2.3 Any and all of the payments, Share issuances and Exploration Expenditures contemplated herein may be accelerated at XRI's option and sole discretion.

2.4 Notwithstanding Sections 2.2(c)(iii) and 2.2(c)(iv), if XRI anticipates that it will fail to incur any or all of the Exploration Expenditures referred to in either of those Sections on or before the date specified in the applicable Section for reasons beyond XRI's reasonable control, including without limitation XRI's inability or failure, acting reasonably, to obtain financing on reasonable commercial terms to fund such Exploration Expenditures, then:

 - (b) EPL may not receive information that might otherwise be required to be provided, and XRI is relieved from certain obligations that would otherwise apply under the *Securities Act* (British Columbia) and other applicable securities laws, if the exemptions were not being relied upon by XRI;
 - (c) there are risks associated with the acquisition of the Shares;
 - (d) there will be restrictions on EPL's ability to resell the Shares (including a restriction on transfer of four months and one day from the date of each Share issuance) and the certificates or electronic statements that represent the Shares will bear such legends as are required under applicable securities laws and the policies of the Exchange. It is the sole responsibility of EPL to comply with these restrictions before selling the Shares;
 - (e) no securities commission, stock exchange or similar regulatory authority has reviewed or passed on the merits of an investment in the Shares; and
 - (f) EPL is acquiring the Shares as principal for its own account and not as an agent, for investment purposes only and not with a view to resale or distribution.
- 2.6 This Agreement is for an option only and, for greater certainty, nothing in this Agreement will be construed as obligating XRI to do any acts, make any payments, issue any Shares or incur any Exploration Expenditures hereunder, and any act done, payment made, Share issued or Exploration Expenditure incurred hereunder will not be construed as obligating XRI to do any further act, make any further payment, issue any further Shares, or incur any further Exploration Expenditures. EPL acknowledges that XRI shall not be liable for any actual, incidental or consequential damages incurred by EPL as a direct or indirect result of XRI's failure to satisfy all or part of the Option conditions in Section 2.2.
- 2.7 If XRI incurs Exploration Expenditures in an amount exceeding the specified amount for the specified period under Section 2.2(c), the excess amount will be carried forward and applied to the Exploration Expenditures to be incurred in the succeeding periods.
- 2.8 XRI may, at its sole discretion, in lieu of completing any of the Exploration Expenditures set out above, or any portion thereof, pay to EPL in cash an amount equivalent to such Exploration Expenditures.
- 2.9 In the event of any capital reorganization or any reclassification of the capital of XRI, including any share subdivision or consolidation, or in the case of the consolidation, merger, amalgamation or other business combination of XRI with or into any other company (in each case, a "**Reorganization**"), the number of Shares to be issued to EPL pursuant to this Agreement will be adjusted such that EPL will receive the same proportionate number of Shares (or securities of any entity resulting from such Reorganization) as it would be entitled to receive had it been a shareholder of XRI at the time of such Reorganization.

- 2.10 The parties each acknowledge and agree that the consummation of the transactions contemplated herein are subject to XRI's completion of its filing requirements with the Exchange and prior Exchange Approval. If XRI is unable to obtain Exchange Approval, XRI may terminate this Agreement pursuant to this Section, following which, the parties will have no further obligations to each other pursuant to this Agreement.

3. PROPERTY INTEREST

- 3.1 At such time as XRI has made all of the required cash payments, Share issuances and Exploration Expenditures in accordance with Section 2.2, then XRI shall provide notice to EPL and will be vested with an undivided 80% legal and beneficial right, title and interest in and to the Property, free and clear of any Adverse Interests, save and except for the NSR Royalty. Upon such notice, EPL shall take all necessary steps to immediately transfer to XRI an undivided 80% legal and beneficial right, title and interest in and to Property, free and clear of any Adverse Interests, subject only to the NSR Royalty. Until such transfers are completed, XRI will be entitled to register or record this Agreement or other evidence of its rights hereunder against title to the Property, and EPL will promptly execute and deliver, or cause to be executed and delivered, all documents, deeds and other instruments reasonably requested by XRI for the purpose of facilitating such registration or recording.

Upon the commencement of Commercial Production, XRI shall pay to EPL a royalty equal to 2% of the Net Smelter Returns with respect to the Property, on the terms set out in Schedule "B" (the "NSR Royalty"), provided that one half (1/2) of the NSR Royalty may be bought down at any time upon payment to EPL of \$2,000,000 (for a remaining net NSR Royalty of 1%).

