

Hybrid Power Solutions Delivers Innovative Power Unit to U.S. Military Police Through Strategic Partnership

Vancouver, British Columbia--(Newsfile Corp. - August 21, 2024) - Hybrid Power Solutions Inc. (**CSE: HPSS**) (**OTCQB: HPSIF**) (**FSE: E092**) ("**Hybrid**" or the "**Company**"), a leading provider of sustainable energy solutions, is pleased to announce the successful sale and delivery of one of its advanced power units to a branch of the U.S. Military Police through its strategic distributor, Military Battery Systems.

This sale marks a significant milestone for Hybrid Power Solutions, showcasing the versatility and reliability of its innovative power solutions in meeting the demanding requirements of military applications. While specific details about the end-user cannot be disclosed due to security considerations, this deployment underscores the growing adoption of Hybrid's technology in critical sectors.

"We are thrilled to see our power solutions being utilized by such a prestigious and demanding client," said Francois Byrne, CEO of Hybrid Power Solutions. "This sale not only validates the robustness and efficiency of our products but also highlights the strategic importance of our partnership with Military Battery Systems in reaching key military and government sectors."

The power unit supplied is designed to provide reliable, sustainable, and efficient power in challenging environments, aligning with the military's increasing focus on energy resilience and reduced environmental impact.

"Our collaboration with Military Battery Systems continues to open doors to critical markets where the need for dependable, clean power is paramount," added Byrne. "We look forward to further supporting the U.S. Military Police and other branches with our cutting-edge power solutions."

This sale is expected to pave the way for potential future orders and collaborations within the military sector, further solidifying Hybrid Power Solutions' position as a leading provider of advanced power systems for mission-critical applications.
