NI 43-101 Technical Report Info

Phillips Township Gold Property, Kenora Mining Division, Ontario, Canada. The following information regarding the Property is summarized or extracted from the Technical Report authored by the Authors in accordance with the requirements of NI 43-101. The Authors are each a "qualified person" within the meaning of NI 43-101. All photo, figure and table references herein are numbered in accordance with the Technical Report available on the Issuer's SEDAR profile at www.sedarplus.ca

Property Description and Location

The Phillips Township Gold Property is located some 13.0 to 20.0 kilometres north of Nestor Falls, Ontario and access is by the all-weather paved Trans Canada Highway (Hwy #71) which runs through the centre of Property in a north-south direction. Highway #71 is accessed by the Trans Canada Highway #17 in the north from Winnipeg Kenora-Sioux Narrows route east and south which is 324 km or by Trans-Canada Highway #1 in the south from Thunder Bay-Fort Frances-Emo-Rainy River route which is 460 km. A major power line also crosses the Property in a north-south direction. Good local infrastructure, manpower, heavy duty equipment, hospital and local services are also nearby.

Property Particulars

Gold was first discovered on the Property during the 1894 gold rush and first worked on and off until 1905. It is comprised of eight (8) separate mineralized showings with five having seen most of the work. They are the Combined, Mascotte, Trojan Mine, the Boulder, and the Young's Bay Occurrences. Three new gold discoveries were made in 1970's and in 1999 namely the OGS, Terrell and Kuluk gold showings respectively.

All eight (8) of the occurrences have been defined by surface sampling. Shafts and/or adits and trenches are present on five (5) and only two have been previously drilled. Visible gold within the quartz veins was recorded historically from the Combined, Mascotte, Boulder and Young's Bay Gold Occurrences. It is the first time that all these gold occurrences are part of a single property and therefore a more comprehensive and systematic exploration programme using modern exploration techniques will now be possible.

The exploration program on the Property is expected to be conducted in the spring of 2024, depending on the weather and subject to various risks set. Notwithstanding the Issuer's estimate as to when the recommended exploration program on the Property will occur, future COVID-19 pandemics, war may occur and result in travel bans, closure of assay labs, work delays, and difficulties for contractors and employees getting to and from the Property. These difficulties could subsequently divert the attention of management, which in turn could have a negative impact on the Issuer's ability to implement the recommended work program for the cost, and in accordance with the timeline, estimated by the Issuer.

The Issuer is engaged in the business of mineral exploration and the acquisition of mineral property assets in Canada. Its objective is to locate and develop economic precious and base metal properties of merit and to conduct its exploration program on the Phillips Township Gold Property. Further to these objectives, the Issuer entered into the Property Option Agreement pursuant to which it is entitled to earn an undivided 100% interest in the Phillips Township Gold Property, subject to the Optionors Royalty. The Issuer intends to fund the exploration of the Phillips Township Gold Property and its initial commitments thereon using the proceeds of its prior private placement financing and its initial public offering.

Other Property

The Issuer also holds an option to acquire a 100% interest in the Fulford Township Property, and will continue to meet its requirements under the Fulford Option Agreement. The Fulford Township Property will not be the focus of the Issuer's business activities over the next 12 month period.

Future Performance

The Company's future performance and financial success is largely tied to the success of its exploration and development activities. The development of assets may take years to complete and the resulting income, if any, is difficult to determine with any certainty. The Company lacks mineral reserves and to date has not produced any revenues. The sales value of any minerals discovered by the Company is largely dependent upon factors beyond its control, such as the market value of the commodities produced. Current global economic conditions and financial markets are volatile and are likely to be so for the foreseeable future, reflecting ongoing concerns about the global economy and possible future COVID 19 outbreaks. This affects the mining industry, and, as it relates to the Company, affects the availability of equity financing for the purposes of mineral exploration and development.

As a result, the Company may have difficulties raising equity financing for the purposes of mineral exploration, development and property acquisitions, particularly without excessively diluting the interests of its current shareholders. With continued market volatility expected, the Company's current strategy is to continue exploring its properties and to seek out other prospective project opportunities. The Company believes this focused strategy will enable it to meet the near-term challenges presented by the capital markets while maintaining momentum on key initiatives. The Company regularly monitors economic conditions and estimates their impact on the Company's operations and incorporates these estimates in short-term operating and longer-term strategic decisions.

Off-Balance-Sheet Arrangements

As of the date of this filing, the Company does not have any off-balance-sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company, including, and without limitation, such considerations as liquidity and capital resources.

Environmental Contingency

The Company's exploration activities are subject to various government laws and regulations relating to the protection of the environment. These environmental regulations are continually changing and generally becoming more restrictive. As of October 31, 2023, the Company does not believe that there are any significant environmental obligations requiring material capital outlays in the immediate future.

Discussion of Operations

During the year ended April 30, 2024, the Issuer reported \$nil (2023 - \$nil) revenue and a loss and comprehensive loss of \$991,615 (period from incorporation on August 29, 2022 to April 30, 2023 - \$97,681).