5. TECHNICAL COMMITTEE AND OPERATOR

The Technical Committee shall determine matters it addresses by way of majority vote of the Technical Committee members. Each party acting through its appointed members shall have one vote on the Technical Committee, provided that if the members of the Technical Committee fail to reach consensus regarding any matter, such matter will be determined by XRI, acting reasonably, and such decision will be final and binding on the Technical Committee. XRI shall nominate that member of the Technical Committee who shall act as chairperson of the Technical Committee from time to time. The Technical Committee shall determine its own process and protocols, subject always to the terms of this Agreement.
- 5.2 Subject to Sections 5.1 and 5.3, during the Option Period, XRI will act as the sole Operator with respect to the Property and have the right, power and authority to:

- (e) remove any minerals from the Property for sampling and testing purposes as may be necessary in accordance with its operations on the Property; and
- (f) exercise any other such rights in respect of the Property as are held by EPL.

5.3 During the Option Period, the Operator shall:

- (a) ensure that all operations on the Property are conducted in a prudent and miner-like manner and in accordance with the applicable work plan, timing and budget determined by the Technical Committee;
- (b) be responsible for compliance with all applicable laws and regulations related to the completion of its work on the Property;

For such purposes, EPL may engage TerraLogic Exploration Inc., or any other contractor accepted by XRI, at fair market rates, as the primary contractor in respect of such operations. As the Exploration Manager, EPL will comply with the obligations set out in Sections 5.2 and 5.3 as if it were the Operator. EPL will ensure that all work conducted and Exploration Expenditures incurred with respect to the Property are in accordance with the work program, timing and budget as approved by the Technical Committee.

- (a) by the parties upon their mutual agreement to such termination;

- (b) by EPL, if XRI is in default of any of its obligations hereunder (including any requirement specified in Section 2.2 for successful exercise of the Option), and (i) EPL has provided written notice specifying such default to XRI, and (ii) XRI remains in default more than 30 days after of the receipt of such written notice; or
- (c) by XRI for any other reason upon 30 days written notice of termination.

For the avoidance of doubt, if EPL provides written notice specifying default of a requirement specified in Section 2.2 for successful exercise of the Option, and XRI cures such default on or before the date which is 30 days after receipt of such written notice, XRI shall be deemed to have made timely satisfaction of the applicable requirement specified in in Section 2.2 for purposes of successful exercise of the Option.

- 10.2 In the event of termination of the Option for any reason other than through the exercise thereof, XRI shall:
- (a) leave the Property in good standing under the *Crown Minerals Act* (Saskatchewan) for a period of not less than one year from the date of termination; and
 - (b) have the right to remove from the Property within one year of termination of this Agreement all facilities erected, installed or brought upon the Property by or at the instance of XRI, failing which, the facilities shall become the property of EPL.

11. **ABANDONMENT OF CLAIMS**

- 11.1 EPL may not abandon any one or more claims or other property interests comprising the Property without XRI's prior written consent, such consent not to be unreasonably withheld. Upon XRI's consent to such abandonment, such abandoned claims or other property interests shall cease to form part of the Property, provided that the Option exercise requirements set out in Section 2.2 will remain the same.
- 11.2 XRI may, prior to exercise of the Option, abandon any one or more of the claims which comprise the Property by giving EPL not less than 30 days prior written notice of such abandonment, such notice to be provided not less than 60 days prior to the expiry date of such claim. Thereupon, such abandoned claims or other property interests shall cease to form part of the Property for purposes of this Agreement, provided that the Option exercise requirements set out in Section 2.2 will remain the same.
- 11.3 Upon receiving notice under Section 11.2, EPL may elect to keep the claims for its own account, and such abandoned claims or other property interests shall cease to form part of the Property for purposes of this Agreement, provided that the Option exercise requirements set out in Section 2.2 will remain the same.

12. **AREA OF MUTUAL INTEREST**

- 12.1 The area of interest shall be that area which is within, and which extends one thousand six hundred meters outwards from, the boundaries of the mining claims that comprise the Property as at the Effective Date (the "**Area of Interest**").
- 12.2 If at any time during the Option Period, EPL stakes or otherwise acquires, directly or indirectly, any right to or interest in any mining claim, license, lease, grant, concession, permit, patent, or other

mineral property or surface rights or water rights (collectively, “**Acquired Rights**”) located wholly or partly within the Area of Interest, EPL shall forthwith give notice to XRI of that staking or acquisition, the cost thereof and all details in possession of EPL with respect to the nature of the Acquired Rights and the known mineralization. XRI may, within 30 days of receipt of this notice, elect to include the Acquired Rights within the Property that is the subject of the Option by reimbursing EPL any and all acquisition costs, which acquisition costs will be included as Exploration Expenditures. If XRI does not elect to include the Acquired Rights within the Property that is the subject of the Option, EPL shall hold such Acquired Rights separate from this Agreement and XRI shall have no rights or obligations with respect thereto.

