### NOTES TO THE CODENSED INTERIM FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED FEBRUARY 28, 2023

(Expressed in Canadian dollars)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Stearman Resources Inc. (the "Company") was incorporated in the Province of British Columbia on March 1, 2022 under the Business Corporations Act of British Columbia. The Company is focused on acquisition, exploration, and development of mineral properties in Canada. The Company's business office is located at Suite 170 422 Richards Street, Vancouver BC V6B 2Z4. On January 24, 2023, the Company's shares were listed on the Canadian Securities Exchange ("CSE") under the symbol "STMN".

These condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. As at February 28, 2023, the Company is not able to finance day to day activities through operations and has an accumulated deficit of \$181,511. The continuing operations of the Company are dependent upon its ability to obtain sufficient financing and the success of its exploration activities. This indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs with loans from directors and companies controlled by directors and/or issuance of common shares. If the Company is unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its statement of financial position.

#### 2. SUMMARY SIGNIFICANT ACCOUNTING

##### **Basis of preparation**

###### *Statement of compliance*

These unaudited condensed interim financial statements have been prepared in accordance with accounting policies consistent with International Financial Reporting Standards ("IFRS") IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The unaudited condensed interim financial statements, prepared in conformity with accounting policies consistent with IAS 34, follow the same accounting principles and methods of application as the most recent audited annual financial statements. Since the unaudited condensed interim financial statements do not include all disclosures required by the International Financial Reporting Standards ("IFRS") for annual financial statements, they should be read in conjunction with the Company's audited financial statements for the year ended August 31, 2022.

###### *Basis of measurement*

These unaudited condensed interim financial statements have been prepared on a historical cost basis, modified where applicable. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information. The unaudited condensed interim financial statements are presented in Canadian dollars, unless otherwise noted.

##### **Accounting Standards and Interpretations Issued but Not Yet Adopted**

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

**3. EXPORATION AND EVALUATION ASSET**

On March 11, 2022, the Company entered into an option agreement (the “Agreement”) with J2 Metals Inc. (the “Optionor”) to acquire a 75% interest in the mineral claims of the Miniac Property (the “Property”), located in Quebec, Canada. Pursuant to the Agreement, total consideration consists of the following:

<b>Date</b>	<b>Number of Shares</b>	<b>Cash Payments</b>	<b>Minimum Expenditures</b>
		\$	\$
Agreement Date	-	5,000(paid)	-
January 24, 2023 (“Listing Date”)	200,000(issued)	15,000(paid)	-

### 6. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue its operations and to maintain a flexible capital structure, which optimizes the costs of capital at an acceptable risk. The Company considers its capital for this purpose to be its shareholders' equity.

The Company's primary source of capital is through the issuance of equity. The Company manages and adjusts its capital structure when changes in economic conditions occur. To maintain or adjust the capital structure, the Company may seek additional funding. The Company may require additional capital resources to meet its administrative overhead expenses in the long term. The Company believes it will be able to raise capital as required in the long term but recognizes there will be risks involved that may be beyond its control. There are no external restrictions on the management of capital.

### 7. FINANCIAL INSTRUMENTS

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include interest rate risk, credit risk, liquidity risk, and currency risk and price risk. The carrying value of the Company's financial instruments approximates their fair value due to their short-term nature. Fair value measurements of financial instruments are required to be classified using a fair value hierarchy that reflects the significance of inputs in making the measurements. The levels of the fair value hierarchy are defined as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Inputs for the asset or liability that are not based on observable market data.

The fair values of other financial instruments, which include cash, accounts payable and accrued liabilities, and promissory notes approximate their carrying values due to the relatively short-term maturity of these instruments.

- a) Interest rate risk: Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates.
- b) Credit risk: Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash, which is held with a high-credit financial institution and amounts receivable from the Government of Canada. As such, the Company's credit exposure is minimal.
- c) Liquidity risk: Liquidity risk arises from the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements. The Company addresses its liquidity through equity financing obtained through the sale of common shares. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future.
- d) Currency risk: Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange. The Company has minimal exposure to foreign currency transactions during the three months ended February 28, 2023 and accordingly the risk is considered low.

The carrying value of Company's financial assets and liabilities as at February 28, 2023 and August 31, 2022 approximate their fair value due.
