company.

Restricted Share Unit Plan

c) Market Risk

Market risk consists of currency risk, commodity price risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while maximizing returns.

i) *Currency Risk*

Foreign currency exchange rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in foreign exchange rates. Although the Company is in the development stage and has not yet developed commercial production, the underlying commodity price for materials and services is impacted by changes in the exchange rate between the Canadian dollar, the United States dollar, and the Euro. As all of the Company's transactions are denominated in Canadian dollars, the Company is not significantly exposed to foreign currency exchange risk at this time.

ii) *Commodity Price Risk*

Commodity price risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for production materials are impacted by world economic events that dictate the levels of supply and demand as well as the relationship between the Canadian and United States dollar and Euro, as outlined above. As the Company has not yet developed commercial production, it is not exposed to commodity price risk at this time.

iii) *Interest Rate Risk*

The Company is not exposed to significant interest rate risk even though the Company has cash balances, and its current policy is to invest excess cash in certificates of deposit or money market funds of major Canadian chartered banks. The Company's other financial assets and financial liabilities do not comprise any interest rate risk since they do not bear interest.

d) Fair Value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The following is an analysis of the Company's financial assets measured at fair value as at:

| | As at August 31, 2022 | | |
|------|-------------------------|---------|---------|