- 12.3 If at any time during the Option Period, XRI stakes or otherwise acquires, directly or indirectly, Acquired Rights located wholly or partly within the Area of Interest, then:
- (a) those Acquired Rights shall be included within the Property under this Agreement;
 - (b) the costs of acquiring such Acquired Rights shall be included as Exploration Expenditures when incurred; and
 - (c) notwithstanding Section 12.3(a), if there is any existing net smelter returns royalty or similar interest, however titled, encumbering the Acquired Rights prior to and following, or as a result of, XRI’s acquisition of the Acquired Rights, the NSR Royalty created pursuant to this Agreement shall not apply to the Acquired Rights.

13. FORCE MAJEURE

- 13.1 If XRI is at any time either during the Option Period or thereafter prevented or delayed in complying with any provisions of this Agreement by reason of strikes, lock-outs, pandemics, labour shortages, blockades, power shortages, fuel shortages, fires, wars, acts of God, governmental regulations restricting normal operations, shipping delays, lack of access to (other than as a result of typical seasonal conditions) or quiet possession of the Property or any other reason or reasons, other than lack of funds, beyond the control of XRI, the time limited for the performance by XRI of its obligations hereunder (including but not limited to the making of any cash or common share payments or the incurring of Exploration Expenditures) shall be extended by a period of time equal in length to the period of each such prevention or delay, but nothing herein shall discharge XRI from its obligations hereunder to maintain the Property in good standing to the extent that XRI is not prevented by a force majeure event from maintaining the Property in good standing.
- 13.2 XRI shall give prompt notice to EPL of each event of force majeure and upon cessation of such event shall furnish to EPL with notice to that effect together with particulars of the number of days by which the obligations of XRI hereunder have been extended by virtue of such event of force majeure and all preceding events of force majeure.

14. CONFIDENTIAL INFORMATION

- 14.1 No information furnished by XRI to EPL, or by EPL to XRI hereunder in respect of the activities carried out on the Property by XRI or EPL (as Operator, as the case may be), or related to the sale of minerals, ore, bullion or other product derived from the Property, shall be published or disclosed by a party without the prior written consent of the other party, but such consent in respect of the reporting of factual data shall not be unreasonably withheld, and shall not be withheld in respect of information required to be publicly disclosed pursuant to applicable securities or corporate laws, regulations or policies.

- 14.2 Each party acknowledges and agrees that all information provided by it to the other shall be treated on a confidential basis unless and until such information is publicly disclosed by EPL or XRI in accordance with the above. Without limiting the foregoing, the parties shall not (except with the prior written consent of the other party) directly or indirectly disclose to any other person (excepting its professional advisors and as may be necessary in seeking the approval of any governmental authority or stock exchange), shall take all necessary steps to prevent accidental disclosure of, and shall not make use for its own purpose, any such non-publicly disclosed information. Both parties acknowledge and agree that each is solely responsible for compliance with applicable securities and other laws relating to such information, including but not limited to provisions regarding insider trading and tipping.

- 16.2 Notwithstanding Section 16.1, EPL may assign all of its interest in the Property and this Agreement to an "affiliate" (as defined in the *Business Corporations Act* (British Columbia) of EPL without XRI's consent or other restriction, provided that the affiliate agrees in writing to comply with this Agreement and be bound by and liable under the terms of this Agreement as though it were the

SCHEDULE "B"
ROYALTY AGREEMENT

[this is a cover page only]

SCHEDULE “C” JOINT

VENTURE TERMS

1. Capitalized terms used in this Schedule “C” and defined in the Agreement to which this Schedule “C” is attached (the “**Agreement**”) have the meaning defined in the Agreement unless otherwise defined herein.
2. In accordance with Section 9 of the Agreement, it is the intention of the parties to enter into the Joint Venture Agreement upon formation of the joint venture. The terms and conditions set out herein will substantially be included in the Joint Venture Agreement.
3. The parties acknowledge that certain matters relating to the Property may need to be considered and determined from time-to-time according to the requirements of applicable laws, taxation considerations, and the prevailing commercial practices and policies of applicable governmental authorities to determine the most appropriate legal structure under which to continue the exploration and development of the Property.
4. The time period from and including the date of the Agreement until and including the date, if any, on which XRI delivers to EPL a bankable feasibility study in respect of the Property is referred to herein as the “**Carried Interest Period**”. Notwithstanding any other term of the Agreement or this Schedule “C”, during the Carried Interest Period: (a) all Exploration Expenditures associated with the Property (including without limitation all expenses associated with the bankable feasibility study referred to above) shall be borne entirely by XRI; and (b) EPL’s interest in the Property and in the joint venture, if and when formed, shall be a carried interest.
5. Subject to Section 4 of this Schedule “C”, each party will contribute to all costs of the joint venture in proportion to its percentage undivided interest in the Property (its “**Participating Interest**”) from time-to-time.
6. All operations on and in connection with the Property will be managed by a committee (the “**Management Committee**”) comprised of four people, of which two will be representatives of EPL and two will be representatives of XRI. All decisions of the Management Committee will be made by a simple majority of the votes cast. The representatives of each party in the Management Committee will have such number of votes as equals such party’s Participating Interest at the time of the vote. In the event that each of the parties hold an equal number of votes, the party last holding a majority of votes shall have a casting vote. If EPL’s Participating Interest is less than 20%, EPL shall not be entitled to any representatives on the Management Committee, but shall be entitled to one observer with no voting rights.
7. Following the Carried Interest Period, the parties’ Participating Interest and deemed Exploration Expenditures will be as follows, subject to adjustment under section 8 below:

