This provision will not apply to information which becomes part of the public domain if it does not become part of the public domain by the actions of a Party. This Section will survive the termination of this Agreement.

If the Acquiring Party is the Optionee, it will not be entitled to reimbursement of its costs of acquisition, and such acquisition costs will not qualify as a Qualifying Expenditure.

[Redacted: list of 110 mineral claims]

Schedule “B”
to
Property Option Agreement dated as of October 18, 2023
between Rush Rare Metals Corp. and Myriad Uranium Corp.

GUIDING PRINCIPLES FOR THE JV COMPANY

1.0 Purposes of JV Company: The purpose of the JV Company shall be the exploration, development and mining of any one or more commercially exploitable ore bodies on the Property, as determined appropriate by the Operator. The following terms and provisions shall serve as guiding principles for the operation of the JV Company along with additional terms and provisions to be negotiated once the Optionee has earned its initial undivided fifty percent (50%) interest in the Property by satisfying all conditions. Unless otherwise defined in this Schedule “B”, terms used herein with initial capitals shall have the meanings ascribed thereto in the Option Agreement to which this Schedule “B” is appended.

2.0 Interests in JV Company: The percentage interest in the JV Company shall be as follows, such that each Party shall be deemed to have contributed the following amounts to the JV Company:

- (i) the Optionee shall be deemed to have contributed an amount equal to its actual Qualifying Expenditures in accordance with Article 3 of the Option Agreement (the “**Actual Expenditures**”) on or prior to the date of the formation of the JV Company which will represent an undivided fifty percent (50%) interest or seventy-five percent (75%) interest, as the case may be, in the JV Company as of the formation date of the JV Company; and
- (ii) the Optionor shall be deemed to have contributed an amount which is the same proportion of the total amounts deemed to be contributed pursuant to this paragraph 2.0 as the Optionor’s interest in the Property on the date of the formation of the JV Company which will represent an initial undivided fifty percent (50%) interest or twenty-five percent (25%) interest, as the case may be, in the JV Company as of the formation date of the JV Company.

3.0 Not a Partnership: The association of the Parties in the JV Company shall not be, and shall not be construed to be, a mining partnership, a commercial partnership or any other partnership relationship.

4.0 Operator: The Optionee shall be the initial operator of the JV Company (the “**Operator**”) and shall continue to be the Operator during the Second Option Period.

If the Second Option Period expires without the Optionee successfully exercising the Second Option, so that the interests of the Parties in the JV Company are fifty per cent (50%) per Party, then the Parties shall commence a “shotgun” procedure under which the successful Party will acquire an additional one per cent (1%) interest in the JV Company (for an aggregate interest of fifty-one percent (51%) for such Party), and such Party shall be the Operator of the JV Company following completion of such “shotgun” procedure.

If at any time the interest of the Party acting as Operator falls below fifty per cent (50%) pursuant to the terms of the JV Company Constituent Documents, the Party with the greatest interest shall become the Operator.

The Operator shall have all rights, duties and obligations which are usually and customarily given to or necessary or requisite for the operator of a mining joint venture, so as to be able to carry on its role as the

operator of the JV Company, including the exploration and development of the Property, bringing a mine into commercial production and operating the same. The Operator shall be entitled to charge to the joint account of the JV Company the following:

- (i) as a direct charge, all the proper costs and expenditures relating to the operations thereof, including, without limiting the generality of the foregoing, salaries, wages and employee benefits, customary allowances and reasonable living expenses paid to employees directly engaged in the conduct of such operations;
- (ii) as an indirect charge, in compensation for the *pro rata* portion of the Operator's home office overhead and general and administrative expenses attributable, but not directly chargeable, to the conduct of such operations, the following amounts:
 - A. ten percent (10%) of the direct charges referred to in subparagraph (i) above, plus
 - B. ten percent (10%) of the cost of all outside services, including without limiting the generality of the foregoing, surveying, drilling, earth moving, contract mining and feasibility studies, up to the first \$50,000 on a single contract and five percent (5%) for the balance of each such contract; provided that there shall be no duplication of charges under subparagraphs A and B and provided further that costs incurred because of damages or losses and costs for the services of outside legal counsel shall not be included as indirect charges.

The Parties agree that: (a) the indirect charges in A and B above are intended to compensate the Operator for its home office overhead and general and administrative expenses incurred in managing the operations and are not intended to result in net profit to the Operator; and (b) agree to amend the foregoing rates from time to time if they are found to be insufficient or excessive, determined by the mutual agreement of the Parties, acting reasonably.

