1. NATURE OF OPERATIONS AND GOING CONCERN

JKS Resources Inc. ("the Company" or "JKS") was incorporated under the Business Corporations Act of British Columbia on November 9, 2020. The Company is engaged in the exploration and development of mineral properties in Canada. The Company's head office is located at 1000 - 1055 West Hastings Street, Vancouver, BC, V6E 2E9.

These condensed interim financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. At February 29, 2024, the Company had accumulated losses of \$652,905 since its inception and expects to incur further losses in the development of its business. The continuation of the Company is dependent upon obtaining necessary financing to meet its ongoing operational levels of exploration and corporate overhead. Additional funds will be required to enable the Company to continue its operations and there can be no assurance that financing will be available on terms which are acceptable to the Company. These conditions indicate the existence of a material uncertainty that casts significant doubt as to whether the Company can continue as a going concern. These financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business. Such adjustments could be material.

2. BASIS OF PREPARATION

The Company's condensed interim financial statements have been presented in conformity with International Accounting Standard ("IAS") 34, Interim Financial Reporting. The condensed interim financial statements do not include all the information required for complete annual financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") and therefore should be read together with the audited financial statements for the year ended August 31, 2023.

The Company uses the same accounting policies and methods of computation as detailed in the Company's audited financial statements for the year ended August 31, 2023.

These financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value. In addition, these financial statements are prepared using the accrual basis of accounting, aside from cash flow information.

These financial statements were approved by the Board of Directors for issue on April 16, 2024.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

In preparing these condensed interim financial statements, the significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended August 31, 2023.

4. PREPAID

During the year ended August 31, 2023, the Company entered into a twelve-month investor relations agreement with Maynard Communication Inc., an arm's length party, to provide public relations, marketing and corporate and communication services for total fees of \$150,000. As at February 29, 2024, the full payment has been drawn down.

As at February 29, 2024, there is a rent deposit of \$3,331.

5. EXPLORATION AND EVALUATION ASSET

On January 8, 2021, as amended February 5, 2021 and November 9, 2021, the Company entered into an option agreement (the "Option Agreement") with Dorval Exploration Inc. ("Dorval"), to acquire a 100% interest in the Sowchea property (the "Sowchea Property"). The Sowchea Property is located in Fort St James in the Omineca Mining Division in the Province of British Columbia.

To fully exercise the option and acquire a 100% right, title and interest in and to the Sowchea Property, the Company is required to:

- Pay \$25,000 in cash within five business days of the execution of the Option Agreement (paid in January 2021);
- Pay \$25,000 and issue 200,000 common shares within five business days of the listing date (paid and issued in December 2022). 200,000 common shares were estimated to be \$27,000 based on the Company's stock trading price at the date of issuance;
- Pay \$25,000, issue 500,000 common shares and incur exploration expenditures of \$150,000 on or before 18 months after the listing date; and
- Issue 750,000 common shares and incur exploration expenditures of \$500,000 on or before 28 months after the listing date.

Pursuant to the Option Agreement, Dorval reserved a 1% gross over-riding royalty interest payable ("GORR"). The Company has the option at any time to purchase up to 0.5% GORR, by paying \$1,000,000 in cash to Dorval for the 0.5% GORR.

- b) **Issued and outstanding** – As at February 29, 2024, the Company had 22,170,000 (August 31, 2023 – 21,620,000) common shares issued and outstanding.
- c) **Financings**

Six months ended February 29, 2024

- The Company issued 550,000 common shares pursuant to the exercise of 550,000 options with an exercise price of \$0.10 per share for total gross proceeds of \$55,000. The share price on the date of exercise was \$0.35.

Six months ended February 28, 2023

- On November 30, 2022, the Company completed its initial public offering (the “IPO”) by issuing 6,500,000 common shares at a price of \$0.10 per share for total gross proceeds of \$650,000. In connection with the IPO, the Company agreed to pay the agent a cash commission equal to 10% of the proceeds and granted the agent an option to acquire 650,000 common shares of the Company at a price of \$0.10 per share until November 30, 2024. The agent’s options were valued at \$27,526 using the Black-Scholes pricing model, with the following assumptions: risk-free rate of 3.86%, expected life of 2 years, expected volatility of 74.20% and expected dividends of \$nil. Volatility was estimated by using the historical volatility of other companies in the same industry during a similar period. The Company paid \$36,750 to the IPO agent as a corporate finance fee (the “Agent Finance Fee”). Including the Agent Finance Fee, the Company incurred total share issuance cost of \$200,574
