Notes to the Condensed Consolidated Interim Financial Statements For the six months ended June 30, 2024 and 2023 (Expressed in Canadian Dollars, unless otherwise noted)

1. Nature of Operations and Going Concern

BGX - Black Gold Exploration Corp. (formerly 1280582 BC Ltd.) (the "Company") was incorporated on December 21, 2020 in the Province of British Columbia. On February 24, 2022, the Company's name changed from 1280582 BC Ltd. to BGX - Black Gold Exploration Corp. The Company is in the business of acquiring and exploring oil and gas assets. The registered office of the Company is located on the 6th floor - 905 West Pender Street Vancouver, BC V6C 1L6. The Company's common shares are listed on the Canadian Securities Exchange and the Frankfurt Stock Exchange.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern under International Financial Reporting Standards ("IFRS"). The use of these principles under IFRS assumes that the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge its liabilities in the normal course of operation.

The Company has incurred net losses since inception and as at June 30, 2024 has a deficit of \$890,975 (December 31, 2023 of \$327,807). The Company's continuation as a going concern is dependent upon its ability to develop and attain profitable operations and generate funds from there, and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months with loans from directors and/or private placement of common shares. These factors indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include any adjustments to the recoverability and classification of recorded assets amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. Statement of Compliance and Basis of Presentation

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting of the International Financial Reporting Standards" ("IFRS") as issued by the International Accounting Standards Board ("IASB"), following the same accounting policies, including estimates and judgments and methods of application as those disclosed in the annual audited consolidated financial statements for the year ended December 31, 2023, except as described in the notes to the condensed consolidated interim financial statements. The condensed consolidated interim financial statements of the Company for the year ended December 31, 2023, which have been prepared in accordance with IFRS.

The condensed consolidated interim financial statements were authorized for issue by the Board of Directors on August 26, 2024.

Notes to the Condensed Consolidated Interim Financial Statements For the six months ended June 30, 2024 and 2023 (Expressed in Canadian Dollars, unless otherwise noted)

2. Statement of Compliance and Basis of Presentation (continued)

Basis of presentation

These condensed consolidated interim financial statements have been prepared on a going concern basis, under the historical cost convention, except for certain financial instruments which may be measured at fair value in subsequent periods and have been prepared using the accrual basis of accounting except for cash flow information.

Basis of consolidation

These condensed consolidated interim financial statements include the financial statements of the Company and the entity controlled by the Company: Spinell S.A. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All intercompany transactions and balances have been eliminated.

Functional and presentation currency

All amounts in these condensed consolidated interim financial statements are presented in Canadian dollars, the functional currency of the Company. The Company considers the primary and secondary indicators as part of its decision-making process. The financial statements are presented in Canadian dollars, which is the functional currency of the Company.

Significant accounting estimates and judgements

The significant estimates, assumptions and judgments applied to these condensed consolidated interim financial statements are the same as those applied to the Company's audited consolidated financial statements for the year ended December 31, 2023.

3. Material Accounting Policies

The material accounting policies applied to these condensed consolidated interim financial statements are the same as those applied to the Company's audited consolidated financial statements for the year ended December 31, 2023, except for the following:

Share-based payments

The Company grants stock options to purchase common shares and performance shares of the Company to directors, officers, employees and consultants. An individual is classified as an employee when the individual is an employee for legal or tax purposes, or provides services similar to those performed by an employee. The fair value of stock options is measured on the grant date using the Black-Scholes option pricing model and is recognized over the vesting period. Share-based payments are initially recorded to equity reserve. Subsequently, consideration paid for the shares on the exercise of share-based payments are credited to share capital. In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.

Notes to the Condensed Consolidated Interim Financial Statements For the six months ended June 30, 2024 and 2023 (Expressed in Canadian Dollars, unless otherwise noted)

3. Material Account Policies (continued)

The Company grants performance shares with vesting conditions not related to the market price of the equity instruments of the Company and, as a result, they are non-market performance conditions. Upon grant or issuance into escrow, the fair value of performance shares are recorded to equity reserve based on management's assessment of whether the vesting conditions will be met. The evaluation of whether vesting conditions will be met is reassessed every reporting period and changes, if any, are reflected in future periods. Upon vesting, the fair value of performance shares is transferred to share capital.

4. Risk Management and Financial Instruments

The Company's financial instruments consist of cash, short-term investments in Guaranteed Investment Certificates, receivables, accounts payable and accrued liabilities and subscriptions received in advance.

The Company's financial assets and liabilities are recorded and measured as follows:

| Asset or Liability | Category |
|--|----------------|
| Cash | FVTPL |
| Investment GIC | Amortized cost |
| Investment | FVTPL |
| Receivables | Amortized cost |
| Accounts payable and accrued liabilities | Amortized cost |
| Subscriptions received in advance | Amortized cost |
| Due to related parties | Amortized cost |

Fair value

IFRS 13 establishes a fair value hierarchy that reflects the significance of inputs used in making fair value measurements as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. from derived prices); and
- Level 3: inputs for the asset or liability that are not based upon observable market data.

