Management's Discussion & Analysis

For the three month period ended June 30, 2023 and 2022

Dated August 28, 2023

Forward-Looking Statements

This Management's Discussion and Analysis ("MD&A") contains certain statements that may be deemed "forward-looking statements," within the meaning of certain securities laws. Forward-looking statements relate to management's expectations or beliefs about future performance, events, or circumstances that include, but are not limited to, reserve or resource potential, exploration and operational activities, and events or developments that the Company expects or targets. Forward-looking statements can usually be identified by words such as: "future", "plans", "scheduled", "expects", "intends", "estimates", "forecasts", "will", "may", "could", "would", and variations thereof. Although the Company believes that these statements are based on reasonable assumptions, all forward-looking statements involve known and unknown risks and uncertainties that may cause the actual performance, events, or circumstances of the Company to be materially different than anticipated. The forward-looking information in this MD&A describes the Company's expectations as of the date of this MD&A.

The results or events anticipated or predicted in such forward-looking information may differ materially from actual results or events. The Company and its operations are also subject to a large number of risks, including: the Company's liquidity and financing capability, fluctuations in gold prices, market conditions, results of current exploration activities, the possibility of a labor stoppage or shortage, delays in obtaining government permits and approvals and such other risks as discussed herein and in other publicly filed disclosure documents. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in such forward-looking statements, there may be other factors that cause performance, events, or circumstances to differ materially from those described in forward-looking statements. There can be no assurance that forward-looking statements will prove to be accurate. Accordingly, readers should not try to place undue reliance on forward-looking statements contained in this MD&A.

The Company cautions that the foregoing list of material factors is not exhaustive. When relying on the Company's forward-looking information to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. The Company has assumed a certain progression, which may not be realized. It has also been assumed that the material factors referred to in the previous paragraph will not cause such forward-looking information to differ materially from actual results or events. However, the list of these factors is not exhaustive and is subject to change and there can be no assurance that such assumptions will reflect the actual outcome of such items or factors.

Forward-looking statements are based on management's current plans, estimates, projections, beliefs, and opinions and Steadright does not undertake any obligation to update forward-looking statements should the assumptions related to these plans, estimates, projections, beliefs and opinions change, except as required by law.

PROPERTIES

Ram Property

Current events

During the three month period ending June 30, 2023, the Company's shareholders passed a special meeting resolutions which allowed the Company to purchase 94 additional claims, which are contiguous to the RAM Property in consideration of a payment to the seller of 2,100,000 common shares of the Company and also the payment to the seller of \$11,000 in staking costs. The common shares and the payment has not be fulfilled as of the date of filing this MD&A

During the three month period ended June 30, 2023, the Company expensed \$600 on the RAM property.

Summary

The Property is roughly 29 km southwest of Port-Cartier, Québec, Canada within NTS Map Sheet 22G14, with the following coordinates 637014mE / 5539084mN. Port-Cartier is a city in the Côte-Nord region of Québec. It is located on the north shore of the Saint Lawrence River at the mouth of the Aux-Rochers River, 63 km southwest of Sept-Îles, Québec.

Management's Discussion and Analysis For the three month period ended June 30, 2023 and 2022 (in Canadian dollars unless otherwise noted)	
---------------------------------------------------------------------------------------------------------------------------------------------------------------	--

The Property can be accessed by driving 18 km south of Port-Cartier along Route 138 (Rte. Jacques Cartier) and then turning northwest onto a series of logging roads and driving an additional 11 km to reach the Property. These logging roads provide access to the central portion of the Property. Port-Cartier has a variety of services, lodging and transportation. Sept-Îles has an airport located 89 km to the northeast of the Property.

Baie-Comeau, Québec was used as a jumping off point for the author's site visit. It is 128 km southwest of the Property through Route 138.

Exploration activities over the Property area have been carried out intermittently since the 1970s, and work has consisted of prospecting, geochemical sampling, mapping, trenching, drilling, and geophysical surveys.

Historical drilling carried out over the Ram Property has, reportedly, intersected consistent Ni-Cu-Co mineralization, including 35 DDH from the early 2000s which returned core assays of up to 0.15% Co, 2.2% Ni, and 1.2% Cu; surface samples which returned assays of up to 0.3% Co, 3.3% Ni, and 1.1% Cu; and trench samples which returned assays of up to 0.27% Co, 1.1% Ni, and 1.2% Cu.

