1. NATURE OPERATIONS AND GOING CONCERN

Bayridge Resources Corp. (previously Aspen Resources Corp.) (the “Company” or “Bayridge”) was incorporated in British Columbia under the British Columbia Corporations Act on October 7, 2022. The Company’s registered office is located at 220 – 333 Terminal Avenue, Vancouver, BC, V6A 4C1. The Company’s year end is December 31.

The Company has changed its name twice since its inception. On May 2, 2023, the Company changed its name from Shock Energy Metals Corp. to Aspen Resources Corp. and on May 30, 2023, from Aspen Resources Corp to Bayridge Resources Corp. The Company’s common shares were approved for listing on the Canadian Securities Exchange (the “CSE”) and began trading on November 27, 2023, under the stock ticker symbol “BYRG”, at market open.

The Company is in the process of exploring its exploration and evaluation property and has not determined whether the property contains mineral reserves which are economically recoverable. The recoverability of amounts shown for resource properties and related deferred costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and future profitable production from mining properties or proceeds from their disposition.

At March 31, 2024, the Company had a working capital of \$187,888 (December 31, 2023 - \$242,851), had not yet achieved profitable operations and has an accumulated deficit of \$692,953 (December 31, 2023 - \$487,390) since its inception. During the three months ended March 31, 2024, the Company recorded a net loss of \$205,563 (2023 - \$11,470) and expects to incur further losses in the development of its business. These circumstances comprise a material uncertainty which may cast significant doubt about the Company’s ability to continue as a going concern. The Company’s ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to conduct its planned work programs on its mineral properties, meet its on-going levels of corporate overhead and commitments, keep its properties in good standing and discharge its liabilities as they come due. These condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge liabilities in the normal course of business. Although the Company presently has sufficient financial resources to undertake its currently planned work programs and has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. Accordingly, the condensed interim financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts which may differ from those shown in these condensed interim financial statements.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events and potential economic global challenges such as the risk of higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company’s business.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These condensed interim financial statements, as at and for the three months ended March 31, 2024, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and interpretations of the IFRS Interpretations Committee (“IFRIC”).

Bayridge Resources Corp. (previously Aspen Resources Corp.)

Notes to the Condensed Interim Financial Statements

For the Three Months Ended March 31, 2024 and 2023

(Expressed in Canadian dollars)

(Unaudited)

2. BASIS OF PRESENTATION (continued)

(a) Statement of compliance (continued)

They have been prepared in accordance with the same accounting policies and methods of application as the most recent audited financial statements for the year ended December 31, 2023, except that they do not include all the disclosures required for the annual audited financial statements. These condensed interim financial statements should be read in conjunction with the audited consolidated financial statements for the Company for year ended December 31, 2023.

These condensed interim financial statements were approved and authorized by the Board of Directors on May 30, 2024.

(b) Basis of preparation

These condensed interim financial statements have been prepared on a historical cost basis, except for certain financial instruments that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for the cash flow information. All financial information in these condensed interim financial statements is presented in Canadian dollars which is the functional currency of the Company.

The accounting policies, estimates, and judgments applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year-ended December 31, 2023. The Company's interim results are not necessarily indicative of its results for a full year.

(c) Significant accounting estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make estimates, assumptions and judgments that affect the application of policies and reported amounts of assets and liabilities and disclosures of assets and liabilities at the date of the financial statements, along with reported amounts of expenses and net losses during the period. Actual results may differ from these estimates, and as such, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognized in the period in which the estimates are revised and in any future periods affected. Significant assumptions about the future and other sources of estimation uncertainty that management has made at the statements of financial position reporting date that could result in a material adjustment to the carrying value of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Judgments:

- The Company capitalizes acquisition costs on its statements of financial position and evaluates these amounts at least annually for indicators of impairment. The Company is required to conduct this review on an annual basis, and it requires significant judgment. Factors considered in the assessment of asset impairment include, but are not limited to, whether there has been a significant adverse change in the legal, regulatory, accessibility, title, environmental or political factors that could affect the property's value; whether there has been an accumulation of costs significantly in excess of the amounts originally expected for the property's acquisition, development or cost of holding; and whether exploration activities produced results that are not promising such that no more work is being planned in the foreseeable future. If impairment is determined to exist, a formal estimate of the recoverable amount is performed, and an impairment loss is recognized to the extent that the carrying amount exceeds the recoverable amount;
- Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects; and
- The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operating expenditures and to meet its liabilities for the ensuing year, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. The factors considered by management are disclosed in Note 1.

3. FINANCIAL INSTRUMENTS, RISK MANAGEMENT AND CAPITAL DISCLOSURES

(a) Fair value of financial instruments

As at March 31, 2024 and December 31, 2023, the Company's financial instruments consist of cash, accounts payable and accrued liabilities, and due to related parties.

IFRS requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. IFRS establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. IFRS prioritizes the inputs into three levels that may be used to measure fair value.

