

BluSky Carbon to Join European Carbon Removal Lobby Group

OLD SAYBROOK, CT/VANCOUVER, BC / ACCESSWIRE / October 1, 2024 / **BluSky Carbon Inc.** (CSE: BSKY) (OTCQB: BSKCF) (FWB: QE4 /WKN A401NM) (“BluSky” or the “Company”), an innovative entry into the carbon removal clean technology sector is pleased to announce that an invitation to join the German Deutscher Verband für negative Emissionen e.V. (DVNE) organization has resulted in application acceptance as a general member of the organization.

The carbon removal association of Germany DVNE (English: German Association for Negative Emissions) was founded as a multi-stakeholder, industry-led platform to facilitate collaboration and the development of policies conducive to the formation and scale-up of an equitable, world-class carbon dioxide removal industry. The DVNE is believed to be the first ever national association for CO₂ removal. Founded in June 2023, the association is growing rapidly and has established itself as a competent, well-networked point of contact for the carbon dioxide removal industry. Find out more at: <https://dvne.org/>.

BluSky CEO Will Hessert notes, “The DVNE is an extraordinary organization focused on national, European and global goals relating to the removal of carbon dioxide. Germany, as the largest economy in the EU and one of the largest in the world, is fortunate to have strong industry leadership committed to spearheading transformation towards a sustainable future. BluSky already works with some of the member organizations regarding carbon removal verification technologies, as well as business development and sales opportunities. We aim to do our part to participate, learn, and bring some of the policies and ideas home in order to help build a more robust industry in North America.”

About BluSky Carbon Inc. (CSE: BSKY) (OTCQB: BSKCF) (FWB: QE4 /WKN: A401NM)

BluSky is a renewable energy company that is in the business of putting Carbon back into the ground – where it belongs! The Company converts organic and industrial waste into biochar, renewable power and carbonate rocks, as well as the development and sale of carbon capture technology. BluSky’s primary objectives are to (1) construct carbon removal equipment; (2) sell the biochar produced by the carbon removal equipment; and (3) sell carbon credits generated from the production of biochar. The Company’s business model is based on the growing need for carbon neutrality and demand to reduce CO₂ emissions.

BluSky Carbon is publicly listed in Canada on the CSE with the trading symbol BSKY, on the OTCQB as BSKCF, and in Frankfurt, Germany (FWB) with the identifier QE4. BluSky’s public filings and related documents are available on the Company’s profile page on SEDAR+ at www.sedarplus.ca. Forward Looking Information Disclaimer

This release contains statements and information that, to the extent that they are not historical fact, may constitute “forward-looking information” within the meaning of applicable securities legislation based on current expectations, estimates, forecasts, projections, beliefs and assumptions made by management of BluSky about the industry in which it operates. Forward-looking information may include financial and other projections, as well as statements regarding future plans, strategies, prospects, objectives or economic performance, or the assumption underlying any of the foregoing. In some cases, forward-looking statements can be identified by terms such as “may”, “would”, “could”, “will”, “likely”, “except”, “anticipate”, “believe”, “intend”, “plan”, “forecast”, “project”, “estimate”, “outlook”, or the negative thereof or other similar expressions concerning matters that are not historical facts.

Forward-looking information is based on current expectations, assumptions, estimates, forecasts, projections, analysis and opinions of management made considering its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information. Accordingly, readers should not place undue reliance on any such forward-looking information. Further, any forward-looking information speaks only as of the date on which such statement is made. New factors emerge from time to time, and it is not possible for the Company’s management to predict all such factors and to assess in advance the impact of each such factor on the Company’s business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking information. The Company does not undertake any obligation to update any forward-looking information to reflect information or events after the date on which it is made or to reflect the occurrence of unanticipated events, except as required by law, including securities laws.
