The increase in the three-month period ended April 30, 2023 compared to the January 31, 2023 is due to increased expenditures related to the completion of the initial public offering in February 2023. The increase in expenditures in the period ended January 31, 2023 compared to the periods ended October 31, 2022, July 31, 2022, and April 30, 2022 is due to increased corporate expenses incurred as a result of the preparation for the IPO. Expenditures in the period ended April 30, 2022 were reduced from the previous period due to reduced corporate activity and the completion of the mineral exploration program on the Pathfinder. Expenditures in the period ended January 31, 2022 reflect the commencement of corporate activities and the exploration program. The Company was incorporated in the quarter ended October 31, 2021 and incurred only start-up costs.

EXPLORATION AND PROJECTS

The principal asset of the Company is its option to acquire up to a 75% interest in the Pathfinder Property, a gold prospect.

Pathfinder Property

On August 26, 2021 the Company entered into an agreement to acquire up to a 75% interest in five mining claims in the Greenwood Mining Division, British Columbia with a company which shares common directors and a senior officer. To acquire a 51% interest, the Company issued 100,000 common shares (issued for \$2,000) and made a cash payment of \$5,000 (paid) to the optionor.

To earn a further 24% (for a total of 75%), the Company must pay the optionor \$10,000 on or before August 26, 2022 (paid), issue 100,000 common shares on or before six months from February 27, 2023, and incur aggregate exploration expenditures of \$200,000 of which \$75,000 must be incurred before August 26, 2022 (incurred) and \$125,000 on or before February 27, 2024 (incurred \$26,202 as at January 31, 2023). Should the Company not earn the additional 24% interest, the property will revert back to the optionor.

The property is subject to a net smelter return royalty of 2% payable to the optionor.

In February 2022, the Company remitted a \$15,700 bond to the Government of British Columbia to acquire a multi-year permit under the Mines Act which is valid until April 30, 2027.

The Property is located in the Greenwood Mining Division approximately 18 kilometres north of Grand Forks in the southern interior of British Columbia. The Property consists of three mineral claims covering an area of 296 hectares.

The Property is situated within the Boundary District which is a highly mineralization region which straddles the Canada-USA border. The area has historical past producing mines in Canada and the US.

An independent geological report (the "Technical Report") prepared by Linda Caron, M.Sc., P. Eng. who is a "Qualified Person" as defined in National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101"), was completed in relation to the Property on February 22, 2022. The Technical Report recommends that the Company conduct further data compilation and geophysical analysis and a surface exploration and trenching program.

Exploration Expenditures

Highrock has incurred the following exploration expenditures with regards to the Property that were capitalized as incurred to April 30, 2023:

| | |
|-------------------------------------|-------------------|
| Assays and testing | \$ 8,974 |
| Geological consulting | 15,285 |
| Reports and administration | 11,949 |
| Mapping and surveying | 63,955 |
| Travel, accommodation, and supplies | 1,439 |
| | <u>\$ 101,602</u> |

Future Plans

In relation to the Property, the Company currently plans to follow recommendations made in the Technical Report. The Technical Report recommends that the Company undertake a two-phase; \$355,000 program to further explore the property. The Phase 1 program (\$125,000) recommends additional soil geochemistry, mineralogical studies and 3D modelling in conjunction with detailed structural mapping. Phase 2 (\$230,000) includes diamond drilling to targets generated by the recommended Phase 1 program and is contingent on the results of the Phase 1 program.

RISKS AND UNCERTAINTIES

The Company's principal activity is mineral exploration and development. Companies in this industry are subject to many and varied kinds of risks, including but not limited to, environmental, metal prices, political and economical. The Company has no producing properties, no significant source of operating cash flow and consequently no sales or revenue from operations. The Company has either not yet determined whether its mineral properties contain mineral reserves that are economically recoverable or where reserves have been determined, mining operations have not yet commenced. The Company has limited financial resources. Substantial expenditures are required to be made by the Company to establish reserves.

The property interests in whom the Company has an option to earn an interest are in the exploration stages only, are without and may not result in any discoveries of commercial mineralization, and have no ongoing mining operations. Mineral exploration involves a high degree of risk and few properties, which are explored, are ultimately developed into producing mines, the result being the Company will be forced to look for other exploration projects. The Company

is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous materials and other matters.
