## 1. NATURE OF OPERATIONS AND CONTINUANCE OF BUSINESS

Xcite Resources Inc. (“Xcite” or the “Company”) is an exploration company incorporated on February 8, 2022 under the laws of the Province of British Columbia, Canada. The Company’s head office and principal address is Suite 1910, 1030 West Georgia Street, Vancouver, British Columbia, Canada, V6E 2Y3. On February 22, 2023, pursuant to the acceptance of a prospectus, the Company became a listed entity on the Canadian Securities Exchange (“CSE”) with the trading symbol XRI.CN.

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company has incurred losses from inception and does not currently have the financial resources to sustain operations in the long-term. While the Company has been successful in obtaining its required funding for this year, there is no assurance that such future financing will be available or be available on favorable terms. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Continued operations of the Company are dependent on the Company’s ability to receive financial support, necessary financings, or generate profitable operations in the future.

The Company actively manages its cash flow and investment in exploration and evaluation expenses to match its cash generated from financing activities. In order to maximize cash generated from operations, the Company plans to focus on developing its mineral properties with positive indicators of recoverable resources; minimize operating expenses where possible; and limit capital expenditures. As the Company continues to expend on exploration and evaluation expenses, investments will be financed through external financing. Management believes that successful execution of its business plan will result in sufficient cash flow and new financing to fund projected operational and investment requirements. However, no assurances can be given that the Company will be able to achieve all or part of the objectives discussed above, or that sufficient financing from outside sources will be available. Further, if the Company’s operations are unable to generate cash flow levels at or above current projections, the Company may not have sufficient funds to meet its obligations over the next twelve months.

Should such events occur, management is committed to implementing all or a portion of its contingency plan. This plan has been developed and designed to provide additional cash flow, and includes, but is not limited to, deferring certain additional exploration activities, and reducing general and administrative expenses, while seeking outside financing or seeking a potential partner in the development of its mineral properties.

The failure of the Company to achieve one or all of the above items may have a material adverse impact on the Company’s financial position, results of financial performance and cash flows. These factors indicate the existence of material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern.

## 2. BASIS OF PREPARATION

### Statement of Compliance and basis of presentation

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed interim financial statements have been prepared on the basis of accounting policies, methods of computation, and estimates and judgements consistent with those applied in the Company's October 31, 2023 annual financial statements.

These condensed interim financial statements do not include all of the information required of full audited financial statements and therefore these condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended October 31, 2023.

### Functional and presentation currency

The financial statements are presented in Canadian Dollars, which is the Company's functional and presentation currency.

### Approval of the financial statements

The condensed interim financial statements of the Company for the period ended April 30, 2024, were approved and authorized for issuance by the Board of Directors on September 26, 2024.

## 3. EXPLORATION AND EVALUATION ASSETS

## 6. SHARE CAPITAL

### (a) Common shares

The company is authorized to issue an unlimited number of common shares without par value.

As at April 30, 2024, the Company had 16,776,600 common shares issued and outstanding. Transactions in the Company's shares were as follows:

- On December 5, 2022, the Company closed a private placement for gross proceeds of \$85,000 by issuing 850,000 units of the Company. Each unit consists of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant is exercisable for one common share at an exercise price of \$0.30 for 12 months.
- On February 22, 2023, concurrent with it becoming a listed entity on the CSE, the Company closed a public offering for gross proceeds of \$420,000 by issuing 4,200,000 units of the Company. Each unit consists of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant is exercisable for one common share at an exercise price of \$0.30 for 12 months.

The Company incurred \$223,839 of share issuance costs associated with the above share issuance. Included in the share issuance costs are 420,000 broker fee units with a value of \$42,000. Each unit consists of one common share and one common share purchase warrant. Each warrant is exercisable for one common share at an exercise price of \$0.10 for 24 months. In addition, 420,000 broker compensation options were issued allowing the broker to purchase 420,000 shares of the Company with an exercise price of \$0.10 per share. The compensation options carry a fair value of \$42,721 using the Black-Scholes option pricing model using the following assumptions: risk-free interest rate – 4.20%; expected life of the options – 2.0 years; Annualized volatility – 111.82%; dividend rate – 0%. The weighted average fair value per option granted was calculated as \$0.0589.

- On February 23, 2023, the Company issued 1,000,000 common shares for the acquisition of the Turgeon Lake property with a value of \$100,000.

### (b) Stock options

The Company has adopted an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of shares of the Company's capital stock issuable pursuant to options granted under the Plan may not exceed 10% of the Company's issued and outstanding shares at the date of grant of the options. Options granted under the Plan may have a maximum term of five years. The exercise price of options granted under the Plan will not be less than the greater of the closing market price of the Company's shares on the CSE on (a) the date on which the Board of Directors grants and announces options (the "Award Date") and (b) the day prior to the Award Date. The Board of Directors may at any time and from time to time, fix limits, vesting requirements or restrictions in respect of which an Option Holder may exercise part of any Option held by him/her.

During the year ended April 30, 2024, the Company issued 500,000 share options to Company officers and/or directors. Each option allows the holder to purchase one common share at a price of \$0.12 per share and have an expiry date of five years. Share-based compensation of \$39,454 was recognized and included in reserves using the Black Scholes option pricing model and the following assumptions: risk-free interest rate – 3.3%; expected life of the options – 5.0 years; Annualized volatility – 108%; dividend rate – 0%. The fair value per option granted was calculated as \$0.0789.

The continuity of share purchase options for the period ended April 30, 2024 is as follows:

## 8. RISK AND CAPITAL MANAGEMENT

The Company's primary objectives in capital management are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain sufficient funds to finance the development of mineral property assets. Capital is comprised of the Company's shareholders' equity. The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital and is not subject to externally imposed capital requirements. There have been no changes from the prior year.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

### *Credit risk*

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions.

### *Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at July 31, 2024, the Company had a cash balance of \$3,239 (October 31, 2023 - \$106,992) to settle current liabilities of \$341,305 (October 31, 2023 - \$186,449). All of the Company's accounts payable and accrued liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. To maintain liquidity, the Company is currently investigating financing opportunities.

### *Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. The Company does not have a practice of trading derivatives.

### *Interest rate risk*

The Company's financial assets exposed to interest rate risk consist of cash balances. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. As at July 31, 2024 and October 31, 2023, the Company did not have any investments in investment-grade short-term deposit certificates.

### *Price risk*

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.
