

# FendX Commences Trading on the Frankfurt Stock Exchange

Oakville, Ontario--(Newsfile Corp. - June 1, 2023) - FendX Technologies Inc. (CSE: FNDX) (OTCQB: FDXTF) (FSE: E8D) (the "**Company**" or "**FendX**"), a nanotechnology company developing surface protection coatings to reduce the spread of pathogens, is pleased to announce that its common shares have commenced trading on the Frankfurt Stock Exchange ("FSE") under the ticker symbol "E8D" as of May 31, 2023.

"We are excited to enter the European capital markets via the largest exchange in Germany as it provides a pathway to new European investors, offering increased liquidity and trading in Europe while also enhancing our global visibility," said Dr. Carolyn Myers, President and CEO of FendX. "Expanding our global investor reach with an FSE listing is a key capital markets strategy for FendX and allows us to share our story with investors seeking innovation and excellence in the nanotechnology sector more broadly."

The FSE is one of the world's largest international trading centers for securities. Operated by the Deutsche Boerse AG, FSE, is the largest of Germany's seven stock exchanges, and is responsible for approximately 90 percent of all securities traded in Germany. The FSE facilitates advanced electronic trading, settlement and information systems and enables cross-border trading for international investors.

Investors can now find the Company's shares listed on the Canadian Securities Exchange (**CSE: FNDX**), the OTCQB Venture Market (**OTCQB: FDXTF**) and the Frankfurt Stock Exchange (**FSE: E8D**).

## About FendX Technologies Inc.

FendX is a Canada-based nanotechnology company focused on developing products to make people's lives safer by reducing the spread of pathogens. The Company is developing both film and spray products to protect surfaces from contamination. The lead product under development, REPELWRAP™ film, is a protective surface coating film that, due to its repelling properties, prevents the adhesion of pathogens and reduces their transmission on surfaces prone to contamination. The spray nanotechnology is a bifunctional spray coating being developed to reduce contamination on surfaces by repelling and killing pathogens. The Company is conducting research and development activities using its nanotechnology in collaboration with industry-leading partners, including McMaster University. The Company has an exclusive worldwide license to its technology and IP portfolio from McMaster, which encompass both film and spray coating nanotechnology formulations.

## Forward-Looking Statements

This news release contains certain forward-looking statements within the meaning of Canadian securities legislation, including with respect to: the plans of the Company; statements regarding FSE trading and benefits related thereto, liquidity and global visibility; and products under development and any pathogen reduction benefits related thereto. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts; they are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "aims," "potential," "goal," "objective," "prospective," and similar expressions, or that events or conditions "will," "would," "may," "can," "could" or "should" occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made and involve several risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate and that actual results and future events could differ materially from those anticipated in such statements.

Important factors that could cause future results to differ materially from those anticipated in these forward-looking statements include product candidates only being in formulation/reformulation stages; limited operating history; research and development activities; dependence on collaborative partners, licensors and others; effect of general economic and political conditions; and other risk factors set forth in the Company's final prospectus dated January 31, 2023, under the heading "Risk Factors." Accordingly, the reader is urged to refer to the Company's prospectus and other filings, publicly available through SEDAR at [www.sedar.com](http://www.sedar.com), for a more complete discussion of such risk factors and their potential effects. Except to the extent required by applicable securities laws and the policies of the Canadian Securities Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors should change.