Cash and investments under the fair value hierarchy was recorded based on Level 1 inputs. The fair values of other financial instruments, which include short-term investments in Guaranteed Investment Certificates, receivables, accounts payable and accrued liabilities and subscriptions received in advance, approximate their carrying values due to the relatively short-term maturity of these instruments.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous reported periods unless otherwise stated in the note. The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

Notes to the Condensed Consolidated Interim Financial Statements For the six months ended June 30, 2024 and 2023 (Expressed in Canadian Dollars, unless otherwise noted)

4. Risk Management and Financial Instruments (continued)

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company manages credit risk, in respect of cash, by placing cash at major Canadian financial institutions. Receivables are government sales tax receivable from the Canada Revenue Agency. The Guaranteed Investment Certificates are secured investments that the Company is able to sell into cash on demand; similarly, investments can be sold on demand. Management believes that credit risk is minimal.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due. The Company maintained cash at June 30, 2024 in the amount of \$35,253 and Guaranteed Investment Certificates of \$646,200 to meet short-term business requirements. At June 30, 2024, the Company had accounts payable of \$57,638. All of the Company's current financial liabilities have contractual maturities of less than 90 days. Liquidity risk is assessed as low.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

- (i) Interest rate risk
 Interest rate risk is the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The exposure to interest rates for the Company is considered minimal. The Company has no interest-bearing borrowings.
- (ii) Foreign exchange rate risk Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company is exposed to U.S. Dollar and Argentinian Peso foreign exchange fluctuations. The Company assessed this risk to be insignificant.
- (iii) Price risk The Company is not exposed to significant price risk.

5. Capital Management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern. The Company considers the items included in shareholders' equity as capital. The Company's primary source of capital comes from the issuance of equity instruments.

Notes to the Condensed Consolidated Interim Financial Statements For the six months ended June 30, 2024 and 2023 (Expressed in Canadian Dollars, unless otherwise noted)

5. Capital Management (continued)

The Company manages and adjusts its capital structure when changes in economic conditions occur. To maintain or adjust the capital structure, the Company may seek to additional funding through issuance of securities or new debt. The Company may require additional capital resources to meet its administrative overhead expenses in the long term. The Company believes it will be able to raise capital as required in the long-term but recognizes there will be risks involved that may be beyond its control. There were no changes to the Company's capital management approach during the six months ended June 30, 2024. The Company is not subject to any externally imposed capital requirements.

6. Investment GIC

As at June 30, 2024 the balance of GIC was \$646,200 (December 31, 2023 - \$967,986) and the Company earned \$14,731 in interest income related to this investment during the six months ended June 30, 2024 (June 30, 2023 - \$nil). The GIC carries an annual interest rate of 4% and the interest will be payable upon maturity.

7. Exploration and Evaluation Asset

On July 7, 2023, the Company entered into an amended purchase agreement with International Iconic Gold Exploration Corporation ("ICON") to acquire an oil and gas asset El Carmen (the "Property") by way of purchasing 95% interest in Spinell S.A. ("Spinell"), the owner of the property, in exchange for securities of the Company. The Company issued 2,100,000 common shares at a price of \$1.00 per share for a deemed transaction value of \$2,100,000 and the transaction was treated as an asset purchase transaction in accordance with IFRS 3. Of the total number of common shares issued for the transaction, 2,000,000 common shares of the Company are held in escrow until certain milestones are met in connection with the Property and will be issued to ICON once these milestones are met. These milestones include: 1,000,000 shares of the Company will be released from escrow upon the Property entering production of natural gas; and 1,000,000 shares of the Company will be released from escrow upon the Property entering production of oil.

During the six months ended June 30, 2024, the Company capitalized \$5,499 of exploration and evaluation expenses on the El Carmen property (June 30, 2023 - \$nil).

8. Related Party Transactions

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

During the three and six months ended June 30, 2024, the Company incurred \$15,000 and \$30,000 (June 30, 2023 - \$ nil and \$ nil) in management fees to Francisco Gulisano, a director and CEO of the Company, respectively. As at June 30, 2024, \$14,000 (December 31, 2023 - \$28,809) was included in accounts payable and accrued liabilities for management fees due to Francisco Gulisano.

On March 14, 2024, the Company issued 9,531 common shares at \$4.00 per share to settle an aggregate outstanding debt of \$38,124 owed to the CEO of the Company.

Notes to the Condensed Consolidated Interim Financial Statements For the six months ended June 30, 2024 and 2023 (Expressed in Canadian Dollars, unless otherwise noted)

8. Related Party Transactions (continued)

On March 7, 2024, the Company granted 100,000 stock options to the directors and officers of the Company with an exercise price of \$4.00 expiring on March 7, 2029. The options vest is accordance with terms between 2 to 5 years. During the three and six months ended June 30, 2024, \$31,897 and \$93,332 was the stock option expense related to the officers and directors of the company (June 30, 2023 - \$Nil and \$Nil) respectively.