B2 Optioned Mineral Claims

Current events

During the three month period ended June 30, 2023, the Company expensed \$nil on the B2 property.

During the 3 month period ending June 30, 2023 there was progress of the on-going initial independent NI 43-101 on the B2 mineral property, north of Saguenay Quebec. The final B2 Maiden NI 43-101 is expected to be completed by September 2023.

Summary

- Type of project : Grass Roots Ni-Cu-Co, Cu-Ag-Au, Fe
- Claims : 12
- Hectares : 670 (6.7 km²)
- The Property contains new showings for Ni-Cu-Co, Cu-Ag-Au that were discovered in August 2019
- The Property is located in the Saguenay-Lac-St-Jean region, Québec
- The property is easily accessed by well-maintained logging roads and forest trails from the KM92 of the Road Activity in the Area

Geology

The B2 Project is located in the core of the Lac-Saint-Jean Anorthosite Massif in the geological Grenville Province.

The B2 Project presents typical facies of Anorthosite Complex borders composed of anorthosite in contact with a package of anorthositic leuco-gabbro, gabbro-norite, norite and pyroxenite locally associated with dismembered, massive oxide layers (magnetite); the whole being injected along a mylonitic deformation zone by late monzogranitic pegmatites associated with pegmatitic quartz veins.

OUTLOOK AND STRATEGY

Steadright is focused on discovering quality critical minerals and expanding and converting its projects, all of which are located in Quebec. Steadright will use its systematic scientific and phase-based exploration program to advance all of its projects over the next few three month periods subject to obtaining the necessary permits. For the early projects, Steadright will take a first pass at target definition work consisting of soil and rock samples, mapping and some geophysics.

Summarized Financial Results

RESULTS OF OPERATIONS

Expenses

For the three month period ended June 30, 2023 and 2022:

Expenses of \$84,694 for the three month period ended June 30, 2023, increased in comparison with the expenses of \$73,407 for the three month period ended June 30, 2022. During the previous three month period, the Company primarily incurred consulting and professional fees as it brought together a land package and began exploration activities at its RAM Property.

- Exploration and evaluation expenditures increased from \$nil for the three month period ended June 30, 2022 to \$600 for the three month period ended June 30, 2023. The increase is due to the partial completion of exploration work on the Company's RAM Property.
- Consulting fees increased from \$8,750 for the three month period ended June 30, 2022 to \$47,084 for the three month period ended June 30, 2023. The increase is due to consulting fees relating to corporate management and operations as the Company increased its activity.
- Office and general expenses increased from \$6,745 for the three month period ended June 30, 2022 to \$14,429 for the three month period ended June 30, 2023. Costs during the period increased due to the increased office and administrative work at the corporate head office due to increased activity as the Company became active.
- Professional fees decreased to \$2,740 for the three month period ended June 30, 2023 from \$56,912 for the three month period ended June 30, 2022. The decrease is due to decreased activity in corporate and legal as the listing requirements have been completed.
- Promotion and travel expenses increased from \$1,000 for the three month period ended June 30, 2022 to \$18,841 for the three month period ended June 30, 2023. The increase is mainly in relation to an increase in travel to sites as well as corporate head office increased travel.

Management's Discussion and Analysis For the three month period ended June 30, 2023 and 2022 (in Canadian dollars unless otherwise noted)	
---------------------------------------------------------------------------------------------------------------------------------------------------------------	--

LIQUIDITY AND CASH FLOWS

The Company ended the three month period ended June 30, 2023 with cash of \$154,711, compared to \$218,608 as at March 31, 2023. The Company had a working capital (current assets – current liabilities) of \$128,590 as at June 30, 2023 compared to a working capital of \$212,829 as at March 31, 2023.

Cash used by operating activities was \$63,897 for the three month period ended June 30, 2023, compared to cash used by operating activities of \$90,377 for the three month period ended June 30, 2022. Cash flows used by operating activities decreased during the current three month period compared to the June 30, 2022 three month period, mainly due to an increase of administration and office expense activities on its listing procedure.

Cash flows provided by financing activities were \$nil for the three month period ended June 30, 2023, compared to \$132,410 for the three month period ended June 30, 2022.

It is not possible to predict if or when the Company will achieve profitable levels of operations. As at June 30, 2023, the Company had a working capital of \$212,829 (June 30, 2022 - \$351,052 and March 31, 2022 - \$159,221).

The financial statements have been prepared on a going concern basis. The going concern basis assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company incurred a net loss during the three month period ended June 30, 2023 of \$84,239 and an accumulated deficit of \$1,020,881.

