#### **1. NATURE OF OPERATIONS AND GOING CONCERN**

Acme Gold Company Limited (the “Company”) was incorporated under the laws of British Columbia, Canada, on September 25, 2020. The Company’s head office address is 992 East 13<sup>th</sup> Avenue, Vancouver, BC, V5T2L6. The registered and records office address is Suite 880, 320 Granville Street, Vancouver, BC, Canada, V6C1S9.

Effective May 24, 2022, the Company obtained a listing on the Canadian Securities Exchange (“CSE”) under the symbol “AGE” and commenced trading on May 26, 2022.

The Company is an exploration stage company and is engaged principally in the acquisition and exploration of mineral properties. The recovery of the Company’s investment in its exploration and evaluation assets is dependent upon the future discovery, development, and sale of minerals, upon the ability to raise sufficient capital to finance these activities, and/or upon the sale of these properties.

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern is dependent on obtaining additional financing through the issuance of common shares or obtaining joint venture or property sale agreements for one or more properties.

There can be no assurance that the Company will be able to continue to raise funds in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the statement of financial position. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

Adverse financial market conditions and volatility increase the uncertainty of the Company’s ability to continue as a going concern given the need to both manage expenditures and to raise additional funds. The Company is experiencing, and has experienced, negative operating cash flows. The Company will continue to search for new or alternate sources of financing but anticipates that the current market conditions may impact the ability to source such funds. Accordingly, these material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern.

As at June 30, 2024, the Company had working capital of \$63,210 (September 30, 2023: working capital of \$112,321) and shareholders’ equity of \$83,881 (September 30, 2023: shareholder’s equity of \$135,072).

#### **2. BASIS OF PREPARATION**

##### **Statement of compliance**

These condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The accounting policies and methods of computation applied by the Company in these condensed interim financial statements are the same as those applied in the Company’s annual financial statements as at and for the year ended September 30, 2023. The condensed interim financial statements do not include all of the information required for full annual financial statements. These condensed interim financial statements should be read in conjunction with the Company’s September 30, 2023 annual financial statements.

## **2. BASIS OF PREPARATION** (continued)

### **New accounting standards and interpretations**

Certain new accounting standards and interpretations have been published that are mandatory for the June 30, 2024 reporting period. The Company has adopted the following new and revised standards, amendments and interpretations that have been issued and are now in effect:

#### IAS 1 - Presentation of Financial Statements

An amendment to IAS 1 was issued in January 2020 and applies to annual reporting periods beginning on or after January 1, 2023. The amendment clarifies the criterion for classifying a liability as non-current relating to the right to defer settlement of a liability for at least 12 months after the reporting period.

The application of the above new and revised standards, amendments and interpretations will have no material impact on the Company's results and financial position.

## **3. CASH**

All cash balances are denominated in Canadian dollars and held in deposits at a Canadian chartered bank.

## **4. RECEIVABLE**

The receivable amounts relate to Canadian refundable value added taxes.

## **5. EXPLORATION AND EVALUATION ASSETS**

### **Old Fort Property**

On February 14, 2023, the Company acquired by staking a 100% interest in two contiguous mineral claims covering 3,314 hectares (the "Old Fort Property") located in the Babine District of northern British Columbia, approximately 22 km north of the village of Granisle, BC.

Pursuant to an agreement with Silver North Resources Inc. ("SNAG") (formerly Alianza Minerals Ltd.), in recognition of the assistance provided by SNAG to the Company in identifying and staking the Old Fort Property, the Company has granted a 1% Net Smelter Return Royalty ("NSR") on the Property to SNAG. A director of the Company is also a director and officer of SNAG.

**Lemon Lake Property**

On February 18, 2021, the Company entered into a mineral property option agreement (the “Option Agreement”) with Orogen Royalties Inc. (“Orogen”) pursuant to which the Company was granted the option (the “Option”) to acquire the Lemon Lake Property by making certain cash payments and performing exploration work on the property over several years. During the years 2021 and 2022 the Company performed various exploration activities on the Lemon Lake Property and made a cash payment to Orogen in accordance with the Option Agreement.

After having reviewed the results of the exploration activities, including assay and geological reports, the Company decided that further exploration activity and expenditures on the Lemon Lake Property was not warranted, and the Option should be terminated. The Company notified Orogen in writing of the Option termination pursuant to the terms of the Option Agreement, effective as of February 15, 2023.

---

**9. RELATED PARTY TRANSACTIONS (continued)**

On January 1, 2021, the Company entered into a management agreement with a director and officer of the Company, whereby the Company will pay a quarterly management fee of \$4,500.

During the period ended June 30, 2024, the Company paid or accrued legal fees in the amount of \$10,002 (June 30, 2023 - \$19,413) to a company controlled by a family member of a former director and officer of the Company.

There were no accounts payable or accrued liabilities owed to related parties on June 30, 2024 or June 30, 2023.

On April 19, 2024, the Company granted 100,000 options to a director of the Company. The Company recorded an amount of \$2,900 as share-based compensation for these options during the period ended June 30, 2024.

**10. SEGMENTED INFORMATION**

The Company operates primarily in Canada, is an exploration stage company, and is engaged principally in the acquisition and exploration of mineral properties.

**11. SUPPLEMENTAL INFORMATION WITH RESPECT TO CASH FLOWS**

During the period ended June 30, 2024, the Company incurred a non-cash expense through the grant of 100,000 stock options with a fair value of \$2,900.

There were no other non-cash investing or financing activities for the periods presented.

**12. FINANCIAL INSTRUMENTS**

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

**Financial instrument risk exposure and risk management**

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company considers the fluctuations of financial markets and seeks to minimize potential adverse effects on financial performance.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management process.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

**ACME GOLD COMPANY LIMITED**

## NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

June 30, 2024 and 2023

(Unaudited – Presented in Canadian dollars)

**12. FINANCIAL INSTRUMENTS** (continued)**Financial instrument risk exposure and risk management** (continued)

The fair value of the Company's accounts payables approximates their carrying values. The Company's other financial instrument, being cash, is measured at fair value using Level 1 inputs.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

**Credit risk**

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligation. The Company's exposure to credit risk includes cash and receivables. The Company reduces its credit risk by maintaining its bank accounts at large international financial institutions. The Company's receivables consist primarily of tax receivables due from federal government agencies.

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. The Company is exposed to liquidity risk.

**Market risk**

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. Such fluctuations may be significant.

- a) Interest rate risk – The Company has nominal cash balances. The Company's current policy is to invest excess cash in investment-grade short-term demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit rating of its banks.
- b) Foreign currency risk – The Company may be exposed to foreign currency risk on fluctuations of currency related to monetary items with a settlement currency other than Canadian dollars. Currently the Company is not exposed to foreign currency risk.
- c) Price risk – The Company may be exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

**13. CAPITAL RISK MANAGEMENT**

The Company considers items included in shareholders' equity as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents.

To facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

To maximize ongoing development efforts, the Company does not pay out dividends. The Company's approach to managing capital remains unchanged from the period ended September 30, 2023.