Party	Participating Interest	Deemed Exploration Expenditures
XRI	80%	80% of total expenditures
EPL	20%	20% of total expenditures

TOTAL	100%	total expenditures
--------------	-------------	---------------------------

8. Following the Carried Interest Period, the Deemed Exploration Expenditures related to each party's Participating Interest will be the aggregate of all Exploration Expenditures incurred on the project during the Carried Interest Period multiplied by that party's Participating Interest.
9. During the term of the joint venture, relinquishment of any mineral claims comprising the Property will be by a simple majority vote of the Management Committee, provided that a party voting against relinquishment shall, prior to actual relinquishment, be offered the concession or concessions for acquisition for its own account. Any party that votes for a proposal for relinquishment of any concession within the Property will be restricted from directly or indirectly acquiring such concessions in its own right for a period of two years thereafter.
10. During the term of the joint venture, XRI will be the sole Operator of the Property. The Operator shall have the sole right and responsibility to supervise and manage the exploration and the development of the Property and the engineering, design and construction of any facilities on the Property, in accordance with annual expenditure programs as approved by the Management Committee. The Operator may retain such subcontractors as it sees fit. The Operator shall also have the sole right and responsibility to supervise, manage and conduct activities of the joint venture in accordance with the Joint Venture Agreement. The Operator may charge the joint venture an operator's fee equal to: (a) 5% of all costs during exploration and development phases prior to a decision by the Management Committee to develop a mine on any portion of the Property, (b) 5% of all costs during mine construction, provided that the operator's fee in respect of any contract in excess of \$100,000 shall be 1%, and (c) 2% of all costs during mining operations.
11. All transactions, contracts, employments, purchases, operations, negotiations with third parties and any other matter or act undertaken on behalf of the parties in connection with the Property during the term of the joint venture will be done, transacted, undertaken or performed in the name of the Operator, on behalf of the joint venture, and no party will do, transact, perform or undertake anything in the name of the other party or in the joint names of the parties.
12. Each party's beneficial interest in the Property and the other assets and liabilities of the joint venture will be in proportion to their Participating Interest from time-to-time. The percentage of each Participating Interest will be determined from time-to-time as being equal to the product obtained by multiplying 100% by a fraction of which the numerator is the amount of such party's deemed Exploration Expenditures as at the date of conclusion of the Carried Interest Period plus its contributions or deemed contributions to costs since the date of conclusion of the Carried Interest Period, and the denominator of which is the aggregate amount of all deemed Exploration Expenditures of all parties as at the date of conclusion of the Carried Interest Period plus all contributions or deemed contributions to costs by all parties since the date of conclusion of the Carried Interest Period.
13. Following the Carried Interest Period, the parties will contribute to the work programs and other costs associated with the joint venture on a pro-rata basis in proportion to their respective Participating Interests. The respective Participating Interests of the parties will not change so long as each party contributes its pro-rata share of the costs of every program. At any time and from time-to-time after a party has elected or is deemed to have elected not to contribute its share of the costs of any program or loses its right to contribute to programs, the Participating Interests of the parties will be adjusted in accordance with the formula set out in section 12 above; provided that if a party elects to contribute to a work program approved by the Management Committee and

subsequently fails to provide the required funding in accordance with the terms of the Joint Venture Agreement, and the other party provides increased funding to make up for such shortfall, that other party will be deemed to have contributed an amount equal to 1.5 times such increased funding, and the Participating Interests of the parties will be adjusted accordingly.

14. If as a result of adjustment pursuant the Participating Interest of EPL or XRI is reduced to less than 10% (the “**Diluted Party**”), then the Participating Interest of the Diluted Party will be converted into a 2% net smelter returns royalty, substantially similar to the terms set out in the Agreement, with the Diluted Party as the royalty holder and the other party as the payor. Following such conversion, the Diluted Party shall have no further interest in the joint venture, provided that the Diluted Party will remain liable for third-party liabilities of the joint venture accruing prior to date its interest is converted into the joint venture NSR.
15. The Joint Venture Agreement shall contain an area of interest provision with respect to any mineral properties or related rights within two kilometres of the boundaries of the Property as it is constituted on the date of the formation of the joint venture.
16. Any transfer of a Participating Interest by a party will be subject to a 30-day right of first refusal in favour of the other party.
