## 1. Entity information

Rush Rare Metals Corp. ("Rush" or the "Company") was incorporated on October 28, 2021, under the *Business Corporations Act (British Columbia)*. The Company's registered and records office is located at #600 -1090 West Georgia Street, Vancouver, British Columbia.

The Company is an early-stage entity focused on exploration of mineral sites with a view of commercialization. The Company has acquired the rights to mineral exploration properties within the Province of Québec in Canada and the State of Wyoming in the United States (Note 4). Effective January 26, 2022, the Company's shares trade on the Canadian Securities Exchange ("CSE") under the symbol "RSH".

# 2. Basis of presentation

#### (a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and with the interpretations of the International Financial Reporting Standards Interpretations Committee ("IFRIC").

The condensed consolidated interim financial statements for the three months ended September 30, 2024, were authorized for issuance by the Company's board of directors on November 25, 2024.

# (b) Basis of preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments at fair value through profit or loss ("FVTPL") which are measured at fair value.

# (c) Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary. The Company's subsidiary is an entity controlled by the Company, and the Company has power over the entity through its exposure and rights to variable returns from the subsidiary. The results of the Company's wholly owned subsidiary, Rush Uranium Wyoming LLC. are included in these condensed consolidated interim financial statements. The financial statements of the Company's subsidiary are prepared for the same reporting period as the Company and all intercompany transactions and balances have been eliminated.

## (d) Going concern

The Company is in the process of exploring its mineral property interests and has not yet determined whether they contain mineral reserves that are economically recoverable. The Company's continuing operations and the underlying value and recoverability of the amounts shown for the investment in its mineral property interests is entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the investment in these properties, obtaining the necessary permits to mine, and on future profitable production or proceeds from the disposition of the mineral property interest.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Several adverse conditions cast significant doubt on the validity of this assumption. The Company has incurred a net loss during the three months ended September 30, 2024, of \$8,513, has accumulated losses of \$1,154,632 since incorporation, has limited resources, no sources of operating cash flow and no assurances that sufficient funding will be available to continue operations for an extended period of time.

The application of the going concern concept is dependent upon the Company's ability to satisfy its liabilities as they become due and to obtain the necessary financing to complete the exploration and development of its mineral property interests, the attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interests. Management may seek to raise the necessary capital to meet its funding requirements. There can be no assurance that management's plan will be successful. These material uncertainties cast significant doubt about the Company's ability to continue as a going concern.

If the going concern assumption were not appropriate for these condensed consolidated interim financial statements, then adjustments may be necessary to the carrying value of assets and liabilities, the reported expenses, and the condensed consolidated interim financial position classifications used. Such adjustments could be material.

#### (e) Functional and presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiary. All financial information has been rounded to the nearest dollar except where otherwise indicated.

## (f) Use of estimates and judgments

The presentation of condensed consolidated interim financial statements in accordance with IFRS requires management to make estimates, judgments and assumptions that affect the Company's accounting policies to facilitate the reporting of the Company's assets, liabilities, and expenses during the period.

Estimates and related assumptions are reviewed regularly, on an ongoing basis, and revisions to such estimates are recognized prospectively in the period of revision.

Areas in which management has made critical judgment in the process of applying its accounting policies that have the most significant effect on the amounts recorded in the Company's condensed consolidated interim financial statements include the determination of the Company's functional currency and the ability of the Company to continue as going concern.

Information about key assumptions and estimation uncertainty that has a significant risk of resulting in a material adjustment to the carrying amounts of the Company's assets and liabilities within the next financial year are referenced in the notes to the Company's audited financial statement as of June 30, 2024 as follows:

- Note 2(d): The assessment of the Company to continue as a going concern;
- Note 3(b): Estimates of the measurement, valuation and period of use of the Company's mineral property interests;
- Note 3(e): Estimates of Black-Scholes Model inputs to estimate the value of the Company's share-based payment transactions;
- Note 3(f): Estimates and assessment of the recoverability of unused tax losses and deductible temporary differences.