Should a mine be brought into commercial production and operation, the Operator shall be entitled to a management fee, which shall be a reasonable fee commensurate with accepted customary or usual practice in the industry for an operation of that kind and shall be subject to change from time to time depending on how onerous the duties and obligations of the operator are. In the event that the Parties are unable to agree on the amount and structure of such management fee, the determination of same shall be referred to arbitration in accordance with the Option Agreement or the formal agreement evidencing the JV Company if a formal agreement is executed and delivered.

5.0 Indemnification of Operator: The Operator shall not be liable to the Parties or to the JV Company for any loss or damage not attributable to its gross negligence or wilful misconduct. The Parties to the JV Company shall, in proportion to their respective participating interests in the JV Company, determined as of the time of such indemnification, indemnify and hold harmless the Operator against any liability to third parties resulting from any act or omission of the Operator or its agents, servants or employees.

6.0 Programs and Budgets: The Operator shall have the right to propose programs for exploration and, if a mine is being developed and operated, for the carrying out of all phases of such development and operations, including the construction of plant and facilities. All programs shall contain a reasonably itemized budget of the projected expenditures under such programs, including, without limiting the generality of the foregoing, exploration expenditures, development and capital costs and operating expenditures in relation to the Property. The Optionor and the Optionee shall contribute their proportionate share of each expenditure (based on their respective participating interests at the time of any particular expenditure) at such times as requisitioned by the Operator. Such requisitions shall be made on the basis

of invoices in respect of such expenditures, provided that in the case of known expenditure requirements such requisitions may be made reasonably in advance of requirements.

7.0 Dilution of Interest: Payment of each requisitioned amount pursuant to Paragraph 6.0 shall be made within 30 days after receipt of a written notice from the Operator requesting such payment (each a “**Requisition Request**”). Either Party may decline to pay its proportionate share of the expenditures requisitioned by the Operator pursuant to any particular Requisition Request. If a Party (the “**Defaulting Party**”) fails to pay its share of a requisitioned amount within such 30-day period, it may not pay such share thereafter (without the other Party’s prior consent) and it shall not have the right to contribute its proportionate share of the expenditures during the balance of the particular program in which such failure occurred. The other Party (the “**Continuing Party**”) shall contribute the Defaulting Party’s share during the balance of the program in question. In each case, immediately after each such contribution is made, the Parties’ respective participating interests in the JV Company shall be calculated using the following formula:

$$\text{Participating interest of a Party} = \frac{A \times 100}{B}$$

Where:

A = total of all requisitioned amounts paid by such Party plus a deemed initial contribution of \$1,500,000 or \$5,500,000, as the case may be, in the case of the Optionee, and \$1,500,000 or \$1,833,333, as the case may be, in the case of the Optionor

B = total of all requisitioned amounts paid by the Parties plus \$3,000,000 or \$7,333,333, as the case may be

The reduction in the Defaulting Party’s participating interest shall continue from time to time until it is equal to ten percent (10%). Thereupon the joint venture formed under the JV Company Constituent Documents shall terminate and all of the participating interest of the Defaulting Party shall vest in the Continuing Party. From and after the date on which the Defaulting Party’s participating interest has terminated, the Defaulting Party shall be entitled to receive a one percent (1%) Net Smelter Royalty payment. Notwithstanding the termination of the joint venture, the Defaulting Party shall not be relieved from its proportionate share (determined on the basis of its participating interest from time to time) of all obligations and liabilities of the JV Company due or accruing due prior to the date of termination, including without limitation, in respect of unfunded decommissioning and shut down costs and expenses, all required investigation, clean-up, reclamation, restoration, and rehabilitation and monitoring costs and other corrective or mitigating measures pursuant to Applicable Laws.

8.0 Right to Maintain Interest: If, after the completion of a program during which a Defaulting Party failed to pay its proportionate share of any expenditures, subsequent programs are proposed and carried out, the Defaulting Party shall have the right to maintain its reduced participating interest (if more than ten per cent (10%)) by paying its proportionate share of the subsequent programs based on such reduced interest, in accordance with the provisions of paragraph 6.0 of this Schedule “B”.

9.0 Government Assistance Excluded: If funds provided by any government grants or assistance programs are used to pay expenditures of the JV Company, such funds shall not be taken into account as part of the expenditures to which the Parties must contribute their proportionate share under the provisions of paragraph 6.0 of this Schedule “B”.

