### **1. NATURE AND CONTINUANCE OF OPERATIONS**

Questcorp Mining Inc. (the “Company”) was incorporated under the laws of British Columbia on April 9, 2021. The head office of the Company is located at Suite 250, 750 West Pender Street, Vancouver, British Columbia, V6C 2T7 and the registered and records office is located at Suite 2200, 885 West Georgia Street, Vancouver, British Columbia, V6C 3E8.

During the period ended April 30, 2024, the Company completed its initial public offering (Note 5) and its common shares were listed on the Canadian Securities Exchange on December 11, 2023, under the trading symbol QQQ.

On May 22, 2024, all issued and outstanding common shares of the Company were consolidated on a 2:1 basis. All references to share, option, warrant and per share amounts have been retroactively restated to reflect the share consolidation.

These condensed interim financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to develop profitable operations. As at April 30, 2024, the Company had a working capital of \$16,862 (July 31, 2023 – \$22,501) and an accumulated deficit of \$592,991 (July 31, 2023 - \$247,345). These factors cast a significant doubt on the Company’s ability to continue as a going concern. The condensed interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

### **2. BASIS OF PREPARATION**

These condensed interim financial statements of the Company for the periods ended April 30, 2024 and 2023 have been prepared using accounting policies consistent with International Accounting Standard (“IAS”) 34, Interim Financial Reporting.

The condensed interim financial statements are presented in Canadian dollars, which is the Company’s functional currency.

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit or loss, which are stated at their fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The preparation of these condensed interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim financial statements and reported amounts of expenses during the period. Actual results could differ from these estimates.

These condensed interim financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the condensed interim financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

*Level 2* – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

*Level 3* – Inputs that are not based on observable market data.