The Company's ability to continue as a going concern is dependent upon attaining profitable operations, and, if required, the ability to raise funds through public equity financings to meet expenditure commitments. There is no assurance that these activities will be successful. The combination of the circumstances set out above represents a material uncertainty which may cast significant doubt upon the Company's ability to continue as a going concern. However, the Company is confident that it will have adequate resources to continue in operational existence for the foreseeable future. For this reason, the Company continues to adopt the going concern basis in preparing its financial statements. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used that would be necessary if the going concern assumptions were not appropriate. These adjustments would be material to the financial statements.

TRANSACTIONS WITH RELATED PARTIES

Compensation of Key Management Personnel of the Company

Key management personnel, including companies controlled by them, are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

The remuneration of directors and key executives is determined by the compensation committee.

Management's Discussion and Analysis For the three month period ended June 30, 2023 and 2022 (in Canadian dollars unless otherwise noted)	
---------------------------------------------------------------------------------------------------------------------------------------------------------------	--

The remuneration of directors and other members of key management personnel during the three month period ended June 30, 2023 and 2022 as follows:

	June 30, 2023	June 30, 2022
Short term employee benefits, director fees	\$ 41,359	\$ 11,750
	\$ 41,359	\$ 11,750

As at June 30, 2023, an amount of \$30,034 (March 31, 2023 - \$20,672) due to key management personnel, was included in accounts payable and accrued liabilities. This amount is unsecured, non-interest bearing and without fixed terms of repayment

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Financial Instruments and Other Instruments

The Company's financial instruments consist of cash and cash equivalents, and accounts payable and accrued liabilities. It is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments and that the fair values of these financial instruments approximate their carrying values.

Dividends

The Company has neither declared nor paid any dividends on its common shares. The Company intends to retain its earnings, if any, to finance growth and expand its operation and does not anticipate paying any dividends on its common shares in the foreseeable future.

RISK FACTORS

The Company's Board of Directors has overall responsibility for the oversight of the Company's risk management policies. In carrying on its business, the Company is exposed to a variety of risks, including the risks described elsewhere in this MD&A. The Company can neither predict nor identify all such risks nor can it accurately predict the impact, if any, of such risks on its business, operations or the extent to which one or more risks or events may materially change future results of financial position from those reported or projected in any forward looking statements. Accordingly, the Company cautions the reader not to rely on reported financial information and forward-looking statements to predict actual future results. The Company has policies and practices mandated by the Board of Directors to manage the Company's risks which include the risks described elsewhere in this MD&A and below.

The Company's business, being the acquisition, exploration, and development of mineral properties in Canada, is speculative and involves a high degree of risk. The risk factors listed on the annual report could materially affect the Company's financial condition and/or future operating results, and could cause actual events to differ materially from those described in forward-looking statements made by or relating to the Company.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

Financial assets and financial liabilities as at June 30, 2023 and March 31, 2023:

	Assets at fair value through profit of loss	Amortized cost	Other financial liabilities	Total
As at June 30, 2023				
Cash	\$ -	\$ 154,711	\$ -	\$ 154,711
Accounts payable and accrued liabilities	-	-	86,277	86,277
As at March 31, 2023				
Cash	\$ -	\$ 218,608	\$ -	\$ 218,608
Accounts payable and accrued liabilities	-	-	68,751	68,751

The Company classifies financial instruments in accordance with a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The carrying value of cash, and accounts payable and accrued liabilities approximate fair value because of the limited terms of these instruments.

SUBSEQUENT EVENTS

On May 23, 2023, the shareholders of the Company passed special meeting resolutions which allowed the Company to

- purchase 94 additional claims, which are contiguous to the RAM Property in consideration of a payment to the seller of 2,100,000 common shares of the Company and also the payment to the seller of \$11,000 in staking costs;
- sell its optioned B2 Mineral Claims in Saguenay-Lac-St-Jean Region of Québec, to Critical Foundation Metals Inc., which is a private Ontario company, for compensation of 6.2 million shares of Critical Foundation Metals Inc. and a cash payment of \$10,000.
- as of the date of filing the MD&A the issuance of 2,100,000 and the payment of \$11,000 for the RAM property has not been fulfilled and the sale of the B2 Minerals claims for 6.2 million shares of Critical Foundation Metals Inc. and the cash payment of \$10,000 has not been fulfilled.