10.0 Mortgage of Property: The Parties, each acting reasonably, shall have the right to make any decision with respect to mortgaging, pledging, charging or hypothecating all or any part of the Property to secure any loan or loans obtained for the purpose of financing the JV Company and to negotiate a loan or loans on such terms and with such lenders as the Parties mutually determine appropriate. The Parties shall mortgage, pledge, charge or hypothecate their respective interests in the Property in order to facilitate such financing. Other than as aforesaid, none of the Parties shall have the right to mortgage pledge, charge or hypothecate its interest in the Property.

11.0 Technical Committee: A Technical Committee shall be established for the purpose of formulating policy guidelines, communicating and exchanging ideas and information. The Technical Committee shall have regular meetings at regular intervals as agreed by the Parties. In addition, either Party may at any time call a special meeting to discuss any item considered to be sufficiently important. Each Party may designate two representatives to be members of the Technical Committee, with alternates. The Operator shall put before the Technical Committee all budgets and exploration and development programs it proposes to implement and the Technical Committee shall consider the same; provided, however, that the powers of the Technical Committee shall be those of persuasion only and it cannot override, supersede or alter the decisions of the Operator with respect to the operation of the JV Company.

12.0 Second Option: If the JV Company is formed and the JV Company Constituent Documents are executed and delivered during the Second Option Period, the JV Company Constituent Documents shall include the terms and conditions in this Agreement respecting the Second Option.

13.0 Prefeasibility Study or Preliminary Economic Assessment: If the JV Company is formed and the JV Company Constituent Documents are executed and delivered prior to the completion of a Prefeasibility Study or Preliminary Economic Assessment respecting the Property, the JV Company Constituent Documents shall include the terms and conditions in this Agreement respecting the Optionee's obligation to issue an additional \$2,500,000 worth of Shares to Optionor or its nominee(s) upon such completion.

14.0 Additional Fair Market Value Option: The JV Company Constituent Documents shall include terms and conditions providing the Optionee with the additional option, following the successful exercise of the Second Option, to earn an additional twenty-five percent (25%) interest (for a total interest of one hundred percent (100%)) in and to the Property at fair market value at the time of exercise of such option, such fair market value to be determined (a) by agreement in writing by the Parties, each Party acting reasonably, of such fair market value; or (b) if the Parties cannot agree in writing to such fair market value, by an independent valuator, such valuator mutually selected by the Parties, each acting reasonably.

15.0 Net Profit Interest: The JV Company Constituent Documents shall include terms and conditions providing the Optionor with a net profit interest of fifty percent (50%) of the initial \$50,000,000 in "Net Profits" from the Property (the "NPI"), with "**Net Profits**" being the gross cash income from the Property less all *bona fide* expenses incurred to produce such income, as further specified in the JV Company Constituent Documents. The NPI will be assignable with written notice by the Optionor to the Optionee. Any sale, transfer, assignment or other disposition in whole or in part by the Optionee of its interest in the Property to any person (a "**Transferee**") shall be subject to the Transferee entering into a written assignment and assumption agreement with the Optionor, or any other applicable holder of the NPI at such time (in either case, the "**NPI Holder**"), whereby the Transferee agrees to assume and undertake the obligations of the NPI as set out herein. The NPI Holder will have inspection rights to inspect all accounting records used to calculate the NPI and will have audit rights whereby, at any time, it may insist that the Optionee or Transferee, as applicable (the "**NPI Payor**"), audit the accounts used to calculate the NPI for any period. The NPI Payor agrees to create a royalty account comprised of, among other things, pre-production expenditures, operating losses, capital expenditures and interest charges.

The JV Company Constituent Documents shall include terms and conditions providing the Optionee with the option to repurchase the NPI at fair market value at the time of exercise of such option, such fair market value to be determined (a) by agreement in writing by the Parties, each Party acting reasonably, of such fair market value; or (b) if the Parties cannot agree in writing to such fair market value, by an independent valuator, such valuator mutually selected by the Parties, each acting reasonably.

16.0 JV Company Constituent Documents: The Parties shall negotiate in good faith and use commercially reasonable efforts to execute and deliver the JV Company Constituent Documents governing and containing more detailed provisions on the operation of the JV Company, but preserving the principles herein contained, provided that until such agreement is executed and delivered, or if no such agreement is executed and delivered, the provisions herein contained shall be enforceable against the Parties and shall govern the operations of the JV Company.