## 3. Material accounting policies

The Company did not adopt any new material policies during the period ended September 30, 2024. The accounting policies applied in the preparation of the unaudited condensed consolidated interim financial statements are consistent with those disclosed in the Company's audited financial statements for the year ended June 30, 2024.

The Company's accounting policies have been consistently applied to all periods presented, unless otherwise stated.

#### 4. Other receivables

Below is the summary of the Company's receivables at September 30, 2024, and June 30, 2024:

	September	June 30,

Balance, September 30, 2024	\$ 20,000	283,852	303,852

#### (a) Boxi property

On November 8, 2021, the Company entered into an asset purchase agreement (the "Boxi Agreement") to acquire the rights, title and all interest in ten (10) mineral claims, located in the Province of Québec (the "Boxi Property"). The Company acquired the Boxi Property for 1,000,000 common shares which were valued at \$20,000. The Company subsequently augmented the Boxi Property by staking an additional 148 claims.

## (b) Copper Mountain property

On May 8, 2022, the Company entered into an assignment and assumption agreement (the "Copper Mountain Assignment Agreement"), pursuant to which the Company assumed the obligations as buyer under a project sale agreement dated as of April 8, 2022 (the "Copper Mountain Sale Agreement") to purchase ten (10) mineral claims located in the State of Wyoming (the "Copper Mountain Property").

The Company subsequently augmented the Copper Mountain Property by staking an additional 100 claims. The Company acquired the Copper Mountain Property for \$323,933 (USD \$250,000). The Company incurred in staking costs of \$36,027 for the additional mineral claims added during the period ended June 30, 2022, in addition to an ongoing annual payment along with royalty payments on revenue earned on the property (Note 7). Additionally, the Company entered into an agreement to issue 900,000 finder's units associated with the acquisition of the Copper Mountain Property, with each unit comprising one (1) common share of the Company and one share purchase warrant exercisable to purchase one share at an exercise price of \$0.20 for two years from grant date (Note 7(b) and (d)). The Company capitalized \$18,000 representing the fair value of the common shares and \$2,643 representing the fair value of the warrants. The Company incurred staking costs of \$136,204 for the additional mineral claims added during the year ended June 30, 2023.

In 2024, the Company augmented the Copper Mountain Property through staking and through a mining lease. Minerals produced from portions of the leased area attracts a flat 1% to 3% royalty on net returns, depending on the particular location of the mineral production.

On October 18, 2023, the Company entered into property option agreement (the "Option Agreement") with Myriad Uranium Corp. ("Myriad"), under which Myriad has the option to earn up to a 75% interest in and to the Copper Mountain Property, which now covers 4,206 acres.

Under the Option Agreement, Myriad has the option to acquire an initial 50% interest in the Property by: (1) making an initial cash payment of \$100,000 to Rush (received) and issuing 576,209 common shares (received, Note 6) of Myriad (each, a "Share") to Rush on the date of execution (the "Effective Date") of the Agreement; (2) making an additional cash payment of \$35,000 to Rush (received) on the date which is 90 days from the Effective Date; (3) issuing an additional \$150,000 worth of Shares to Rush on or before the date which is one year from the Effective Date (issued); (4) issuing an additional \$250,000 worth of Shares to Rush on or before the date which is two years from the Effective Date (issued); and (5) within two years of the Effective Date, making expenditures of no less than \$1,500,000 on the Property (completed). As of October 25, 2024, Myriad has successfully exercised its option to acquire an initial 50% interest in the Copper Mountain Property (see Note 11 – Subsequent Events).

On successfully earning a 50% interest in the Property, Myriad will have the option to acquire an additional 25% interest (for a total interest of 75%) in the Property by making additional expenditures of no less than \$4,000,000 (for total expenditures of no less than \$5,500,000) on the Property within four years of the Effective Date. In addition, upon completion of a Prefeasibility Study or Preliminary Economic Assessment respecting the Property, Myriad is obligated to issue an additional \$2,500,000 worth of Shares to Rush.