Loss per share	\$0.05	\$0.01	\$0.01	\$0.01	\$0.01	\$0.01	\$0.01	N/A

Fourth Quarter Results

The variability of \$541,884 net loss during the 4th quarter results is mainly due to all the costs involved in the company preparing for an IPO and getting listed on the CSE. The costs involved legal expenses from the company's lawyer and the agent's lawyers, geological costs to update the 43-101 report, accounting and auditing, transfer agent, CSE and Securities Commissions costs, etc.

Liquidity and Financial Resources

The activities of the Company, principally the acquisition and exploration of mineral properties, are financed through the completion of equity transactions such as equity offerings. There is no assurance that equity capital will be available to the Company in the amounts or at the times desired or on terms that are acceptable to the Company, if at all.

As of the date of this year end financial statements dated April 30, 2024 the company had \$714,298 in cash in its bank account which is sufficient to meet its next 12 months of general administration and exploration expenses.

The Issuer estimates that the aggregate annual cost of general administration for its operations will be approximately \$252,000.

Administrative Expenses	Funds to be used
Management and Administration Fees	\$132,000
Miscellaneous Office and Supplies	\$10,000
Transfer Agent	\$15,000
Legal	\$25,000
CSE Yearly Maintenance Fees	\$10,000
Accounting and Audit	\$55,000
SEDAR Disclosure and Filings	\$5,000
Total	\$252,000

In addition, the Issuer started an exploration program on May 01 and completed the program on August 10, 2024. A cash payment will be due for \$40,000 on September 25 as a property payment under the Phillips Option Agreement. There are no other capital expenditures to be incurred by the Issuer during the period. As the Issuer becomes more active, expenditures could increase for late 2024 as new exploration activities or opportunities are identified.

The Issuer has no long-term debt. The Issuer has no financial commitments or obligations except to fund those costs related to the care and maintenance of some of its mineral property titles. There are no contingent liabilities of which the Issuer is aware of at this time. As the Issuer has not begun production on any of its properties, the Issuer does not have any cash flow from operations. The Issuer's main source of cash will be the money received from the issuance of securities (new issues, exercise of outstanding warrants and possibly options which none have been issued as of yet).

The Issuer will require additional equity financing in the coming years in order to fund its working capital requirements, maintain and explore its mineral properties in 2024 and beyond. If the Issuer is not successful in raising sufficient capital, the Issuer will have to curtail or otherwise limit its operations and exploration activities.

Share Capital

As at April 30, 2024, there are 23,021,493 shares issued, 1,850,000 stock options and 14,560,622 warrants.

There are presently 24,346,871 shares issued, 1,850,000 stock options and 15,648,193 warrants.

Status of Operations

The issuer has met all its financial commitments and all its filings with the CSE and sedar are in order. The company completed a sampling and drilling program at the qualifying property which started on May 01 and ended on August 10, 2024. There are no other capital expenditures to be incurred by the Issuer during the period. The company is presently waiting for assay results and doesn't expect to conduct any more exploration in 2024. The company will need to raise additional funds if it decides to resume exploration efforts.

Adoption of new and amended accounting standards

There were no new and amended accounting standards adopted during the year ended April 30, 2024 which have not already been disclosed in the audited financial statements of the Company for the year ended April 30, 2024.

Critical Accounting Estimates

The estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Management believes the estimates are reasonable; however, actual results could differ from those estimates and could impact future results of operations and cash flows.

Financial instruments and financial risks

(a) Risk management and hedging activities

In the normal course of operations, the Company is exposed to various financial risks. Management's close involvement in the operations allows for the identification of risks and variances from expectations. The Company does not meaningfully participate in the use of financial instruments to mitigate these risks. The Company has no designated hedging

transactions. The financial risks and management's risk management objectives and policies are as follows:

(i) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company. The Company is exposed to credit risk on certain of its financial assets which are cash which is held with an established Canadian financial institution which management believes the risk of loss to be remote. The Company does not have any derivatives or similar instruments that mitigate its maximum exposure to credit risk.

(ii) Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. Management monitors the Company's liquidity by assessing forecast and actual cash flows and by maintaining adequate cash on hand. It is management's opinion that it is unlikely that the Company will encounter difficulty in raising funds to meet commitments associated with its financial instruments. As at April 30, 2024, the Company has working capital in the amount of \$710,126 (2023 - \$1,122,221).

Related Party Transactions

Related parties include the Board of Directors, close family members and enterprises that are controlled by these individuals as well as certain persons performing similar functions. Related party transactions conducted in the normal course of operations are measured at the amount established and agreed to by the related parties.

The Company incurred the following transactions during the year ended April 30, 2024.

These transactions are in the normal course of operations and are measured at the same value as if the transactions had occurred with non-related parties.

Disclosure of Internal Controls

Management has established processes to provide them sufficient knowledge to support representations that they have exercised reasonable diligence that (i) the unaudited condensed interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed interim financial statements; and (ii) the unaudited condensed interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented. In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), this Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing this certificate are not making any representations relating to the establishment and maintenance of:

- i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP (IFRS).

The issuer's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in this certificate. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost-effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

Risks and Uncertainties An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Other risk factors can be seen in the company's final prospectus dated Dec 14, 2023 located on www.sedarplus.ca
