Management's Discussion and Analysis
For the years ended December 31, 2022 and 2021

Form 51-102F1

Effective Date

This Management's Discussion and Analysis ("MD&A") provides relevant information on the operations and financial results of Buscando Resources Corp. (the "Company") for the years ended December 31, 2022, and 2021. This MD&A is a complement and supplement to the financial statements for the years ended December 31, 2022, and 2021. It should be read in conjunction with the Company's financial statements and related notes thereto. The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

All monetary amounts in this MD&A and in the Company's financial statements are expressed in Canadian dollars, unless otherwise stated.

The effective date of this MD&A is April 21, 2023.

Forward Looking Information

Certain statements contained in the following MD&A constitute forward-looking statements. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from actual future results and achievements expressed or implied by such forward looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made. Readers are also advised to consider such forward-looking statements while considering the risks set forth below.

Caution Regarding Forward Looking Statements

Except for statements of historical fact relating to the Company, certain information contained in this MD&A constitutes "forward-looking information" under Canadian securities legislation. Forward-looking information includes, but is not limited to, statements with respect to the potential of the Company's properties; the future price of gold; success of exploration activities; cost and timing of future exploration and development; the estimation of mineral reserves and mineral resources; conclusions of economic evaluations; requirements for additional capital; and other statements relating to the financial and business prospects of the Company.

Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", "believes", or variations of such words and phrases. Forward-looking information may also be identified in statements where certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved".

Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made.

Forward-looking information is inherently subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance, or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to risks related to:

- The Company's goal of creating shareholder value by concentrating on the acquisition and development of properties that have the potential to contain economic resources.
- Management's economic outlook regarding future trends.
- The Company's ability to meet its working capital needs at the current level in the short term.
- Expectations with respect to raising capital; and
- Governmental regulation and environmental liability.

Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, other factors could also cause materially different results. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

Critical Accounting Policies and Estimates

Significant accounting judgments and estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant areas requiring the use of management estimates relate to the determination of carrying value of mining property and right acquisition costs, stock-based compensation, convertible promissory note bifurcation, warrant valuation, and deferred tax assets and liabilities. Financial results as determined by actual events could differ from those estimates.

Statement of Compliance

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The financial statements for the years ended December 31, 2022 and 2021 were authorized for issue by the Board of Directors on April 21, 2023. The financial statements have been prepared on a going concern basis, under the historical cost convention, except fair value through profit and loss assets which are carried at fair value, and have been prepared using the accrual basis of accounting, as explained in the accounting policies set out in Note 3. The financial statements are presented in Canadian Dollars, which is the functional currency of the Company.

Risks and Uncertainties

The Company's principal activity is mineral exploration and development. Mineral exploration and mining involve considerable financial and technical risk. Substantial expenditures are usually required to establish ore reserves, to evaluate metallurgical processes and to construct mining and processing facilities at a particular site. It is impossible to ensure that the current exploration programs planned by the Company will result in profitable commercial mining operations. Unusual or unexpected geological formations, unstable ground conditions that could result in cave-ins or land slides, floods, power outages or fuel shortages, labour disruptions, fire, explosions, and the inability to obtain suitable or adequate machinery, equipment or labour are risks associated with the conduct of exploration programs and the

operation of mines. At this point, the Company has no experience in the development and operation of mines and in the construction of facilities required to bring mines into production, and may rely upon consultants for expertise with respect to the construction and operation of a mining facility.

The Company may be subject to risks which could not reasonably be predicted in advance. Events such as labour disputes, environmental issues, natural disasters or estimation errors are prime examples of industry related risks.

The Company is in the business of resource exploration and as such, its prospects are largely dependent on movements in the price of various commodities. Prices fluctuate on a daily basis and are affected by a number of factors well beyond the control of the Company. The mineral exploration industry in general is a competitive market and there is no assurance that, even if commercial quantities of proven and probable reserves are discovered, a profitable market may exist. Due to the current grassroots nature of its operations, the Company does not enter into price hedging programs.

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters.

The Company expects that uncertainty remains with respect to global economy, available capital and exploration risk to the resource industry. The Company intends to manage its cash resources and review opportunities as circumstances demand.

Accounting Standards, Amendments and Interpretations

New Standards, Amendments and Interpretations Effective for the first time

There are no new accounting standards or recent pronouncements that the Company expects will have a material impact on the Company's annual financial statements.

Financial Instruments and Other Instruments

All significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk.

The Company's financial instruments comprise of cash, accounts payable and accrued liabilities and due to related parties.

The fair value of cash is based on level 1 input of the fair value hierarchy.

Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest rate risk, currency risk and/or credit risk arising from these financial instruments.

Description of Business and Overall Performance

The Company was incorporated on June 9, 2017, under the laws of British Columbia. The Company's head office and registered office is located at 520 – 999 West Hastings Street, Vancouver BC V6C 2W2.

The Company is an exploration stage company with no revenues from mineral producing operations. Activities include acquiring mineral exploration properties and conducting exploration programs. The mineral exploration business is considered risky, and most exploration projects will not result in producing mines. The Company may offer an opportunity to other mining companies to acquire an interest in a property in return for funding all or part of the exploration and development of a particular property. For the funding of property acquisitions and exploration that the company conducts, the Company depends on the issuance of shares from the treasury to investors. These stock issuances depend on a number of factors including a positive mineral exploration environment, positive stock market conditions, a company's track record and the experience of management.

Activities

Most of the costs incurred have been incurred in arranging the financing and examining acquisitions of mining resources.

To date, Buscando Resources Corp. has sought opportunities to acquire mineral exploration properties and conduct exploration programs.

On December 11, 2020, the Company entered into an asset purchase agreement to purchase 100% of the right title and interest in the Rupert Property, located in British Columbia, Canada. The Company agreed to the following:

- i. make cash payments of \$150,000 to be paid as follows:
 - \$25,000 on the closing date (paid);
 - \$50,000 on or before March 15, 2023 (subsequently extended to September 30, 2023); and
 - \$75,000 on or before March 15, 2024.
- ii. Issue 3,750,000 shares as follows
 - 1,000,000 on the closing date (issued);
 - 1,250,000 on or before March 15, 2023 (issued subsequently; and
 - 1,500,000 on or before March 15, 2024.
- iii. Incur exploration expenses of \$200,000 as follows:
 - \$100,000 on or before March 15, 2023 (incurred \$100,000); and
 - \$100,000 on or before March 15, 2024 (incurred \$3,079).

In addition, the Company granted a 2% net smelter return to the Vendor of the property. At any time, 1% of the net smelter return can be purchased by the Company for \$1,500,000.