Level 1: applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2: applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the net asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3: applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

	Level 1	Level 2	Level 3	Total
March 31, 2024				
Cash	\$ 243,196	\$ -	\$ -	\$ 243,196
	\$ 243,196	\$ -	\$ -	\$ 243,196
December 31, 2023				
Cash	\$ 250,750	\$ -	\$ -	\$ 250,750
	\$ 250,750	\$ -	\$ -	\$ 250,750

As at March 31, 2024 and December 31, 2023, the Company believes that the carrying values of accounts payable and accrued liabilities and due to related parties approximate their fair values because of their nature and relatively short maturity dates or durations. During the three months ended March 31, 2024, and the year ended December 31, 2023, there were no transfers between levels of the fair value hierarchy.

(b) Risk Management

Credit Risk

Credit risk refers to the risk that the counterparty will default on its contractual obligation resulting in financial loss to the Company. Credit risk is primarily related to the Company's cash balance. To minimize this risk, cash has been placed with major Canadian financial institutions. The maximum exposure to credit risk for cash is \$243,196 (December 31, 2023 – \$250,750).

Interest Rate Risk

The Company is not exposed to significant interest rate risk due to the lack of interest-bearing financial assets and liabilities.

Bayridge Resources Corp. (previously Aspen Resources Corp.)**Notes to the Condensed Interim Financial Statements****For the Three Months Ended March 31, 2024 and 2023***(Expressed in Canadian dollars)**(Unaudited)***3. FINANCIAL INSTRUMENTS, RISK MANAGEMENT AND CAPITAL DISCLOSURES (continued)**Liquidity Risk

The Company ensures that there is sufficient capital in order to meet annual business requirements, after taking into account administrative, property holding and exploration budgets, and cash holdings. As the Company does not have operating cash flows, the Company has relied primarily on equity financings and loans from related parties to meet its capital requirements and current financial obligations (Note 1).

Commodity Price Risk

The Company's ability to raise capital to fund exploration or development activities and the determination of impairment of exploration and evaluation assets is subject to risk associated with fluctuations in the market prices of lithium.

(c) Capital Management

The Company considers its capital structure to include working capital and shareholders' equity. Management's objective is to ensure that there is sufficient capital to minimize liquidity risk and to continue as a going concern. Although the Company has been successful in the past in obtaining financing through the sale of equity securities, there can be no assurance that the Company will be able to obtain adequate financing in the future, or that the terms of such financing will be favourable. The Company's share capital is not subject to any external restrictions and the Company did not change its approach to capital management during the period.

4. MINERAL PROPERTY

6. SHARE CAPITAL

(a) Authorized

The Company is authorized to issue an unlimited number of common shares without par value.

(b) Issued and outstanding

As of March 31, 2024, the Company had 44,338,688 (December 31, 2023 – 42,057,688) shares outstanding. At March 31, 2024, 3,600,180 (December 31, 2023 – 3,600,180) shares were in escrow. 600,030 of these shares are to be released from escrow on May 27, 2024, with 600,030 shares being released every six months thereafter.

On March 11, 2024, the Company effected a subdivision of its total issued and outstanding common shares on the basis of one additional share for each share held on such date. The references to the number of common shares and warrants, have been adjusted retroactively to reflect the share subdivision. The exercise or conversion price of, and the number of common shares issuable under any securities of the Company has been proportionally adjusted upon the completion of the share subdivision.

During the three months ended March 31, 2024, the Company completed the following transaction:

- a) On January 2, 2024, the Company granted 50,000 non-assignable restricted share units (the “RSUs”) as compensation for consulting services to a consultant of the Company. These RSUs vested immediately, resulting in the issuance of 50,000 shares.
- b) In January 2024, the Company issued 453,000 shares on the exercise of 453,000 warrants for total cash proceeds of \$25,300.

6. SHARE CAPITAL (continued)

(e) Equity incentive plan

The Company issued a new Equity Incentive Plan (the “Plan”), the purpose of which is to attract, retain, motivate, and reward qualified Directors, Employees and Consultants, and to encourage such Directors, Employees and Consultants to acquire shares as long-term investments and proprietary interests in the Company. The Plan allows for the issuance of stock options or restricted share units (“RSUs”) (together referred to as “Awards”). The terms and conditions of the Awards granted shall be determined at the sole discretion of the Board of Directors.

The aggregate number of shares reserved for issuance pursuant to awards granted under this Plan shall not exceed 10% of the Company’s total issued and outstanding shares from time to time. The maximum number of shares for which Awards may be issued to any one participant in any 12-month period shall not exceed 5% of the outstanding shares, calculated on the date an Award is granted to a participant, unless the Company obtains disinterested shareholder approval. The maximum number of shares for which Awards may be issued to any Consultant or persons retained to provide investor relations activities in any 12-month period shall not exceed 2% of the outstanding shares, calculated on the date an Award is granted to the Consultant or any such person.

To the extent that any Awards (or portion(s) thereof) under the Plan are exercised, terminated or are cancelled for any reason prior to exercise in full, any shares subject to such Awards (or portion(s) thereof) shall be added back to the number of shares reserved for issuance under the Plan and will again become available for issuance pursuant to the exercise of Awards granted under the Plan.