Upon Myriad successfully earning an initial 50% interest in and to the Property, Myriad may elect to trigger the formation of a joint venture for the purposes of the continued exploration, development and exploitation of the Property, and if Myriad so elects then the parties will use their reasonable commercial efforts to negotiate, execute and deliver a joint venture agreement which shall include such terms and conditions normally provided for in commercial transactions of such nature that are mutually acceptable to the parties including without limitation: (i) the operator of the joint venture from time to time; (ii) Myriad's right to earn an additional 25% interest (for a total interest of 75%) in and to the Property; (iii) Myriad's potential right to earn an additional 25% interest (for a total interest of 100%) in and to the Property at fair market value; and (iv) a 50/50 split of the initial \$50,000,000 in net production proceeds from the Property, or an alternative structure that is economically equivalent, following commencement of commercial production. The CFO of the Company is also the CFO of Myriad Uranium Corp.

#### 6. Investment

The Company recorded the shares received from Myriad related to the Option Agreement (Note 5) as investments on the condensed consolidated interim statement of financial position. Investments are classified at fair value through profit and loss. The 576,209 common shares were originally recorded at \$97,955 on the date of the transaction, being the fair value on the date of receipt of the shares. At September 30, 2024, the investment in Myriad was re-valued at \$201,673. The Company recorded an unrealized change in fair value, resulting in a gain of \$57,621 for the three months ended September 30, 2024.

## 7. Share capital

# (d) Per share amounts

The weighted average number of common shares outstanding for the three months ended September 30, 2024, was 41,540,249 (2023 – 37,496,087). Effects of dilution from 3,914,000 options and 4,326,099 warrants were excluded from the calculation of weighted average shares outstanding for the three months ended September 30, 2024, for diluted loss per share as they are anti-dilutive. There were no dilutive instruments outstanding as at September 30, 2023.

## 8. Related party transactions

The Company's related parties include its Board of Directors, Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), who are key management personnel, having the authority and responsibility for planning, directing and controlling the activities of the Company.

During the three months ended September 30, 2024, the Company recorded general and administrative fees of \$4,500 (2023 - \$4,500) to a close family member of the Company's CEO. As of September 30, 2024, there was \$1,666 payable to this individual (September 30, 2023 - \$nil).

During the three months ended September 30, 2024, the Company recorded general and administrative fees of \$15,000 to the Company's CEO (2023 –\$10,000). As of September 30, 2024, there was \$7,827 payable to the CEO (September 30, 2023 - \$nil).

During the three months ended September 30, 2024, the Company recorded general and administrative fees of \$7,500 to the Company's CFO (2023 –\$7,500). As of September 30, 2024, there was \$2,625 payable to the CFO (September 30, 2023 - \$nil).

During the three months ended September 30, 2023, the Company entered into a debt settlement agreement with a director of the Company, pursuant to which the Company issued 800,000 common shares of the Company to settle debt incurred for the provision of geological consulting services provided by the director to the Company totalling \$42,000.

The above transactions with related parties are in the normal course of business and have been measured at the exchange amount, which is the consideration agreed to between the related parties.

#### 9. Financial instruments

#### (a) Financial assets and liabilities

The following table summarizes the carrying value at fair value of the Company's financial instruments as at September 30, 2024, and June 30, 2024:

#### (b) Risks arising from financial instruments and risk management

The Company's activities expose it to a number of financial risk including market risk, credit risk and liquidity risk. The Company's management are responsible for identifying, evaluating, and when appropriate, mitigating financial risks.

#### (i) Market risk

Market risk is the risk in which loss may arise from changes in the market environment, including but not limited to, interest rates, foreign exchange rates, and price risk of equity prices.

#### (ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in the market interest rates. The Company does not have any interest-bearing debt and is not exposed to interest rate risk.

