

MEMORANDUM OF UNDERSTANDING

The purpose of this agreement is to outline the mutual intent of Moss Genomics, Inc. ("Moss") and Accugene Co., Ltd. ("Accugene"), referred to jointly in this document as the "Parties", to enter negotiate a proposed business arrangement for consumer and clinical genomics, bioinformatic data analysis and women's health ecosystem development that includes, but is not limited to gut microbiome testing, personalized probiotics and research supported solutions. Hereby agreed and declared by and between the parties concerned hereto as follows:

Nature of Proposed Agreement

Parties enter into a partnership agreement to develop and operate DNA application and data analytic infrastructure for clinical and consumer market business. The activities are, including:

- Supply customized pre and probiotic supplements based on research and data shared between Moss and Accugene;
- Co-develop future customizable probiotic and gut health products;
- Share research, analytics and AI driven data associated with personalized gut health products;
- Supply sample collection kits and necessary packaging needed for customer;
- Refine current algorithm for personalized probiotics and health advice as needed as more data gets collected by both parties; and
- Co-develop various consumer market DNA applications implementation and user interface development.

Parties agree to enter this code development activities immediately and Moss and Accugene are responsible for leading co-development activities. Accugene provides existing gut microbiome analysis infrastructure and resources required to advance co-development. The additional resource required will be discussed and addressed by both parties. This agreement shall be governed construed and interpreted in accordance with the laws of British Columbia. In witness whereof the parties here to have caused this agreement to be executed by their duly authorized representatives.
