Notes to the Condensed Interim Financial Statements (Expressed in Canadian dollars) (Unaudited) For the three month periods ended December 31, 2022 and 2021

1. Nature and Continuance of Operations:

Hercules Resources Corp. ("Hercules" or "Company") was incorporated on January 13, 2021 under the *Business Corporations Act* (British Columbia). On January 27, 2023 the Company became listed on the Canadian Stock Exchange ("CSE") trading under the symbol "HERC". The Company's registered office is located at #2080 – 777 Hornby Street, Vancouver, British Columbia, V6K 2A4.

The Company is engaged in the exploration of mineral properties and has not yet determined whether any of its properties contain economically recoverable reserves. To date, the Company has not earned any operating revenue and is in the exploration stage. The mining exploration business involves a high degree of risk. The recoverability of the amounts expended on mineral interests by the Company is dependent upon the existence of economically viable reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of its mineral properties and upon future profitable production or proceeds from disposition of its mineral interest.

These condensed interim financial statements have been prepared on the basis that the Company will continue as a going concern which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. As an exploration stage company, the Company has incurred net operating losses since inception and the ability of the Company to continue as a going concern depends upon its ability to raise adequate financing and to ultimately develop profitable operations.

Since incorporation, the Company has raised equity financing from investors and expects these funds to provide for its early stage exploration and working capital needs for the next twelve months. Additional fundraising may involve further private placements, convertible debentures, third party earn-ins or joint ventures using debt or equity financing structures, to ensure the continuation of the Company's operations.

There can be no assurances that the Company will be successful in raising additional cash to finance operations or that the continued support of shareholders will be available. These financial statements have been prepared using the going concern assumption, which assumes that the Company will continue in operation for the foreseeable future. The financial statements do not include any adjustments relating to the recoverability of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

Notes to the Condensed Interim Financial Statements (Expressed in Canadian dollars) (Unaudited)
For the three month periods ended December 31, 2022 and 2021

2. Basis of preparation:

(a) Statement of compliance:

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard IAS 34 – Interim Financial Reporting. The unaudited condensed interim financial statements, prepared in conformity with IAS 34, follow the same accounting principles and methods of application as the most recent audited annual financial statements. Since the unaudited condensed interim financial statements do not include all the disclosures required by the International Financial Reporting Standards ("IFRS") for annual financial statements, they should be read in conjunction with the Company's audited annual financial statements for the years ended September 30, 2022 and 2021.

(b) Basis of measurement:

These unaudited condensed interim financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are recorded at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for the cash flow information.

(c) Functional and presentation currency:

These unaudited condensed interim financial statements are presented in Canadian dollars, which are the functional currency for the Company.

(d) Use of estimates and judgments:

The preparation of these unaudited condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Significant judgments made by management in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the financial statements include capitalization of exploration assets and the application of the going concern assumption.

The MP Copper Project (the "Property") consists of 6 mineral claims situated 30 kilometers southeast of Prince George, British Columbia.

On March 18, 2021, the Company entered into an option agreement (the "Option Agreement") consisting of four mineral claims.

On March 19, 2021, the Company staked 2 additional mineral claims under the Option Agreement. These two additional mineral claims are contiguous to the original four claims optioned on March 18, 2021 and form a part of the Property pursuant to the Option Agreement.

The Option Agreement has the following terms:
