

# Eureka Lithium Corp Signs Letter of Intent to Option Drill-Ready and Permitted Lithium Properties near Val D'Or, Quebec

Vancouver, British Columbia--(Newsfile Corp. - December 8, 2023) - Eureka Lithium Corp. (CSE: ERKA) (OTCQB: UREKF) (FSE: S580) ("**Eureka Lithium**" or "**Eureka**" or the "**Company**") is please to announce that it has entered into a letter of intent ("**Letter of Intent**") with respect to an option ("**Option**") to acquire from Medaro Mining Corp. ("**Optionor**") a 100% undivided interest in and to the mineral claims comprising the Optionor's Lac La Motte Project in the mining area of Abitibi, Quebec ("**Property**"), subject to a 1% net smelter returns royalty in favor of the Underlying Owner (as defined below) ("**NSR**").

Eureka's President & CEO, Jeffrey Wilson stated, "We are pleased to enter into this letter of intent. We remain committed to our highly prospective assets in the Nunavik region of Quebec, however this new acquisition balances out the Company's project portfolio with a lithium project that can be drilled during the winter months, has good access and infrastructure and is road accessible, is drill ready and drill permitted, and is situated in a mining-friendly and active lithium district. Prior work at Lac La Motte includes significant pegmatite showings and reported spodumene, as well as encouraging prior drill intercepts including Drill Hole MD22-08 which intersected two pegmatites: Upper 1.33 m wide with 1.49% Li<sub>2</sub>O at 36 m depth; and lower 0.93 m wide at 0.88% Li<sub>2</sub>O at 41.2 m depth. Upon satisfaction of the due diligence period and completion of the definitive agreement, Eureka's will be positioned with data, field crews, and access to a drill to immediately commence work."

Under the Letter of Intent, Eureka will have an exclusive dealing period of 30 days during which it may

conduct due diligence with a view to negotiating and entering into a definitive agreement ("**Definitive Agreement**") with the Optionor pursuant to which it would acquire the Option to acquire a 100% undivided interest in and to the Property, subject to the NSR, by satisfying each of the following conditions:

- Issuing to the Optionor 200,000 common shares of Eureka ("**Common Shares**") on the effective date of the Definitive Agreement ("**Effective Date**");
- Incurring exploration expenses in respect of the Property totalling \$500,000 by the date that is 12 months from the Effective Date;
- Paying, on behalf of the Optionor, \$45,000 in cash to the underlying owner ("**Underlying Owner**") of the Property by May 6, 2024;
- Issuing to the Optionor 300,000 Common Shares by the date that is 12 months from the Effective Date;
- Incurring additional exploration expenses in respect of the Property totalling \$500,000 by the date that is 24 months from the Effective Date;
- Paying, on behalf of the Optionor, \$50,000 in cash to the Underlying Owner by May 6, 2025; and
- Issuing to the Optionor 1,000,000 Common Shares by the date that is 24 months from the Effective Date.

The issuance of any Common Shares will be made pursuant to applicable exemptions from the registration and prospectus requirements under Canadian securities and corporate laws, and such Common Shares will be subject to a hold period of four (4) months and one (1) day from the date of issuance.

The Letter of Intent is non-binding, except for provisions relating to the exclusive period of dealing and the right of Eureka to conduct a due diligence review, as well as certain other customary provisions.

## **About Lac La Motte**

The Lac La Motte Property is located in the prolific mining area of Abitibi, Quebec, 40 kilometers Northwest of the city of Val-d'Or. There are several active lithium prospects/mines at various stages of exploration and development located approximately 5 km to 20 km from the Property.

## **Recent Highlights from 2022 Drill Program:**

- Drill Hole MD22-02 Intersected a 0.7 m wide pegmatite with 0.89% lithium oxide (Li<sub>2</sub>O) at 72.7 m drilled depth.
- Drill Hole MD22-05 Intersected three pegmatites: top 0.79 m wide with 1.34% Li<sub>2</sub>O at 13.18 m depth; middle 0.7 m wide with 0.5% Li<sub>2</sub>O at 20 m depth; lower 0.81 m wide at 0.78% Li<sub>2</sub>O at 22.92 m depth.
- Drill Hole MD22-06 Intersected three pegmatites: top 0.11 m wide with 1.10% Li<sub>2</sub>O at 31.95 m depth; middle 0.87 m wide with 1.01% Li<sub>2</sub>O at 34.53 m depth; lower 0.80 m wide at 0.55% Li<sub>2</sub>O at 37.58 m depth.
- Drill Hole MD22-07 Intersected 1.76 m wide pegmatite with average 4,375 ppm Li / 0.94% Li<sub>2</sub>O.
- Drill Hole MD22-08 Intersected two pegmatites: Upper 1.33 m wide with 1.49% Li<sub>2</sub>O at 36 m depth; and lower 0.93 m wide at 0.88% Li<sub>2</sub>O at 41.2 m depth.
- Drill Hole MD22-17 Intersected 0.3 m wide pegmatite with 1,080 ppm Li at 46.9 m depth.

## **About Eureka Lithium Corp.**

Eureka Lithium is the largest lithium-focused landowner in the northern third of Quebec, known as the Nunavik region, with 100% ownership of three projects comprising 1,408 sq. km in the emerging Raglan West, Raglan South and New Leaf Lithium Camps. These claims were acquired from legendary prospector Shawn Ryan and are located in a region that hosts two operating nickel mines with deep-sea port access.