#### (iii) Foreign exchange risk

Foreign exchange risk is the risk that the fair value of future cash flows for foreign denominated financial instruments will fluctuate due to changes in foreign exchange rates. The Company does not have any foreign denominated financial instruments and is therefore not exposed to foreign exchange risk.

## (iv) Equity price risk

Equity price risk is a risk of potential loss to the Company due to changes in individual equity prices or general movements in stock markets. The Company is exposed to changes in equity price changes in its shares held of Myriad Uranium Corp.

#### (v) Credit risk

Credit risk is the risk of loss to the Company if a counterparty to a financial instrument is unable to meet its contractual obligations and arises from the Company's cash. The carrying values of the Company's financial assets represent the Company's maximum credit exposure. The Company limits its credit exposure through the placement of its cash with high-quality financial institutions and believes that, as a result, it does not have significant credit risk on its cash balance. Credit risk is assessed as minimal.

## (vi) Liquidity risk

Liquidity risk represents the risk that the Company will be unable to meet its financial obligations as they become due. The Company manages liquidity risk by closely monitoring its forecasted cash needs in addition to its current obligations. The Company's accounts payable and accrued liabilities are due within the current operating year. Liquidity risk is assessed as high.

# (vii) Capital management

The Company's capital consists of its cash and equity. The Company manages its capital structure and adjusts according to the funds available to the Company, to sustain its operations. The Company's board of directors does not establish quantitative return on capital criteria for the Company's management but relies on the expertise of Company's management to advance future development of the Company. Additional funds will be required to advance the

Company's business. Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable for an entity of its size.

## (viii) Determination of fair value

A number of the Company's accounting policies require the determination of fair value for financial and non-financial assets and liabilities.

The Company follows the guidance of IFRS 13, Fair Value Measurement, which establishes a fair value hierarchy that reflects the significance of the inputs used in measuring fair value. The fair value hierarchy has the following levels:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable;
- Level 3 Unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions about the assumptions that market participants would use in pricing.

Fair values have been determined for measurement and disclosure purposes based on the models described below. When applicable, further information about the assumptions made in determining the fair value is disclosed in the note specific to that asset or liability.

The Company's cash, and cash equivalent and investments are carried at fair value based on Level 1 inputs and the carrying value of other receivables and accounts payable approximates to its fair value due to their short-term nature.

#### 10. Commitments

As of September 30, 2024, the Company had the following commitments:

- Pursuant to the Copper Mountain Assignment Agreement, an annual payment of US\$25,000 to be divided equally between the vendors of the Copper Mountain Property, due on or before April 8th of each year (last paid April 2024); and
- Pursuant to the Copper Mountain Assignment Agreement, a net smelter return ("NSR") royalty on production of 2.5% (the "Royalty") of the sales value on any yellowcake sourced on or from the project area.

In addition, pursuant to a lease agreement dated as of April 9, 2024, respecting certain claims comprising the Copper Mountain Property, minerals produced from portions of the leased area attracts a flat 1% to 3% royalty on net returns, depending on the particular location of the mineral production.

## 11. Subsequent Events

On October 28, 2024, the Company's earn-in partner on the Copper Mountain uranium property in Wyoming, Myriad Uranium Corp., exercised its option to acquire an initial 50% interest in Rush's Copper Mountain Project under the property option agreement between Rush and Myriad dated October 18, 2023.

In conjunction with Myriad's exercise of the option, Myriad issued to Rush an aggregate of 1,093,702 Myriad common shares, having an aggregate value of \$400,000, representing a deemed price per share of approximately \$0.365, calculated based on the 10 day value-weighted average price of Myriad's common shares, as stipulated in the option agreement. Pursuant to applicable securities laws, the Shares are subject to a hold period of four months and a day expiring February 26, 2025.

Subsequent to September 30, 2024, a total of 58,438 warrants at an exercise price of \$0.10 were exercised for cash proceeds of \$5,844.
